Segmental Performance

Consumer Durable Segment

The Revenue from this segment stood at Rs. 307.75 crores as against Rs. 185.50 crores, registering a robust growth of 65% over the corresponding quarter of the previous year. This is as a result of aggressive brand awareness campaigns supplemented by best in class after- sales service, which has resulted in Lloyd enjoying market share of around 14% and ranking among top 3-4 players in Indian Room AC market. The growth in consumer segment was also coupled with increased sales in other product categories, primarily LED TV and Washing Machine segments. Customer Delight has always been the cornerstone of Lloyd and we endeavor to remain committed by offering quality products with after sales services which is coined in our brand message "Khushiyon ki guarantee". Segment results stood at Rs. 22.06 crores as against Rs. 14.54 crores during previous year, registering an impressive growth of 52%.

OEM & Packaged Air-conditioning Segment

The Segment Revenue and Results was higher at Rs. 102.79 crores and Rs. 3.86 crores as compared to Rs. 81.04 crores and Rs. 1.52 crores respectively during last year, registering an impressive growth of 27% on revenue and remarkable segment results.

The Segment Revenue and Results stood at Rs. 135.89 crores and Rs. 16.01 crores as compared to Rs. 178.79 crores and Rs. 19.71 crores respectively during the corresponding quarter of the previous year. This segment caters to the manufacturing of heat exchangers and evaporator's coils for HVAC and refrigeration industry and copper and brass heat exchangers for railways, heavy automobiles and other industrial applications and Component business of Sheet Metal. The segment revenue and results were lower primarily due to the lower capacity utilization of the component business due to the lower demand intake from HVAC&R players.

International Presence

During the quarter, the total income from operations from all the subsidiaries was Euro 13 Million as against Euro 11 Million during the corresponding quarter of the previous year, registering a growth of 14%. The subsidiaries reported EBITDA of Euro 0.63 Million as against negative EBITDA of Euro -0.08 Million during the corresponding quarter of the previous year.

Despite global headwinds, which had resulted in decline of revenue from several customers in France, UK and Spain, good development came in from markets of Central and Northern Europe. During the quarter, Revitalisation project for Janka continued and further design driven savings are planned to be implemented in the coming quarters.
