Notes on Segment Information :

- The Company is in the business of Engineering and Product R&D services. The Company's primary reporting segment is geographical as the revenue in non software related areas are not more than 10% of the total revenue.
- Assets and liabilities used in the Company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.
- The group has identified Engineering Services and manufacturing as a secondary segment
