Subject: Half-Yearly report of India Grid Trust for HY 2023-24

Dear Sir/ Madam,

Pursuant to Regulation 23 of Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 read with all the Schedules and Circulars, as amended from time to time, please find attached the Half-yearly Report along with Annexures of India Grid Trust for the half year ended on September 30, 2023.

You are requested to take the same on record.

Thanking you,

For IndiGrid Investment Managers Limited

(Representing India Grid Trust as its Investment Manager)

Urmil Shah

The India Story – Economic Development versus Climate Goals

Majority of the nations globally are aligning themselves to the International Energy Agency's (IEA's) Net Zero by 2050 roadmap with higher energy investments across renewable and cleaner energy. Currently, global share of renewable energy falls around 28% of the total energy generation.

India's need to achieve aggressive climate targets is in juxtaposition with the rapid pace of economic growth the country is witnessing. India is acting as a major growth driver of the rising global energy demand, accounting for 25% of the global growth. As per International Energy Agency (IEA), it is poised to supersede the European Union by becoming the world's third-largest energy consumer, by 2030. However, with the strong global need of managing climate change and rising temperatures, India has announced its target of becoming Net Zero by 2070. On path of its Net Zero journey, India is also envisioning a 500 GW of installed renewable generation capacity by 2030.

Currently, India is ranked the third largest producer of renewable energy, with 42% of its installed capacity sourced from non-fossil fuel sources at ~179 GW. Over the next decade (2022-32), investments worth ~INR 25,000 Billion will be needed to meet the nation's renewable installation and battery storage requirements.

Accelerated Growth of the Indian Power Transmission Sector

Following the Government's mission of 'Power for All', through schemes like 'Saubhagya Yojana', and higher emphasis on green energy power generation, the nation's renewable energy generation sector, and the transmission and distribution network has entered a new phase of growth.

With the addition of new generation centres comprising largely of renewable energy sources, there has also been a fresh impetus to augment the country's transmission network with the twin objectives of improving the network efficiency and dealing with the inherent intermittency of renewable energy generation sources.

The Government is also focussing on leveraging digital technologies and smart grid solutions like advanced metering infrastructure, distribution automation, and demand response systems to improve the overall grid's operational efficiency, reduce losses, and enable better management of energy resources.

To support the growing electricity evacuation needs, the Indian transmission network (of 110 kV and above) will need to grow at a CAGR of 4 % between 2023-2028 adding over 7 INR 1,78,500 crore of TL during the period.

IndiGrid - Blazing Ahead

IndiGrid started its journey in 2016 with the vision of setting up an enviable yield platform focussed on participating in the rapidly developing power sector of the nation. Over the last 6 years, IndiGrid has emerged as the first and foremost power transmission InvIT of the country with a track-record of superior and stable operations, distributions and return to its unitholders.

IndiGrid, with its underlying theme of value-accretive acquisitions while maintaining AAA-rated cashflows, has grown its Assets under Management (AUM) from INR 37 Billion to INR 269 Billion. IndiGrid has successfully developed an ecosystem of revenue-generating assets portfolio coupled with operational excellence centred asset management capabilities powered by world-class digital tools to ensure a consistent portfolio performance.

With a vision to reach an AUM size of INR 300 Billion, IndiGrid is favourably placed to gain from the sizeable growth opportunity in the Indian transmission and renewable energy space. Through a planned acquisition pipeline, systematic and gradual diversification strategy and deepening investor base on equity and debt side, IndiGrid is placed in a steadfast position. IndiGrid maintains a continual focus on providing superior risk-adjusted total returns with stable cash yield and growth.

IndiGrid

FROM THE CEO's DESK

Dear Unitholders,

It gives me immense pleasure to put forth IndiGrid's semi-annual report for the first half of the financial year FY 2023-24. I express my heartfelt gratitude for your consistent support and am delighted to present details of the key milestones IndiGrid has achieved during the first two quarters of this fiscal.

Acquisition of VRET: A Landmark Deal

IndiGrid achieved a significant milestone during FY 2023-24 with the acquisition of 100% units from the Virescent Renewable Energy Trust (VRET). This acquisition increased the solar generation of IndiGrid five-fold from 138 MWp to 676 MWp This transaction was one of its kind as it was the first and only deal when an InvIT was acquiring another InvIT and it will set path for InvIT market becoming more mature.

During H1 FY 2023-24, post signing all definitive agreements and receiving requisite regulatory approvals, IndiGrid acquired 100% units of VRET along with its Investment Manager (IM) and Project Manager (PM) on August 25, 2023 at an enterprise valuation of approximately INR 40 Billion (inclusive of all closing adjustments).

IndiGrid and VRET have been working towards efficient closure of this transaction to pave way for a seamless integration. From a financial standpoint, VRET came under IndiGrid's fold from August 25, 2023 onwards and accordingly our second quarter financials include around a 35 days of VRET's revenue and profitability.

With the acquisition of VRET, at the end of H1 FY 2023-24, IndiGrid's overall portfolio stood at INR 269 Billion AUM with solar assets contributing $^{\sim}17\%$ to our overall asset base.

Maintaining a robust Balance Sheet

We have consistently focused on maintaining a healthy balance sheet based on optimum capital structure and diversifying sources of capital. As we added significant size of assets in our portfolio, we have also ensured financial prudence on our liabilities.

Large part of our portfolio expansion has been funded by long term debt capital by reputed financial institutions like, International Finance Corporation (IFC) and Indian Infrastructure Finance Corporation Limited (IIFCL). IFC is one of the most reputed multilateral institutions across the world and its partnership with IndiGrid further solidified our commitment to maintain highest standards of Governance and Sustainability. Additionally, we also raised ~ INR 403 Cr by way of preferential issue to some of the marquee investors and family offices during the period.

Overall, we have ended the H1 FY24 with Net Debt to AUM at 63.5%, significantly below the 70% leverage prescribed under SEBI InvIT Regulations, leaving sizable headroom for further growth.

By the end of H1 2023-24, our average cost of debt stood at 7.56% p.a., with fixed rate borrowings at around 84% of the total debt outstanding, cash balance at INR 18.7 billion including pending distribution for Q2 FY23, registering a healthy coverage ratio at 1.87x EBITDA to interest servicing.

Delivering Portfolio Performance

We ended the first half of the fiscal with our asset portfolio at 80 revenue generating elements, with 46 transmission lines, covering a total distance of ~8,468 circuit kilometres, 13 substations with ~17,550 MVA transformation capacity, and solar power generation capacity of 676 MWp, spread across 20 states and 1 Union Territory, and with an Asset Under Management worth ~INR 269 billion – a Y-o-Y growth of 27%.

We maintained our portfolio availability at 99.5% and generation from solar portfolio was above par with CUF of 21%.

During April to September of FY 2023-24, our Revenue from Operations and EBITDA recorded a growth of 16% and 7% respectively, on a year-on-year basis. Our NDCF for H1 FY 2023-24 was recorded at $^{\sim}$ INR 4820 Million, a Y-o-Y growth of 22%.

Post the second quarter, we have bumped up our quarterly DPU by 3% to INR 3.55 from INR 3.45. For the full fiscal FY 2023-24, the DPU guidance has been increased to INR 14.10 from INR 13.2 in FY 2022-23 - a growth of $^{\sim}7\%$.

Developing Optionality for Growth

Power sector has been on a transformative journey with the Government of India setting 500 GW renewable energy targets and leading energy transition from the front. This will result in substantial investment in renewable energy, transmission capacity, storage facilities and other associated sectors.

With various reforms and shifting green focus of the entire power value chain, we at IndiGrid are constantly working on identifying avenues for growth which fits our criteria of long-term predictable cash flows with superior risk adjusted returns. While we continue to look forward for growth opportunities in transmission space (both organic and inorganic), we have pro-actively been tracking growth opportunities in renewable energy, Battery Energy Storage Systems (BESS) and Smart metering which complements our strengths and adds additional opportunities for growth in the electricity sector.

At the beginning of this fiscal, to strengthen our expertise in the BESS space, we installed and commissioned a pilot project of solar panel banks coupled with BESS at our Dhule substation for meeting the substation's auxiliary consumption requirement. This facility acted as a test bed for augmenting our capabilities to participate in the

increasing energy transition opportunities in the solar and BESS space.

It gives me immense pleasure to share that we were recently awarded Letter of Intent (LOI) / Letter of Award (LOA) from BSES Rajdhani Power Limited (BRPL) to Design, Supply, Testing, Installation, Commissioning, Operation and Maintenance of 20 MW/ 40 MWh BESS in Delhi. This project has been envisaged on build, own, operate and transfer (BOOT) basis for a period of 12 years through tariff based competitive bidding (TBCB).

Focus on ESG Enhancement

Growth with conscience and a sense of responsibility remains our key focus. Upliftment of our Environment, Social and Governance (ESG) practices has been a key focus area for IndiGrid over the last fiscal continuing in the current H1 2023-24. Under each of the E, S and G umbrellas our teams have identified target areas to which all our initiatives are aligned.

We have conscientiously worked towards improving our environmental footprint by bringing in efficiencies in our energy and emission management and by better managing our waste consumption and waste management. Organically at IndiGrid, installation of solar panel banks coupled with BESS at our Dhule substation was an initiative directed at better management of our emissions. We plan to replicate similar setups across our other substations to reduce our overall carbon footprint. Additionally, setting and owning up BESS projects will not only allow us to improve on our efficiency in power delivery, but it will also help us to provide reliable power available responsibly to every household while growing our underlying power assets portfolio.

Inorganically, with our enhanced solar portfolio post VRET acquisition, IndiGrid's carbon footprint has improved drastically. ESG teams across IndiGrid and VRET have been working together to streamline and integrate processes across all our assets to effectively calculate our performance which will be shared in our subsequent reports.

One significant aspect which is critical to us at IndiGrid is our human capital, and we are committed to inculcate broader inclusivity in our workforce and providing equal opportunities based on performance. We launched our DE&I policy during FY 2022-23 which focusses on our targets and endeavours in ensuring promotion of equitable diversity across teams and levels. As on end of H1 FY 2023-24, IndiGrid's gender diversity in leadership and corporate roles stood at 20%. We have identified plans to increase our diversity ratio further across corporate as well onsite teams.

Our concentrated approach towards ensuring defect-free transmission lines resulted in our Company reporting 0.20 trips in H1 FY 2023-24 improving from 0.25 trips from last year.

Committed to India Infrastructure Growth

InvITs offer a promising solution to the challenge of balancing development and ownership, providing an appealing chance for developers and investors to participate in India's infrastructure growth story. We extend our gratitude to the Ministry of Finance, SEBI, and regulatory bodies for establishing a robust framework for InvITs and REITs, which have been and will continue to be pivotal in expediting the growth of the Indian infrastructure sector.

Within the transmission space, according to the National Infrastructure Pipeline (NIP), the power transmission segment is estimated to require a capital expenditure of "INR 3,040 Billion between 2020 and 2025. The state utilities are expected to spearhead the transmission segment with a projected capex of "INR 1,900 Billion. The NIP highlights the need to replicate successful models such as InvITs, REITs, and TOTs across various infrastructure sectors, including power transmission, to facilitate large-scale infrastructure expansion across the country.

We are of the opinion that the Indian energy sector is on the verge of a major transformation, as the need for renewable energy alternatives emerges stronger than ever, the demand patterns witness key shifts, electric mobility emerges as a prominent trend, among other developments. Given the current state of affairs, we at IndiGrid, foresee significant growth prospects and plan to expand our Assets Under Management in the coming years by addition of value accretive projects.

As I conclude, I would like to express my sincere appreciation to our valued unitholders for their steadfast dedication and partnership with IndiGrid. Thanks to your unwavering support and invaluable advice, we have successfully weathered the highs and lows of the past six and a half years and, moving forward, we remain committed to strengthening these relationships as we venture into our next growth trajectory phase.

I remain optimistic of our growth ahead and assure the unitholders of our commitment to growing responsibly and ethically, as always.

Warm Regards,

Harsh Shah

Chief Executive Officer

INDIGRID - INDIA'S FIRST POWER TRANSMISSION YIELD PLATFORM

Backed by KKR, IndiGrid is India's first power sector Infrastructure Investment Trust (InvIT), formed in 2016 with the goal of democratising ownership of the power infrastructure in India and providing reliable electricity to all. Six years ago, we embarked on this growth journey, built upon solid fundamentals of transparency, governance, and sustainability to provide superior risk-adjusted returns to unitholders by generating predictable, AAA-rated cash flows from our portfolio assets.

Our Vision

To become the most admired yield vehicle in Asia.

Our Mission

- INR 300 Billion AUM
- Predictable DPU with growth
- Best-in-class corporate governance

Our Key Driver

IndiGrid has been established with an objective of providing predictable returns and growth to the unitholders by transmitting reliable power across India.

- Periodic performance reviews
- Performance reports

- Well-managed receivables profile
- Industry best days outstanding

AMC PARTNERS AND SUPPLY CHAIN PARTNERS

- Site visits and inspection
- Supplier's visits
- Workshops/Training for ESG standards
- Consistent asset performance
- Roll-out of innovative solutions
- Well-managed expenses
- Upliftment of ESG standards across value-chain

REGULATORY BODIES

- Policy advocacy
- Meetings and industry forums
- E-mails and digital platforms
- Compliance reports
- Regulatory visits

 Positive regulatory measures like allowing FPIs, insurance companies to invest in debt securities of InvITs, etc.

- Meetings and correspondence
- Timely submission of financial reports/ quarterly reports
- Periodic submission of performance data
- AAA-rating
- Well-diversified and termed out borrowing profile
- Well-managed cost of borrowing
- Expanding lender base

COMMUNITIES

- CSR initiatives
- Community support programmes
- Awareness campaigns
- Focussed group discussion
- Announcements in local newspaper
- Increased number of beneficiaries
- Harmonious co-existence
- Limited ROW issues
- Collective growth

Employees

During the pandemic, there was an increased focus on overall welfare, well-being, health and safety of the employees. In the face of COVID-19, IndiGrid prioritised people's safety and well-being above all. The biggest challenge that first needed addressing was to ensure the safety of our employees, whether on-the-ground or in remote locations.

Safety: Our key priority

With digital readiness, workforce flexibility, transparent and two-way communication, supportive policies and empathy, we ensured to stand together in this war. IndiGrid also launched supportive medical packages, vaccination drives and well-being programmes to provide financial assistance to our employees during these tough times. Besides enabling work from home and providing equipment to enable this, we also created a COVID Taskforce for our employees and their families. Participating in comprehensive and multi-dimensional health enhancement programme led

our employees to enhance their wellness quotient at the physical, emotional and social level.

Build a transparent and winning culture

A combination of isolation, limited human contact, and fear and anxiety threatened the mental and physical well-being during the pandemic. This underscored the need for a permanent employee support system to care for employee safety, mental health and engagement, and productivity. At IndiGrid, valuing all stakeholders, including employees, regulators, and customers, has been a part of the DNA since our inception. Supportive HR initiatives like Work Enablement Policy, extended insurance and medical claim coverage, vaccination drives, flexible work hours, and other well-being offerings, helped ease the anxiousness for employees. Weekly townhalls and catch-up sessions were also scheduled to ensure two-way, transparent communication and to instill a sense of collective well being.

AMC Partners & Supply Chain

IndiGrid focussed on reimagining partner management and leveraged our capabilities to adapt to a fast-changing environment. Our dedicated partners, suppliers and vendors worked tirelessly during the challenging time of the pandemic to maintain their supply to our sites across India. Our teams stayed in touch with partner and vendors to allay their fears about the pandemic. With this, we ensured business continuity, addressed critical power needs and also achieved business growth.

Even as power transmission was declared as an "essential service", there were disruptions in the supply chain as several third-party service providers and vendors faced operational,

working capital, and labour issues. While it does not need continuous raw material, but the supply of spare parts for repair is critical. Similarly, the business is significantly dependent on other service providers like tax, valuation, regulatory, diligence. An effective resiliency plan at IndiGrid ensured minimal impact to our overall operations on account of any supply chain issues.

Communities

Continuing our tradition of promoting health and well-being of the communities we operate in, IndiGrid adopted several key measures to fight the pandemic. We continually worked with several NGOs to support affected communities around our locations. We also engaged in supply of daily provisions, masks and other essential items to frontline warriors. besides awareness, sanitisation campaigns for the local communities during the COVID pandemic.

We continue to support our local communities through free health check-up drives, initiatives in education, skill development and rural area infrastructure development.

DELIVERING HOLISTIC PERFORMANCE

H1 FY2024 - VALUE ACCRETIVE GROWTH

9% YoY

EBITDA Growth

>99.5%

Average availability

0.20

Trips per line

PORTFOLIO GROWTH

- AUM stable at ~INR 269 Billion
- Acquired Virescent Renewable Energy Trust (VRET) for ~INR 40 Billion

IMPROVING BALANCE SHEET STRENGTH

- Average cost of borrowing at 7.56%
- Net Debt/AUM at around 63.5% providing sufficient headroom for growth
- Raised INR 4200 Crores for VRET acquisition out of which another long term NCDs from World Bank funded International Finance Corporation (IFC) totaling INR 16.5 Billion for a tenure of 15 years
- While the interest rate scenario is rising and our incremental cost of debt may increase, we are well placed with low gearing levels and a AAA rating which allows us to leverage long term debt

RESILIENT ASSET MANAGEMENT

- Average availability maintained at >99.5% in H1 FY2024
- Improved reliability through implementation of DigiGrid across all the IndiGrid assets
- Low trips per line since inception on the back of preventive maintenance initiatives
- Implementation of Emergency Restoration System enabling to tackle unpredictable situations in an efficient manner
- Commissioned first Battery Energy Storage Systems (BESS) coupled with Solar installation at Dhule Substation (BDTCL), for offsetting the substation's auxiliary power consumption

INDUSTRY STEWARDSHIP

- FEMA Regulations amended to permit FPIs to invest in debt securities of InvITs and REITs
- Trading lot size reduced to ONE unit for publicly listed InvITs
- PFRDA enabled NPS-backed pension funds to invest in debt securities of InvITs
- Since IndiGrid's listing in 2017, a total of 22 InvITs have registered in India including the PG InvIT and the NHAI InvIT

INDUSTRY STEWARDSHIP

- Maximising private sector participation in electricity sector for both green field and National Monetisation Pipeline
- Focus on increasing awareness about IndiGrid and InvITs

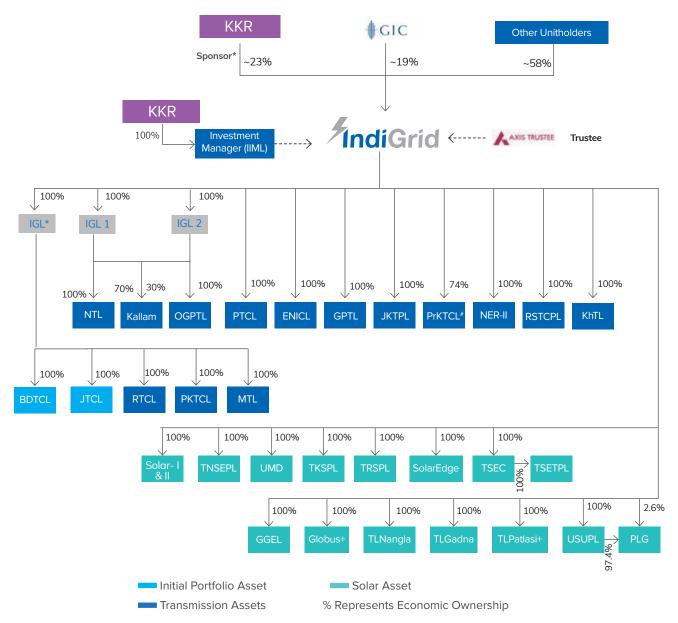

ABOUT INDIGRID

IndiGrid was established in 2016 with an objective of providing superior risk-adjusted returns to the unitholders by owning power transmission and renewable energy assets in India.

INDIGRID'S CORPORATE STRUCTURE

IGL= IndiGrid Ltd, IGL1= IndiGrid 1 Ltd, IGL2= IndiGrid 2 Ltd, BDTCL= Bhopal Dhule Transmission Company Ltd, JTCL= Jabalpur Transmission Company Ltd, RTCL= RAPP Transmission Company Ltd, PKTCL= Purulia & Kharagpur Transmission Company Ltd, MTL= Maheshwaram Transmission Ltd, PTCL= Patran Transmission Company Ltd, NTL= NRSS XXIX Transmission Ltd, Kallam = Kallam Transmission Ltd, OGPTL= Odisha Generation Phase II Transmission Ltd, ENICL= East-North Interconnection Company Ltd, GPTL= Gurgaon Palwal Transmission Ltd, JKTPL= Jhajjar KT Transco Pvt Ltd, PKTCL= Parbati Koldam Transmission Company Ltd, NER-II Transmission Ltd, Solar I Ransmission Ltd, Solar R

^{*}IGL also holds 100% of Virescent Infrastructure Investment Manager Pvt Ltd (VIIMPL), along with its wholly owned subsidiary Virescent Renewable Energy Project Manager Pvt Ltd (VREPMPL), which will be merged with IGL

[#]PrKTCL held in a Joint Venture with Power Grid holding 26% stake

⁺Globus and TLPatlasi hold 33% each in Terralight Solar Energy Sitamauss Pvt Ltd, balance owned by Brookfield entities

OUR KEY STAKEHOLDERS

Investment Manager

INDIGRID INVESTMENT MANAGERS LTD (IIML)

IndiGrid Investment Managers Limited (IIML) is the Investment Manager for IndiGrid. The Investment Manager is responsible for the operations pertaining to the Trust, such as distribution of cash flows, acquisition/divestment of assets, etc.

IIML executed Investment Management Agreement with IndiGrid on November 10, 2016, as amended and restated from time to time. As per the provisions of the Investment Management Agreement, IIML is empowered to:

 Take all decisions in relation to the management and administration of IndiGrid's assets and investments

- Oversee the activities of the Project Manager in terms of the InvIT Regulations and applicable Law
- Issue and allot units, accept subscriptions to units of IndiGrid and issue, transfer units to unitholders or other such people and undertake all related activities
- Engage teams for asset management, M&A, capital raising, compliance, engineering and finance & accounting

As on date, KKR owns 100% stake in IIML.

BOARD OF DIRECTORS

- * Independent Director
- # Non-Executive Directors

Sponsor

ESOTERIC II PTE. LTD. (KKR)

Esoteric II Pte. Ltd., an affiliate of KKR, is a sponsor for IndiGrid. In the 3rd Annual General Meeting of IndiGrid held on September 28, 2020, the unitholders approved the induction of Esoteric II Pte. Ltd. as a sponsor (as defined under the InvIT Regulations) by a special majority (> 75% voting). This move marked an extension of IndiGrid's strategic relationship with KKR and is expected to expand IndiGrid's access to long-term capital. KKR's induction has allowed the Trust to leverage KKR's global experience of investment management, along with enhancing its corporate

governance standards in line with global standards. KKR had invested in IndiGrid in May 2019 and currently owns an ~24% stake in the platform. Separately, KKR also owns 100% stake in IndiGrid Investment Managers Limited (IIML), the Investment Manager of IndiGrid. The unitholders of IndiGrid at their Extra Ordinary General Meeting held on June 6, 2023 approved de-classification of status of Sterlite Power Transmission Limited as a Sponsor and SEBI approval received vide letter dated July 06, 2023

BOARD OF DIRECTORS

Ms. Madhura Narawane Goh Ping Hao Mr. Tang Jin Rong

AN ESTEEMED BOARD

Mr. Tarun Kataria has over 30 years of rich experience in banking and capital markets, working across New York, Singapore, Hong Kong and Mumbai. He was appointed as an Additional Independent Director on the Board of the Investment Manager on October 29, 2016 and has been serving as an Independent Director since September 22, 2017. He is an Independent Director of Westlife Foodworld Limited and Global Moats Fund (Mauritius). Previously, he was the CEO of Religare Capital Markets Limited, Managing Director and Head of Global Banking and Markets at HSBC India and Vice Chairman of HSBC Securities and Capital Markets Private Limited. He has a Master's degree in Business Administration in Finance from the Wharton School of the University of Pennsylvania. He is also a Chartered Accountant.

MR. TARUN KATARIA Independent Director

MR. ASHOK SETHI Independent Director

Mr. Ashok Sethi has over four decades of experience in the power sector with significant knowledge in project execution, operations, commercial, regulatory, advocacy and policy making. He was appointed as an Independent Director on the Board of the Investment Manager on October 20, 2020. A B.Tech from IIT Kharagpur, he also did advance management at Ashridge, UK. He currently serves as Non-Executive Chairman of Tata Consulting Engineers Limited as well as a Director in Power Exchange India Limited. In his last executive role, he served as Chief Operating Officer and Executive Director of Tata Power (2014 to 2019). He was also the Chairman of various subsidiary companies of Tata Power. He holds a Bachelor's degree of Technology in Metallurgical Engineering from the Indian Institute of Engineering at Kharagpur. He was awarded CBIP Award 2019 for Excellent Contribution in Power Sector and is also a Member of the Institute of Directors.

MS. JAYASHREE VAIDHYANATHAN Independent Director Ms. Vaidhyanathan has decades of experience in driving product strategy in the Digital Transformation space, product innovation, risk management, M&A, technology delivery and execution. She is currently the CEO of BCT Digital – a global technology company specialising in innovation in predictive analytics, Al and IOT. She also serves as the Independent Director on Board of UTI Asset Management Company as the Chairwoman of the Digital Transformation Committee and serves on the risk and stakeholder management committees. Ms. Vaidhyanathan is a three-time winner of the prestigious Stevie Award, including a Lifetime Achievement Award in addition to being Databird Female Executive of the Year, CEO of the year 2020 by Fintech Futures, Top 10 Influential Woman in Technology 2020 by Analyst Insights and has also been listed amongst Fortune's Most Inspiring Women. Ms. Vaidhyanathan holds a MBA in Finance & Strategy from Cornell University and a BE in Computer Science & Engineering from Madras University, India. She is also a CFA Charter Holder.

Mr. Shah is a member of the Asia-Pacific Infrastructure team of KKR since 2018 and is responsible for Infrastructure investments in India. Mr. Shah began his career at Macquarie Group in Sydney where he spent over 10 years across their Sydney and Mumbai offices and was involved in building their India Infrastructure business. More recently, he led Brookfield's India business in India and was responsible for building Brookfield's team and presence. Mr. Shah has led ~US\$ 4 Billion of transactions in India across various infrastructure sectors such as Telecom Towers, Toll Roads, Airports, Energy transportation and Renewable Energy. Mr. Shah holds a Post-Graduate degree from S.P. Jain Institute of Management & Research (Mumbai) and is a CFA Charter holder.

MR. HARDIK SHAH Non-Executive Director

MS. AMI MOMAYA
Non- Executive Director

Ms. Ami Momaya joined KKR in 2022 and is a member of the Asia-Pacific Infrastructure team. Ms. Momaya is responsible for infrastructure investments in India. She began her career at Morgan Stanley where she spent 17 years across India and New York offices. She was instrumental in building their India infrastructure business. As a part of Morgan Stanley's infrastructure business, Ms. Momaya led transactions across transportation, logistics and renewable energy. Prior to joining the Infrastructure Fund in 2008, Ms. Momaya worked at Morgan Stanley's Investment Banking Division in New York where she focused on buyouts, mergers & acquisitions, initial public offerings and financings in services, outsourcing and payment processing sectors. Ms. Momaya holds a Bachelors in Commerce from Mumbai University and a Post Graduate degree from the Narsee Monjee Institute of Management Studies (Mumbai).

MR. HARSH SHAH
Chief Executive Officer
and Whole-time Director

Mr. Harsh Shah has extensive experience in infrastructure sector across bidding, financing, operations, mergers and acquisitions and regulatory policy. He is the Chief Executive Officer and Whole-time Director of IndiGrid and has been instrumental in setting IndiGrid up as India's first Infrastructure Investment Trust in the power transmission sector. He is also a member of the SEBI Advisory Committee for InvITs and REITs. Previously, he worked with Azure Power, Sterlite Power Transmission Limited, Larsen & Toubro Limited, L&T Infrastructure Finance Company Limited and Procter & Gamble International Operations Pte. Limited. He holds a Master's degree in Business Administration from National University of Singapore and a Bachelor's degree in Electrical Engineering from Nirma Institute of Technology, Gujarat University.

OUR MANAGEMENT TEAM

Mr. Harsh Shah has extensive experience in infrastructure sector across bidding, financing, operations, mergers and acquisitions and regulatory policy. He is the Chief Executive Officer and Whole-time Director of IndiGrid and has been instrumental in setting IndiGrid up as India's first Infrastructure Investment Trust in the power transmission sector. He is also a member of the SEBI Advisory Committee for InvITs and REITs. Previously, he worked with Azure Power, Sterlite Power Transmission Limited, Larsen & Toubro Limited, L&T Infrastructure Finance Company Limited and Procter & Gamble International Operations Pte. Limited. He holds a Master's degree in Business Administration from National University of Singapore and a Bachelor's degree in Electrical Engineering from Nirma Institute of Technology, Gujarat University.

MR. HARSH SHAH
Chief Executive Officer
and Whole-time Director

MR. NAVIN SHARMAChief Financial Officer

Mr. Navin Sharma is the Chief Financial Officer of the Investment Manager. He is a Chartered Accountant with more than two decades of diverse experience. He has worked at multiple sectors ranging from cybersecurity, telecommunications equipment, electronics products, and textiles and has deep experience across domains of finance, accounting, and taxation. Prior to joining IndiGrid, Navin was associated as the Chief Financial Officer of Quick Heal Technologies Limited and led their finance team to drive business strategy, customer acquisition, mergers and acquisitions, transfer pricing, financial planning and analysis and risk management. He has previously worked with Sterlite Technologies Limited, Raychem RPG & Century Textiles & Industries Limited.

MS. MEGHANA PANDIT
Chief Investment Officer

Ms. Meghana Pandit is the Chief Investment Officer at IndiGrid since 2018. She holds a Bachelor's degree in Commerce and a Master's degree Management Studies from the University of Mumbai, has cleared all three levels of CFA, CFA Institute (US) and a Post Graduate Diploma in Financial Analysis from the Institute of Chartered Financial Analysts of India. She has over 19 years of experience in investment banking and corporate finance, covering the infrastructure sector across private equity transactions, mergers and acquisitions, initial public offerings, qualified institutional placements and infrastructure investment trusts, in sub-sectors such as roads, airports, renewable power, thermal power, ports and real estate. She has previously worked in IDFC Bank, Deloitte Financial Advisory Services India Private Limited and Essar Steel Limited.

MR. SATISH TALMALE
Chief Operating Officer

Mr. Satish Talmale is the Chief Operating Officer at IndiGrid. He has diverse expertise over 22 years largely in power generation in Thermal (majorly Gas), Renewables and now in Transmission sector. He has gained diversified strategic and operational experience in P&L Management, Business Transformation, Portfolio Risk Management, Services Operations, Project Management, Sales/Commercial Operations and handson with EPC/O&M services. He has demonstrated strong expertise in continuous improvements to unlock the value of assets. He has previously worked with Ingersoll Rand as Services Director (MEIA) and prior to that, he worked with GE Power (including BHEL-GE JV) for ~14 years in various capacities in engineering, sales, commercial and services including asset management of wind assets across South Asia. He started his career with Larsen & Toubro Limited in Power division and holds B.E (Mechanical) Engineering degree along with Executive MBA from IIM-Calcutta.

MR. KUNDAN KISHORE Head – Human Resources Mr. Kundan Kishore is the Head – Human Resources at IndiGrid. He has over 11 years of experience across different human resources functions. He holds a Bachelor's Degree in Engineering (Electrical Engineering) from Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal and has completed the two-year (full-time) post graduate diploma in management (human resource) in 2009 from the International Management Institute. He has previously worked with Bennett, Coleman & Co. Ltd., KEC International Limited and TransUnion CIBIL Limited.

MR. URMIL SHAH
Company Secretary &
Compliance Officer

Mr. Urmil Shah, serves as the Compliance Officer at IndiGrid. He joined IndiGrid in July 2019. Previously, served as the Company Secretary of IRB Infrastructure Private Limited (Investment Manager of IRB InvIT Fund) and was designated as the Compliance Officer of IRB InvIT Fund. Mr. Shah holds a Bachelor's degree in Commerce and is an Associate of the Institute of Company Secretaries of India. Prior to joining IRB in 2011, he was part of the Secretarial department of Great Offshore Limited. He has several years of experience in secretarial and compliance functions.

KKR - A leading global investment firm

- KKR is a leading global investment firm with over 46 years of experience and a strong track record of performance
- It sponsors investment funds that invest in private equity, credit and real assets and has strategic partners that manage hedge funds
- It has US\$ 519 Billion of AUM globally (as of June 30, 2023) with offices in 17 cities across 4 continents
- Infrastructure is a core focus for KKR, where it has completed "70 investments across several infrastructure subsectors since 2010 and "US\$ 55 Billion of assets under management
- KKR had established the Asia-Pacific Infrastructure team to address the significant and growing infrastructure investment needs across the region

KKR's strategy to invest in India

FAVOURABLE LONG-TERM OUTLOOK

 India offers a positive long-term economic outlook, given its favourable demographic trends, stable macro-economic indicators and ongoing structural reforms

ONE OF KKR'S CORE MARKETS

 Invested Billions of US dollars in Indian companies across strategies including private equity, infrastructure and credit since 2006

ATTRACTIVE INFRASTRUCTURE INVESTMENT DESTINATION

- Believes India's infrastructure needs over the next 25 years will remain significant
- Demand for infrastructure coincides with an increasingly robust and liberalised regulatory regime, positioning India as a prime investment destination

KKR's strategy to invest in ASIA-PACIFIC

PLAY TO KKR'S COMPETITIVE ADVANTAGE

- Extensive Asia-Pacific platform that has delivered positive and consistent investment performance
- Leading global infrastructure platform with deep expertise and a strong track record across several geographies and sub-sectors
- Access to a dedicated team of professionals focussed on value creation and operational enhancements

DIFFERENTIATED INVESTMENT APPROACH

- Track record of leveraging deep local relationships to generate proprietary deal flow
- Strong alignment of interest with investors

CAPITAL PROTECTION WITH PARTICIPATION IN GROWTH

- Strategy targets existing enterprises and corporate build-up strategy
- Brownfield and platform investments
- Contracted/regulated assets and well-positioned growth-oriented assets
- Yield-generating assets and reinvesting for growth
- Modest leverage profiles

NOTE: The reference to KKR includes funds, vehicles and/or entities managed and/or advised by Kohlberg Kravis Roberts & Co. L.P. and its affiliates.

Trustee

AXIS TRUSTEE SERVICES LIMITED

Axis Trustee Services Limited, registered as an intermediary with SEBI under the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, serves as the Trustee for IndiGrid.

The Trustee, independent of Sponsor and Investment Manager, is entrusted with the custody of the assets ensuring highest standards of corporate governance. The Trustee has signed a Trust Deed with IndiGrid on October 21, 2016, as amended and restated from time to time. As per the provisions, the Trustee is supposed to:

- Approve distribution to unitholders
- Ensure compliance of rights attached to the units
- Oversee voting of unitholders
- Appoint an Investment Manager and Project Manager and delegate its responsibilities to them in writing

- Enter into various agreements, including the Investment Management Agreement, Project Implementation and Management Agreement and other documents
- Ensure that the Investment Manager takes investment decisions in the best interest of the unitholders
- Ensure the Investment Manager performs its obligations in accordance with the InvIT Regulations, oversees activities of the Project Manager and ensures receipt of relevant records and information from the Project Manager
- Employ and pay at the expense of IndiGrid, to any agent in any jurisdiction whether attorneys, solicitors, brokers, banks, trust companies or other agents

Project Manager

The Investment Manager has executed a Project Implementation and Management Agreement (PIMA) with IGL for its appointment as a Project Manager for all Project SPVs with effect from June 30, 2021. The Investment Manager has also amended and restated PIMA for newly acquired Solar assets. The Project Manager is responsible for:

- Support operations of IndiGrid's assets as per the terms and conditions of the O&M agreements, either directly or through the appointment and supervision of appropriate agents
- Provide additional services to IndiGrid's assets on the terms and conditions set out in the Project implementation and Management Agreement.

Unitholders

As of September 30, 2023, total Foreign Institutional Investors (FPI) ownership (including sponsor) in IndiGrid is at ~50%. KKR (Sponsor) owns ~23%, GIC owns ~19% while the balance 8% is held by other marquee foreign investors. Domestic Institutional Investors (DII) and corporates hold ~25%. Retail holding is at 22%, which has quadrupled in value since IPO.

UNITHOLDING PATTERN (As on September 30, 2023)

- ◆ 18% Corporates & Trusts
- ◆ 6% Insurance
- ◆ 4% Others
- 23% KKR (Sponsor)
- ◆ 19% GIC
- 8% Other Flls
- 22% Retail

OUR KEY STRATEGIC ENABLERS

IndiGrid's key strategies have been developed around our core pillars underpinning the strategic aspects of our business and intended to build a resilient and responsible organisation. IndiGrid's main objective is to continue to ensure transmission of reliable power to all while delivering superior risk-adjusted total returns to unitholders.

At IndiGrid, our key strategy is to achieve our stated objectives and ensure the organisation is on the course of long-term, sustainable and responsible growth. Owing to our resilient business model, we are growing continually and providing superior risk-adjusted returns to unitholders. The Trust is enabling this by investing in long-term stable cash-generating power transmission and solar assets.

OUR STRATEGIES ARE BUILT ON THE BELOW PILLARS:

Focussed
Business Model

Value Accretive Growth

Optimal Capital Structure

Best-in-Class Corporate Governance

Focussed Business Model

LONG-TERM AAA-RATED CASH FLOWS

- Own operational power assets
- Long-term contracts with technical asset life of more than 50 years
- Pre-contracted availability-based tariffs
- Focus on acquiring high quality AAA-rated accretive acquisitions

LOW RISK ANNUITY RETURNS

- Limited construction risk
- Diversify counterparty risk
- Minimal counterparty risk due to the inherent tariff payment security mechanism
- Transmission costs form a relatively lower proportion of the total operational costs

Value-Accretive Growth

GROWING DPU

- FY2024 DPU guidance increased to INR 14.10 per unit announced on November 03, 2023
- Seventh instance of DPU increase by IndiGrid since listing
- Delivering predictable DPU and growing it sustainably
- Value-accretive acquisitions aimed at stabilising and growing the DPU

MAXIMISING TOTAL RETURNS

- IndiGrid's track record of accretive acquisitions, resilient operations and a strong balance sheet have allowed us to underpin our goal of sustainably and responsibly growing returns for our investors despite the volatility of capital markets
- The planned acquisition of framework assets along with third-party acquisitions enable incremental growth in DPU yield as well as capital appreciation

Optimal Capital Structure

COMPLIANCE WITH INVIT

- 70% leverage cap on borrowings
- Active and prudent liability management by focussing on long-tenure loans
- Focus on reducing cost of borrowing

MAXIMISING DISTRIBUTION

- Maximise cash upstreaming to IndiGrid and to the Company's unitholders from SPVs
- Focus on AAA-rated cash flows, accretive acquisitions and resilient operations

LOW COST OF CAPITAL

- Focus on diversifying our sources of debt and elongate tenures in incremental facilities
- Evaluate both private and public markets for debt and equity capital
- Raise pre-emptive capital to maintain headroom for funding future acquisitions
- Appropriate risk policies to manage foreign exchange and market risks

Best-in-Class Corporate Governance

ELIGIBILITY AND LOCK-IN

- At least 80% of InvIT's assets have to be revenue-generating for one year prior to the acquisition, ensuring operational stability
- Not more than 10% assets of InvIT's can be under construction or liquid assets
- The Sponsor should remain invested and hold at least 15% of units of InvIT for three years after the initial offer of units

INDEPENDENCE

- Quarterly valuation of assets along with physical inspection
- 50% of the Board of Investment Manager to be independent
- Investment Committee comprises of 50% of Independent Directors
- Independent & thorough Technical, Financial, Legal & Environment Due Diligence
- 100% stake in Investment Manager held by KKR

DISTRIBUTION

- At least 90% of the net distributable cash flows needs to be distributed to the unitholders, at least every six months
- Grow DPU in sustainable and steady manner to ensure predictable cash flows to investors
- Quarterly distribution to the unitholders instead of the prescribed half-yearly distribution

UNITHOLDER RIGHTS

- The unitholders have the ability to appoint and remove the Investment Manager
- Any debt raising beyond 25% of asset value also requires unitholder vote
- Majority vote is essential for all Related Party Transactions and exceeding
 5% of asset value
- Over 98% approval rate from investors in last 10 unitholders meetings (except one)

OUR ASSET PORTFOLIO

In our short but eventful existence, we have come a long way – from two power transmission projects with 1,930 circuit kilometres and 6,000 MVA transformation capacity to 16 power transmission projects (15 operational and 1 under construction) consisting of 46 transmission lines (~8,468 cKms) and 13 substations (~17,550 MVA capacity). With the acquisition of VRET, IndiGrid has five-fold increase in the solar generation capacity to 555 MW with 18 operational solar plants. IndiGrid has also ventured in the space of Battery Energy Storage Systems (BESS) and has recently been awarded letter of award for 20 MW/ 40 MWh BESS project. IndiGrid has now expanded its presence across 20 states and one Union Territory in India.

Since listing, our assets under management (AUM) have increased more than six-fold from INR 37 Billion in June 2017 to over INR 269 Billion in September 2023. The current portfolio has a total circuit length of approximately ~8,468 cKms (across 46 transmission lines, 10 x 765 kV lines and 33 x 400 kV lines and 3 x 132 kV lines), and 17,550 MVA (across 13 substations) of transformation capacity and 555 MW of solar power plants across 20 states and one Union Territory. Most of the portfolio assets have in place long-term Transmission Services Agreements (TSAs) of 35 years from the scheduled commercial operation date of the relevant portfolio asset, after which we can apply to CERC for extension if not unilaterally extended by CERC.

All our transmission assets are located in strategically important areas for electricity transmission connectivity, delivering power from generating centres to load centres to meet inter-regional power deficits. Once a transmission project has been commissioned, it requires relatively low levels of expenditure to operate and maintain, which means that the assets will have the benefit of owning a critical asset without incurring significant operational costs. The transmission line business enjoys a longer asset life of ~50 years as compared to other infrastructure projects, such

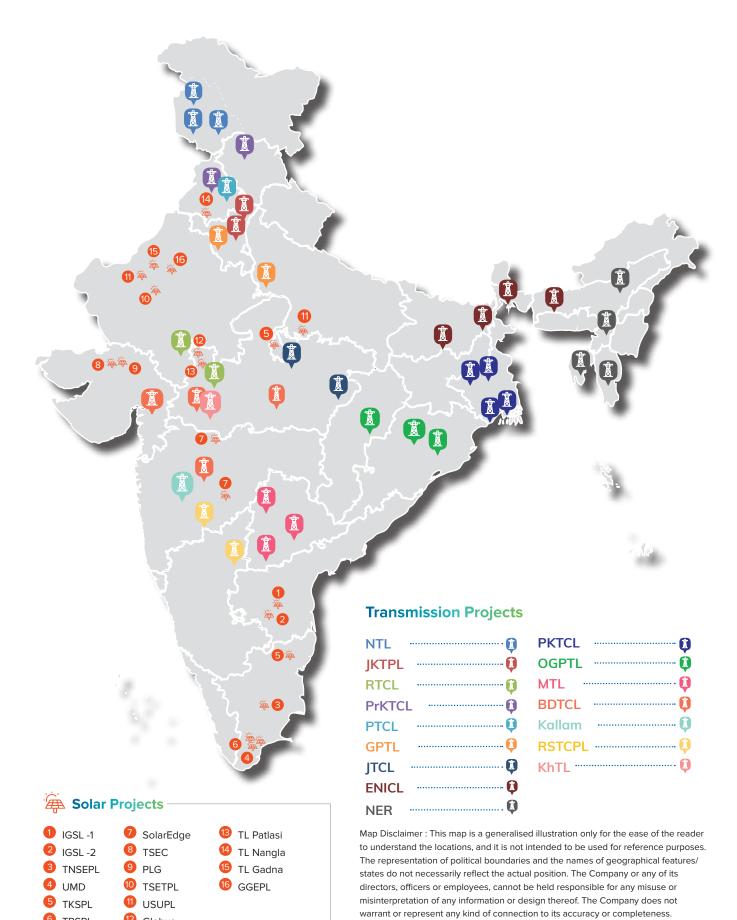

as roads. The transmission lines of the portfolio assets are predominantly located in areas where developing alternate lines may be challenging due to the terrain, challenges in obtaining rights of way, limited corridors and high construction costs. This puts us in an advantageous position to capitalise the opportunities to increase our power transmission capacity through the same corridor by upgrading our existing systems.

The portfolio assets, are owned by us directly or indirectly through our wholly-owned subsidiary, IndiGrid Limited (IGL), IndiGrid 1 Limited (IGL 1) and IndiGrid 2 Limited (IGL 2). Through IGL, IGL1 and IGL 2, 100% legal and economic ownership of BDTCL, JTCL, PKTCL, RTCL, MTL, NTL, OGPTL and Kallam is held by IndiGrid. PTCL, ENICL, GPTL, JKTPL, PrKTCL*, NER-II, NER-II, Solar I & II, RSTCPL, KhTL, TNSEPL, UMD, TKSPL, TKSPL, TRSPL, SolarEdge, TSEC, GGEL, Globus, TLNangla, TLGadna, TLPatlasi, USUPL. are directly owned by IndiGrid. Through TSEC and USUPL, 100% legal and economic ownership of TSETPL and PLG respectively is held by IndiGrid

NOTE: *PrKTCL held in a Joint Venture with Power Grid holding 26% stake

SNAPSHOT OF PORTFOLIO ASSETS

TRSPL

Globus

ACQUISITION HISTORY

The Initial Portfolio Assets comprised of two power transmission projects located across four states in India. These projects comprise eight EHV Overhead Power transmission lines, comprising of six 765 kV transmission lines and two 400 kV transmission lines, with a total circuit length of approximately 1,930 cKms, and two sub-stations with 6,000 MVA of transformation capacity.

February 2018

Acquired three power transmission projects i.e. PKTCL, MTL and RTCL from our sponsor as under the ROFO deed. These projects comprise five EHV Overhead Power transmission lines, comprising of five 400 kV transmission lines, with a total circuit length of approximately 1,425 cKms across five states in India.

August 2018

Additionally, as part of our growth strategy of acquiring third-party transmission assets, acquired Patran Transmission Company Limited ("PTCL") from Techno Electric & Engineering Company Ltd. ("TEECL"), with one substation having 1,000 MVA of transmission capacity in Punjab.

August/September 2020

Completed acquisition of Gurgaon-Palwal Transmission Limited from Sterlite Power at an "enterprise value of"INR 10.20 Billion as part of the Framework Agreement. Also acquired Jhajjar KT Transco Pvt Ltd from Kalpataru Power and Techno Electric at an enterprise value of INR 3.10 Billion in September 2020.

Successfully completed the acquisition of two power transmission assets, NRSS XXIX Transmission Limited ("NTL") and Odisha Generation Phase II Transmission Limited ("OGPTL"), from Sterlite Power for an enterprise value of "INR 50.25 Billion.

Additionally, East North Interconnection Company Limited ("ENICL") was acquired from Sterlite Power for NR 10.20 Billion.

March 2020

Completed acquisition of first cost-plus asset i.e. Parbati Koldam Transmission Ltd. from Reliance Infrastructure. The asset is held under a JV with Power Grid owning 26% in PrKTCL.

January 2021

June 2019

March 2021

Completed one of the largest transmission asset deal in India by acquiring NER-II from Sterlite Power for INR 46.25 Billion.

December 2021

Forayed into greenfield transmission project with the acquisition of 100% stake in Kallam Transmission Ltd from REC Power with a planned outlay of INR 1,700 Million.

March 2023

Completed acquisition of 100% stake in the last framework agreement with Sterlite Power Transmission Limited - Khargone Transmission Limited (KhTL) for ~INR 15 Billion.

October 2023

Ventured into greenfield Battery Energy Storage System (BESS) project. Received LOA/ LOI for 20 MW / 40 MWh BESS project.

Completed acquisition of 100%

of fourteen solar projects with

cumulative capacity of 555 MW

from Virescent Renewable

Energy Trust (VRET) at an

enterprise value of ~INR 40

Completed acquisition of 100% stake in two solar assets with cumulative capacity of 100 MW (AC) from Fotowatio Renewable Ventures (FRV) at an enterprise value of INR 6.6 Billion.

July 2021

Signed a framework Agreement with G R Infra for acquisition of Rajgarh Transmission Limited post commissioning. Acquired 100% equity stake in RSTCPL from consortium of Patel Engineering Limited, Simplex Infrastructures Limited and BS Limited for an enterprise value of around INR 2.5 Billion.

Au

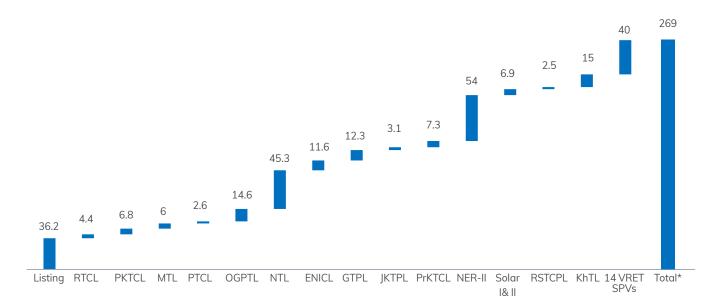

August 2023

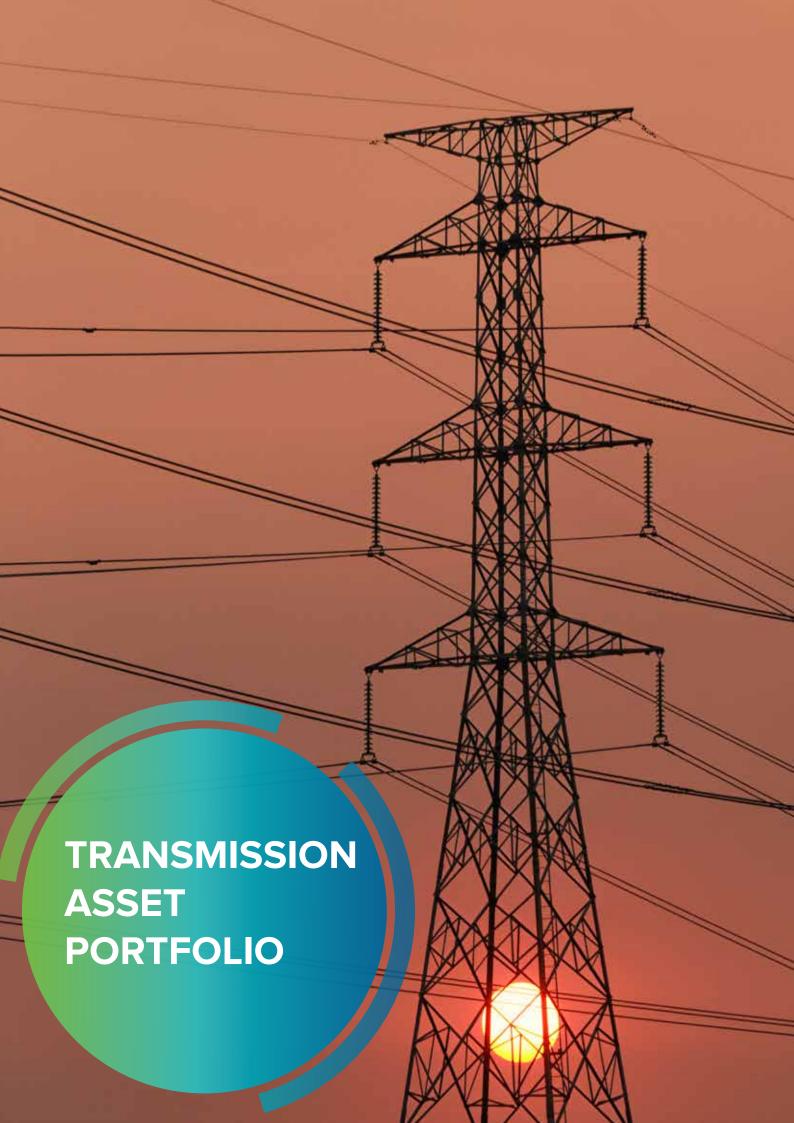

Billion

In view of the acquisitions, we have amended and restated the Investment Management Agreement (IMA) and Project Implementation and Management Agreement (PIMA) executed in November 2016. Further, Deed of Accession to IMA and PIMA has been executed as and when new SPVs were acquired.

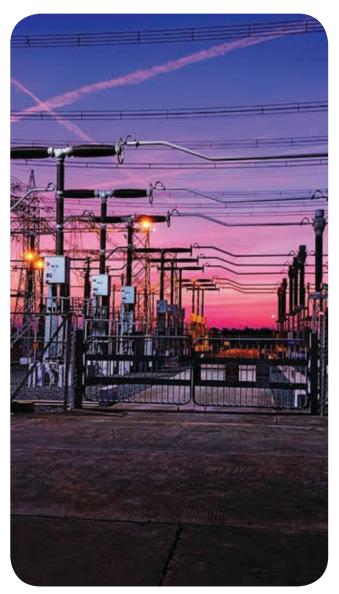

November 2022

ACCRETIVE ACQUISITION TRACK RECORD (IN INR Billion)

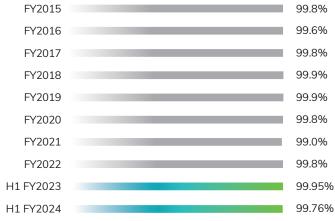

BHOPAL-DHULE TRANSMISSION PROJECT (BDTCL)

BDTCL was incorporated on September 8, 2009. BDTCL entered into a TSA on December 7, 2010 with LTTCs. The BDTCL project was awarded to IGL (erstwhile Sterlite Grid 1 Limited) by the Ministry of Power on January 31, 2011 for a 35-year period from the scheduled commercial operation date, on a Build, Own, Operate and Maintain (BOOM) basis. We acquired BDTCL from the Sterlite Sponsor in May 2017. BDTCL project is part of the system strengthening scheme of the western region and facilitates the transfer of up to 5,000 MW of electricity from the coal belt in the East, to the energy-deficient regions of western and northern India. BDTCL owns 943 cKms of transmission lines covering six elements and two substations with 2x1,500 MVA capacity each. BDTCL operates six EHV overhead transmission lines comprising of four 765 kV Single Circuit and two 400 kV Double Circuit lines commissioned to strengthen the transmission system in the states of Madhya Pradesh, Maharashtra, and Gujarat. There are also two 765/400 kV Substations at Bhopal (Madhya Pradesh) and Dhule (Maharashtra).

Annual Availability

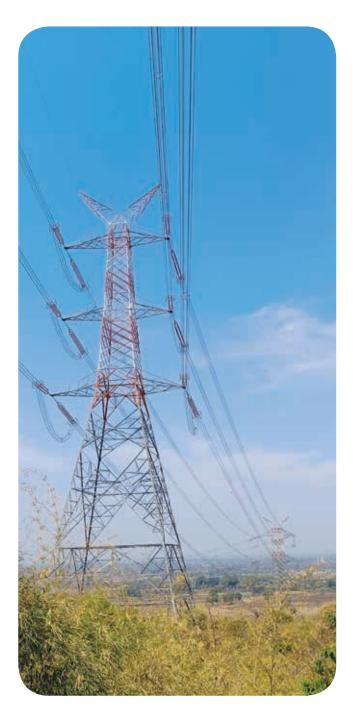

Details of BDTCL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|------------------------------|------------------------|----------------------------|
| Bhopal-Indore | 176 | 765 kV S/C transmission line | November 19, 2014 | March 2049 |
| Dhule-Aurangabad | 192 | 765 kV S/C transmission line | December 5, 2014 | March 2049 |
| Dhule-Vadodara | 263 | 765 kV S/C transmission line | June 13, 2015 | March 2049 |
| Bhopal-Jabalpur | 259 | 765 kV S/C transmission line | June 9, 2015 | March 2049 |
| Dhule-Dhule | 36 | 400 kV S/C transmission line | December 6, 2014 | March 2049 |
| Bhopal-Bhopal | 17 | 400 kV S/C transmission line | August 12, 2014 | March 2049 |
| Bhopal Substation | - | 2X1,500 MVA 765/400 kV | September 30, 2014 | March 2049 |
| Dhule Substation | - | 2X1,500 MVA 765/400 kV | December 6, 2014 | March 2049 |

Current Status As on September 30, 2023, BDTCL TSA has a remaining term of $^{\sim}$ 25.5 years.

JABALPUR TRANSMISSION PROJECT (JTCL)

JTCL was incorporated on September 8, 2009. JTCL entered into a TSA with LTTCs on December 1, 2010 and a TSA on November 12, 2013 with PGCIL (together JTCL TSAs). The JTCL project was awarded to IGL (erstwhile Sterlite Grid 1 Limited) by the Ministry of Power on January 19, 2011 for a 35-year period from the scheduled commercial operation date, on a BOOM basis. We acquired JTCL from our Sterlite Sponsor on May 30, 2017.

JTCL is a part of the system strengthening common for the Western Region and the Northern Region. The project alleviates transmission capacity bottlenecks and expands the reliability and stability of the power grid in western and northern India by providing open access to transmit power from independent power projects in the eastern region of India. The corridors, thus, created are crucial links, on the basis of which the Central Transmission Utility has entered long-term open-access agreements with several generation companies in the Eastern Region.

JTCL operates two EHV overhead transmission lines of ~995 cKms in Chhattisgarh and Madhya Pradesh comprising one 765 kV double circuit line of 759 cKms from Jabalpur (Madhya Pradesh) to Dharamjaigarh (Chhattisgarh) and one 765 kV single circuit line of 235 cKms from Jabalpur to Bina in Madhya Pradesh.

Annual Availability

Details of JTCL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|------------------------------|------------------------|----------------------------|
| Jabalpur-Dharamjaigarh | 759 | 765 kV D/C transmission line | September 14, 2015 | March 2049 |
| Jabalpur-Bina | 235 | 765 kV D/C transmission line | July 1, 2015 | March 2049 |

Current Status As on September 30, 2023, JTCL TSA has a remaining term of ~ 25.5 years.

RAPP TRANSMISSION PROJECT (RTCL)

RTCL was incorporated on December 20, 2012 and RTCL entered a TSA (the RTCL TSA) with LTTCs on July 24, 2013. The RTCL project was awarded by the Ministry of Power on September 17, 2013 for a 35-year period from the scheduled commercial operation date on a BOOM basis. We acquired RTCL from our Sterlite Sponsor on February 14, 2018.

RTCL strengthens the transmission capability between the northern and western sectors of India's power grid by evacuating electricity from an atomic power plant near Kota in Rajasthan to central Madhya Pradesh. The project was set up to transfer power from the atomic power plant near Kota (Rawalbhata) in Rajasthan to Shujalpur in Madhya Pradesh to provide the path for the evacuation of electricity generated at RAPP-7 and 8. The project involves operation of one 400 kV Double Circuit transmission line stretching over 400 cKms. RTCL acts as an interregional link between the Northern and western region by helping in evacuation of power from the power complex even in case of any grid constraints in the northern region.

Annual Availability

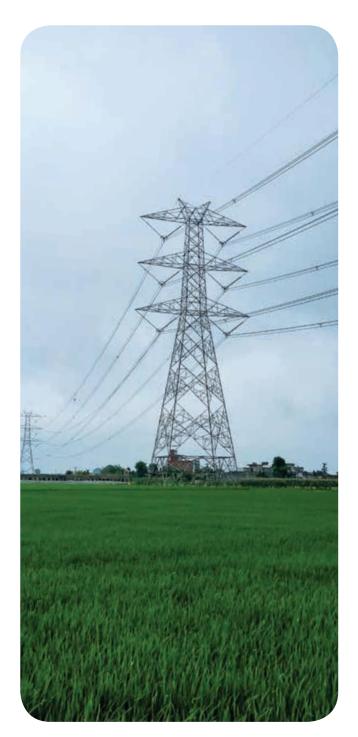

Details of RTCL Elements

| 1 | Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|---|------------------------------|------------------------|------------------------------|------------------------|----------------------------|
| F | RAPP-Shujalpur | 403 | 400 kV D/C transmission line | March 1, 2016 | February 2051 |

Current Status As on September 30, 2023, RTCL TSA has a remaining term of ~ 27.5 years.

PURULIA & KHARAGPUR TRANSMISSION PROJECT (PKTCL)

PKTCL was incorporated on December 15, 2012 and entered into a TSA (the PKTCL TSA) with LTTCs on August 6, 2013. The PKTCL project was awarded by the Ministry of Power on September 17, 2013 for a 35-year period from the scheduled commercial operation date on a BOOM basis. We acquired PKTCL from our Sterlite Sponsor on February 14, 2018.

PKTCL supports the interconnection of the West Bengal state grid and the ISTS and facilitates the exchange of additional power between them. It strengthens the transmission system in the Indian states of West Bengal and Jharkhand. PKTCL operates two EHV overhead transmission lines with a total circuit length of approximately 545 cKms in the states of West Bengal and Jharkhand, comprising one 400 kV D/C line of 323 cKms from Kharagpur (West Bengal) to Chaibasa (Jharkhand) and one 400 kV D/C line of 223 cKms from Purulia (West Bengal) to Ranchi (Jharkhand).

Annual Availability

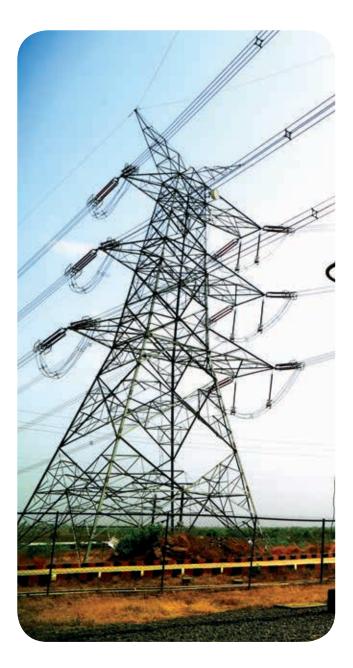

Details of PKTCL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|------------------------------|------------------------|----------------------------|
| Kharagpur-Chaibasa | 323 | 400 kV D/C transmission line | June 18, 2016 | April 2051 |
| Purulia-Ranchi | 223 | 400 kV D/C transmission line | January 7, 2017 | April 2051 |

Current Status As on September 30, 2023, PKTCL TSA has a remaining term of $^{\sim}$ 27.5 years.

MAHESHWARAM TRANSMISSION PROJECT (MTL)

MTL was incorporated on August 14, 2014 and entered into a TSA (the MTL TSA) with LTTCs on June 10, 2015. The MTL project was awarded by the Ministry of Power on July 21, 2015 for a 35-year period from the scheduled commercial operation date. The Project was awarded on BOOM basis. We acquired 49% of MTL from the Sterlite Sponsor in February 2018.

MTL constitutes a key component in enabling the southern region of India to draw more power from the rest of the grid and seeks to address the issue of power stability in southern India. The improved grid connectivity has facilitated power procurement from the Inter State Transmission System (ISTS) network to the beneficiary states Telangana, Tamil Nadu, Seemandhra and Karnataka to meet their electricity demands. MTL operates two EHV overhead transmission lines with a total circuit length of approximately 475 cKms in the state of Telangana.

Annual Availability

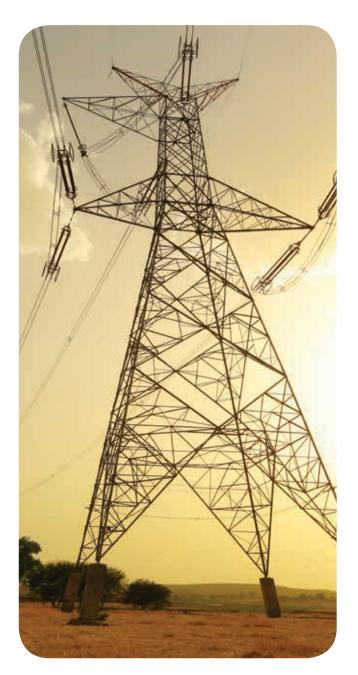

Details of MTL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|---|------------------------|------------------------------|------------------------|----------------------------|
| Maheshwaram-Mehboob Nagar | 196 | 400 kV D/C transmission line | December 14, 2017 | December 2052 |
| Nizamabad-Yeddumailaram (Shankarpalli) | 278 | 400 kV D/C transmission line | October 14, 2017 | October 2052 |
| Mehboob Nagar Substation of TSTRANSCO | - | 2 x 400 kV line bays | - | - |
| Yeddumailaram (Shankarpalli) Substation of TSTRANSCO | - | 2 x 400 kV line bays | - | - |

Current Status As on September 30, 2023, MTL TSA has a remaining term of ~29.5 years.

PATRAN TRANSMISSION PROJECT (PTCL)

PTCL was incorporated on December 19, 2012. PTCL entered a TSA (the PTCL TSA) with LTTCs on May 12, 2014. The PTCL project was awarded to Techno Electric & Engineering Co. Ltd. ("TEECL") by the Ministry of Power on perpetual ownership-basis through a letter of intent dated September 8, 2013 for a 35-year period from the scheduled commercial operation date on a BOOM basis. We acquired PTCL from Techno Electric in 2018.

PTCL plays a key role in strengthening the power transmission system in Punjab by meeting the requirement of growing load in Patiala and Sangrur district of Punjab. The project comprises of 400/220 kV substation having 1,000 MVA transformation capacity with 14 bays in Patran, Punjab and LILO of both circuits of Patiala-Kaithal 400 kV double circuit triple snow bird Line of 5 km at Patran.

Annual Availability

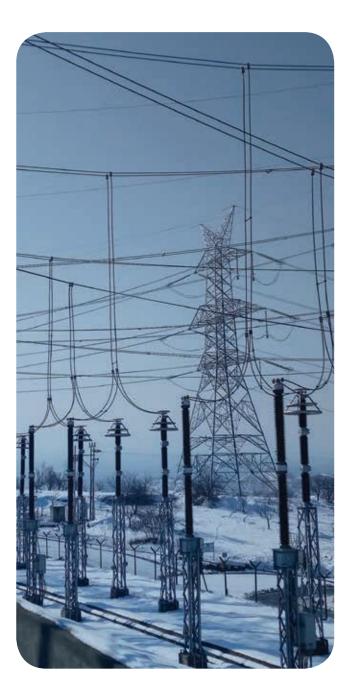

Details of PTCL Elements

| Transmission Line/Substation | Capacity (MVA) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|----------------|---|------------------------|----------------------------|
| Patiala-Kaithal LILO | - | Loop in loop out of both circuits of 400 kV D/C line at Patran | November 12, 2016 | November 2051 |
| Patran Substation | 1,000 | 2X500 MVA, 400/220 kV Substation with 6 nos. 400 kV Bays and 8 nos. 400 kV Bays | November 12, 2016 | November 2051 |

Current Status As on September 30, 2023, PTCL TSA has a remaining term of ~ 28 years.

NRSS XXIX TRANSMISSION PROJECT (NTL)

NRSS XXIX Transmission Limited (NTL) was incorporated on July 29, 2013 and entered into a TSA on January 2, 2014 with LTTCs. The NTL project is held by IGL 1 and was awarded by the Ministry of Power on a perpetual ownership basis with a TSA term of 35 years from the scheduled commercial operation date. We acquired NTL from Sterlite Sponsor on June 04, 2019.

NTL, is one of the largest private sector transmission project awarded in the country. The project is extremely critical to meet the power requirements of Jammu & Kashmir. The NTL project is expected to deliver over 2,000 MW of electricity from Punjab to the Kashmir Valley by strengthening the transmission system in the states of Jammu and Kashmir and Punjab. NTL consists of three 400 kV Double Circuit transmission lines & one 400/220 kV GIS Substation.

Annual Availability

^{*} NRSS-XXIX FY2022 availability was majorly impacted due to forced outage taken to avoid tower collapse situation created due to hill land slide.

Details of NTL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|-----------------|------------------------|----------------------------|
| Samba-Amargarh | 546 | 400 kV D/C line | September 2, 2018 | September 2053 |
| Uri-Wagoora | 14 | 400 kV D/C line | September 2, 2018 | September 2053 |
| Jalandhar-Samba | 270 | 400 kV D/C line | June 24, 2016 | June 2051 |
| Amargarh Substation | - | 400 kV D/C line | September 2, 2018 | September 2053 |

Current Status As on September 30, 2023, NTL TSA has a remaining term of ~ 30 years.

ODISHA GENERATION PHASE-II TRANSMISSION PROJECT (OGPTL)

Odisha Generation Phase-II Transmission Limited (OGPTL) was incorporated on April 17, 2015 with LTTCs. OGPTL entered into a TSA on November 20, 2015 with LTTCs. The OGPTL project was awarded to IGL 2 by the Ministry of Power on a perpetual ownership-basis with a TSA term of 35 years from the scheduled commercial operation date. We acquired OGPTL from the Sterlite Sponsor in July, 2019. The OPGC-J line was commissioned in August 2017 and JR line was commissioned in April 2019 respectively. We acquired OGPTL from our Sponsor on June 28, 2019. OGPTL project is a part of common transmission system for Phase-II Generation Projects and immediate evacuation system for OPGC Project in Odisha. The project consists of two transmission lines totalling over 700 cKms connecting Odisha and Chhattisgarh.

Annual Availability

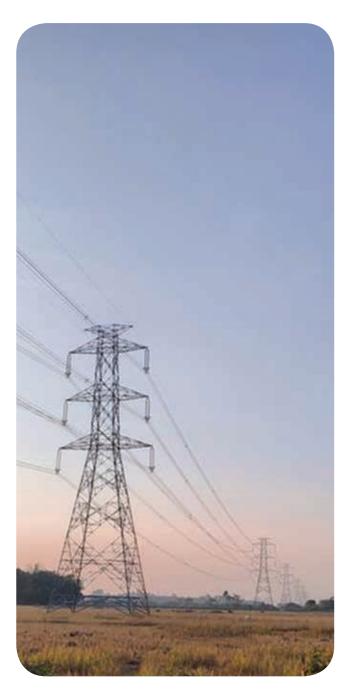

Details of OGPTL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|-----------------|------------------------|----------------------------|
| Raipur-Jharsuguda | 610 | 765 kV D/C line | April 6, 2019 | April 2054 |
| Jharsuguda-OPGC | 103 | 400 kV D/C line | August 30, 2017 | July 2052 |

Current Status As on September 30, 2023, OGPTL TSA has a remaining term of \sim 30.5 years.

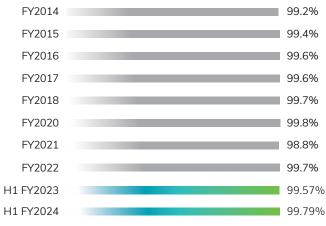

EAST-NORTH INTERCONNECTION PROJECT (ENICL)

East-North Interconnection Company Limited (ENICL) was incorporated on February 1, 2007. ENICL entered into a TSA on August 6, 2009 with LTTCs. The ENICL project was awarded by the Ministry of Power on a perpetual ership-basis with a TSA term of 25 years from the date of issue of the licence by CERC. We acquired ENICL from the Sterlite Sponsor in May 2020.

The project addresses the critical issue of the power shortfall during non-Monsoon months, thereby bringing significant relief to the people of Assam. ENICL operates two 400 kV Double Circuit transmission lines of 896 cKms through challenging terrain in the States of Assam, West Bengal and Bihar. Commonly referred to as the Siliguri Corridor or the Chicken's Neck, the peculiarity of this stretch is that it is the only land route connecting mainland India with North-East India making it critical from an inter-region power transfer point of view.

Annual Availability

Details of ENICL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|------------------------------|------------------------|-----------------|------------------------|----------------------------|
| Bongaigaon-Siliguri | 438 | 400 kV D/C line | November 12, 2014 | October 2035 |
| Purnia-Biharsharif | 458 | 400 kV D/C line | September 16, 2013 | October 2035 |

Current Status As on September 30, 2023, ENICL TSA has a remaining term of $^{\sim}$ 12 years.

GURGAON-PALWAL TRANSMISSION PROJECT (GPTL)

Gurgaon-Palwal Transmission Limited (GPTL) was incorporated on October 26, 2015. GPTL entered into a TSA on March 4, 2016 with LTTCs. GPTL project was awarded to SGL4 by the Ministry of Power on a perpetual ownership basis with a TSA term of 35 years from the scheduled commercial operation date. We acquired 100% economic ownership of GPTL from Sterlite Sponsor in August 2020.

GPTL is part of Inter State Transmission Scheme (ISTS) network and consists of three gas-insulated substations (GIS) with a total transformation capacity of 3,000 MVA and ~273 circuit kilometres of 400 KV transmission lines. The project is first of its kind vertically mounted GIS framework with a substantial focus on ESG aspects. It is a strategic asset for ensuring reliable power supply in the region which may reduce the carbon emissions by reducing dependence on DG sets. The land requirement for this project is also substantially reduced with innovatively-designed vertical GIS substation and monopole towers with micro-piling.

Annual Availability

Details of GPTL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|---------------------------------|------------------------|-----------------------|------------------------|----------------------------|
| Aligarh-Prithala | 99 | 400 kV D/C | August 6, 2019 | July 2054 |
| Prithala-Kadarpur | 58 | 400 kV D/C | December 7, 2019 | July 2054 |
| Kadarpur-Sohna Road | 21 | 400 kV D/C | March 21, 2020 | July 2054 |
| LILO of Gurgaon Manesar | 2 | 400 kV D/C | March 13, 2020 | July 2054 |
| Neemrana-Dhonanda | 93 | 400 kV D/C | February 25, 2019 | July 2054 |
| Kadarpur Substation | - | 400/220 kV, 2X500 MVA | December 11, 2019 | July 2054 |
| Sohna Substation | - | 400/220 kV, 2X500 MVA | April 13, 2020 | July 2054 |
| Prithala Substation | - | 400/220 kV, 2X500 MVA | August 8, 2019 | July 2054 |
| Dhonanda Substation Bays | - | 2X400 Line Bays | February 25, 2019 | July 2054 |

Current Status As on September 30, 2023, GPTL TSA has a remaining term of ~ 31 years.

JHAJJAR KT TRANSCO PROJECT (JKTPL)

Jhajjar KT Transco Pvt Ltd. (JKTPL), is IndiGrid's first intra-state asset. JKTPL is an operational intra state asset awarded on a Design Build Finance Operate and Transfer ("DBFOT") basis, with a contractual period of 2v 5 years and a provision of further 10-year extension. JKTPL was incorporated on May 19, 2010. JKTPL entered into a TSA on May 28, 2020. The project was awarded to Kalpataru Power and Techno Electric based on the competitive bidding process conducted by HVPNL. In October 2020, we completed the acquisition of 100% of the equity shares of JKTPL from KPTL and TEECL.

It is a strategic asset for Haryana state distribution companies and the key evacuation transmission system from the 1,320 MW thermal power plant in Jhajjar. It consists of three 400 kV transmission lines spread across 200 cKms in Haryana with two substations with a transformation capacity of 830 MVA each. The project has been operational since 2012 with a robust collection track record and steady receivable cycle.

It is a strategic asset for Haryana state distribution companies and the key evacuation transmission system from the 1,320 MW thermal power plant in Jhajjar. IndiGrid Limited acts as the O&M contractor for this project.

 $\textbf{Current Status} \quad \text{As on September 30, 2023, JKTPL TSA has a remaining term of $^{\sim}$ 13.5 years.}$

PARBATI KOLDAM TRANSMISSION PROJECT (PrKTCL)

Parbati Koldam Transmission Company Limited ("PrKTCL") is IndiGrid's first cost-plus regulated asset. PrKTCL is an inter-state operational asset situated in Himachal Pradesh and Punjab, and was awarded on a Build, Own, Operate ("BOO") basis for the transfer of electricity from Parbati II and Koldam HEPs in Himachal to Ludhiana in Punjab. The Project was a joint venture between Reliance Infrastructure and Power Grid. PrKTCL was incorporated on September 2, 2002. PrKTCL has entered into various long-term Bulk Power Agreement (BPTA) on March 4, 2010. The Project

was awarded as cost plus project with a guaranteed ROE of 15.5% on the approved equity base. In January 2020, we completed the acquisition of 74% of the equity shares of PrKTCL from Reliance Infrastructure Limited. PrKTCL is now held as a joint venture between IndiGrid (74%) and Power Grid Corporation of India Limited (26%).

PrKTCL operates two transmission lines, subdivided into various revenue-generating elements, with a total circuit length of approximately 458 cKms of 400 kV transmission lines and substations. This transmission project is of very strategic importance and has been constructed for evacuation of the power generated from Hydro-Electric Projects (HEPs) of 2,220 MW which is utilised by northern region states of Uttar Pradesh, Rajasthan, Punjab, Haryana, Jammu & Kashmir, Himachal Pradesh, Delhi, Chandigarh, and Uttarakhand.

Annual Availability

Details of PrKTCL Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |
|--|------------------------|---|--|----------------------------|
| LILO point of Parbati III HEP to LILO point of Parbati Pooling Station | 4 | 400 kV S/C along with D/C Quad Bundle Line | August 1, 2013 | FY2050 |
| Banala-Nalagarh | 66 | 400 kV S/C along with D/C Quad Bundle Line | October 10, 2014 | FY2050 |
| Banala-Koldam | 63 | 400 kV S/C along with D/C Quad Bundle Line | October 4, 2014 | FY2050 |
| Parbati II-Banala | 14 | 400 kV S/C along with D/C Quad Bundle Line | November 3, 2015 | FY2050 |
| Parbati II-Parbati III | 10 | 400 kV S/C along with D/C Quad Bundle Line | November 3, 2015 | FY2050 |
| Koldam-Ludhiana | 301 | 400 kV D/C, Triple Bundle Line | Ckt I: August 7, 2014 Ckt II: August 14, 2014 | FY2050 |

Current Status As on September 30, PrKTCL TSA has a remaining term of ~ 26.5 years.

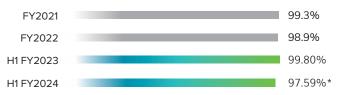

NER-II TRANSMISSION PROJECT (NER-II)

NER-II was incorporated as a company on April 21, 2015. NER-II entered the TSA (the "NER TSA") on December 27, 2016. The Project was awarded by the Ministry of Power on February 22, 2017 for a 35-year period from the scheduled commercial operation date of the NTL project, on a BOOM basis. We acquired NER-II from Sterlite Sponsor in March 2021. This project strengthens the power transmission network in the North-Eastern States and address the transmission, sub-transmission, and distribution system needs of the region.

The project consists of two substations, five transmission lines and four bays to meet the rising power demand in North-Eastern Region of India. The project has 11 elements including two substations of ~1,260 MVA capacity and four transmission lines extending over ~830 circuit kilometres. The asset spans across Assam, Arunachal Pradesh and Tripura and is of strategic importance for the delivery of power in one of the toughest regions in the country and also acts as an important link for power evacuation to Bangladesh.

Annual Availability

*Insulator Flashovers which resulted in temporary impact on availability of NER lines were rectified. Impacted lines are now operational.

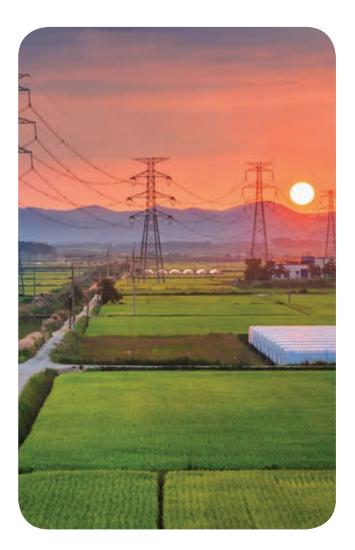

Details of NER-II Elements

| Transmission Line/Substation | Route Length (cKms) | Specifications | Actual Commission Date | Expiry Term of Initial TSA |

 $\textbf{Current Status} \quad \text{As on September 30, 2023, NER-II TSA has a remaining term of $^{\circ}$32 years}$

KHARGONE TRANSMISSION PROJECT (KhTL)

KhTL was incorporated on 28th November 2015 to strengthen the Transmission System in Western Region associated with Khargone Thermal Power Plant of 1,320 MW (2×660MW) at Khargone in the state of Madhya Pradesh. KhTL evacuates the power generated by Khargone Power Plant to 765 kV Khandwa substation to further distribute it downstream across Madhya Pradesh, Maharashtra, Chhattisgarh, Gujarat, Goa, Daman & Diu, and Dadra & Nagar Haveli.

KhTL was acquired by IndiGrid is March 2023 and was awarded under the 'tariff based competitive bidding' (TBCB) mechanism on a 'build-own-operate-maintain' (BOOM) basis. It entered into TSA on 14th March 2016 and the Khandwa Pool – Dhule substation was commissioned in December 2021.

Availability

Details of KhTL Elements

 $\textbf{Current Status} \quad \text{As on September 30, 2023, KhTL has a remaining term of $^{\circ}$31 years.}$

RAICHUR SHOLAPUR TRANSMISSION COMPANY PRIVATE LIMITED (RSTCPL)

RSTCPL was incorporated on November 11, 2009. RSTCPL entered into a TSA on August 4, 2010 with LTTCs. The Letter of Intent (LoI) for the RSTCPL project was awarded to consortium of Patel Engineering Limited (PEL), Simplex Infrastructures Limited (SIL) and BS Limited (BSL) by the RECPDCL (erstwhile RECTCL) on December 16, 2010 for a 35-year period from the scheduled commercial operation date, on a Build, Own, Operate and Maintain (BOOM) basis. Indigrid acquired RSTCPL from the the consortium in November 2022. It is a critical project of the Inter State Transmission Scheme (ISTS) network of the country. RSTCPL consists of 765 kV single circuit transmission line of ~208 ckms between Raichur (Karnataka) and Sholapur (Maharashtra) associated with the Krishnapattnam Ultra Mega Power Thermal Project. The project enables synchronous interconnection between Southern and Western Regions of the country and is a key transmission link to strengthen the power transmission network between these regions.

INDIGRID SOLAR I PRIVATE LIMITED & INDIGRID SOLAR II PRIVATE LIMITED (IGSL-I & IGSL-II)

IGSL-I & IGSL-II are operational 100 MW solar assets located in high radiation zone in the 400 MW Ananthapuram Solar Park in Andhra Pradesh, with a contractual period of 25 years at a fixed tariff. The Power Purchase Agreement (PPA) has been signed with SECI on October 16, 2016 at a fixed tariff for 25 years of project life with Solar Energy Corporation of India ('SECI'), a limited liability company

owned 100% by the Government of India, as the counterparty. We completed acquisition of 100% stake in two solar assets with cumulative capacity of 100 MW (AC) from Fotowatio Renewable Ventures (FRV) at an enterprise value of "INR 6.60 Billion in July 2021. Solar I & II have been two of the best-performing solar plants.

Plant Availability

Operational Metrics

| | UOM | FY2022 | H1 FY2023 | H1 FY2024 |
|------------|-----|--------|-----------|-----------|
| Generation | MU | 209.41 | 107.91 | 112.57 |
| CUF | % | 23.90% | 24.57% | 25.63% |

Note: Gap is largely attributable to annual degradation factor in case of PV modules.

New Acquisition

VIRESCENT RENEWABLE ENERGY TRUST (VRET)

VRET was an Infrastructure Investment Trust registered with SEBI in accordance with the provisions of the InvIT Regulations on February 25, 2021. VRET was acquired by IndiGrid in August 2023.

Sponsored by KKR, VRET was a AAA-rated InvIT with a strong institutional framework comprising marquee unitholders, such as AIMCO, Utilico, and L&T, among

others. VRET's 16 solar assets have a capacity of 538 MWdc/455 MWac, with ~7 years of operational history and ~18 years of average remaining tenure with Power Purchase Agreements (PPAs) with strong counterparties, such as SECI, NTPC, GUVNL enabling it to manage a healthy receivables profile.

UNDER CONSTRUCTION PROJECTS

Kallam was incorporated on May 28, 2020 and was incorporated for the development of a new 400/220kV sub-station at Kallam and 400kV multi-circuit transmission line of works in the State of Maharashtra. This project is envisaged on build, own, operate and maintain ('BOOM') basis for a period of 35 years through tariff-based competitive bidding ('TBCB'). Kallam is IndiGrid's first greenfield transmission project.

The project, with a planned outlay of $^{\sim}$ INR 1,700 Million, will consist of one substation of 2 x 500 MVA, 400/220

kV near Kallam and 10 bays with a LILO multi-circuit line of ~18 kms. The project will strengthen the transmission system in Maharashtra by improving the grid availability for evacuation & integration of renewable energy in the state. The project is situated in a low-risk plain topography and is proposed to be completed within this financial year.

Additionally, IndiGrid has also received augmentation work of $^{\sim}$ INR 2.3 Billion in existing projects.

MANAGEMENT DISCUSSION AND ANALYSIS

Global Economy

The global economy is showing signs of a gradual recovery, amidst global headwinds due to Russia-Ukraine, Israel-Hamas conflicts and the adoption of a tightening monetary policy stance by several nations. As economies showcase signs of reopening, disruptions in supply chains are diminishing, leading to stabilisation in energy and food markets that were previously impacted by the Russia-Ukraine conflict. Additionally, many central banks are implementing coordinated efforts to tighten monetary policy, aiming to achieve target levels of inflation and yield positive results.

According to the International Monetary Fund (IMF), global growth is projected to experience a slight downturn,

decreasing from 3.4% in 2022 to 2.8% in 2023. There is an anticipated decline in global economic growth for advanced economies, with a decrease from 2.7% in 2022 to 1.3% in 2023. Several factors contribute to this, including policy measures aimed at curbing inflation, the lasting impact of recent financial conditions, the Russia-Ukraine conflict, and escalating geopolitical tensions. However, emerging markets and developing economies are expected to showcase stronger economic prospects, with predicted growth of 3.9% in 2023 and further increasing to 4.2% in 2024.

WORLD ECONOMIC OUTLOOK GROWTH PROJECTIONS (IN %)

WORLD ECONOMY

ADVANCED ECONOMIES

EMERGING MARKETS' ECONOMIES

(Source: https://www.imf.org/en/Publications/WEO/ Issues/2023/04/11/world-economic-outlook-april-2023)

The global inflation rate is projected to decrease from 8.7% in 2022 to 7.0% in 2023, with a further decline to 4.9% in 2024. This decrease can be attributed to several factors like interest rate hikes, reduced energy and food prices, and the easing of supply chain pressures. However, it is important to highlight that core inflation, excluding volatile items, has shown more resilience to these factors.

Outlook

With a projected growth rate of 3.0% for 2024, the scenario looks optimistic. It is widely anticipated that the downturn will be moderate, offering an opportunity to effectively address global issues and navigate these challenges. This period of moderation presents a chance for collaborative efforts and strategic measures to be implemented in order to mitigate the impact of these obstacles and promote sustainable global economic growth.

(Source: https://www.imf.org/en/Publications/WEO/ Issues/2023/04/11/world-economic-outlook-april-2023)

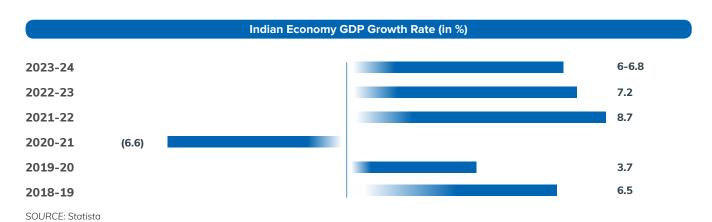

Indian Economy

The Indian economy has demonstrated remarkable resilience, surpassing many other nations and positioning itself on a growth trajectory of 7.2% for FY2022-23. This impressive performance can be attributed to several factors. Firstly, there is an optimistic business environment that has fostered investment and entrepreneurship. Secondly, robust industrial output and increased consumer spending have contributed to economic growth. Furthermore, the implementation of the 'Aatmanirbhar Bharat' vision has been instrumental in boosting domestic production and reducing dependence on imports. This focus on self-reliance has created opportunities for domestic industries and facilitated economic growth. Indian economy is likely to witness GDP growth of 6% to 6.8% in FY2023-2024, depending on the global economic and political developments.

Over the past decade, India has experienced remarkable economic growth, elevating its position from the tenthlargest economy towards becoming the fifth-largest globally. This growth has been accompanied by a strong focus on developing physical infrastructure across various sectors. Additionally, initiatives like 'Amritkaal' and 'Saptarishis' are dedicated to bridging economic disparities, empowering individuals in rural areas, enhancing technological capabilities, and reducing dependence on Government assistance. The Government's commitment to inclusive development, coupled with endeavours to expand infrastructure, tap into untapped opportunities, promote sustainable growth, harness the youth demographic dividend, and strengthen the financial sector, are the key drivers propelling India towards a promising and prosperous future.

Outlook

Following the successful launch of Chandraayan-3, India has set its sights on a remarkable mission to explore the sun with the Aditya-L1 spacecraft. However, India's advancements are not limited to the field of space exploration. According to projections from the International Monetary Fund (IMF), India is poised to emerge as the world's third-largest economy by 2027, surpassing both Japan and Germany, as its GDP crosses the significant milestone of USD 5 Trillion. Moreover, India has set ambitious goals to become a fully developed economy by 2047. India will need to sustain a growth rate of at least 6.5% to achieve its first milestone in 2027, and it will require a more robust growth rate ranging from 8% to 9% to realise its second milestone by 2047. The current vitality of the Indian economy inspires confidence that the nation is well on its

way to achieving these objectives, at least in the short-term. The pace of progress in the initial years will play a pivotal role in establishing a sustained, rapid-growth trajectory in the long run. Overall, the reforms and initiatives aim to strengthen India's self-reliance, attract investments, drive growth, and create new job opportunities.

Industry Overview

Power Generation

World electricity demand showed remarkable resilience in 2022, despite the global energy crisis triggered by Russia's invasion of Ukraine. According to Precedence Research, the global power generation market size was estimated at USD 1.8 Trillion in 2022 and it is expected to hit around USD 3.9 Trillion by 2032, exhibiting a CAGR of 8.04% during the forecast period from 2023 to 2032. This trend is exacerbated by the increasing numbers of electric vehicles and heat pumps sold globally.

Power Generation Market Size, 2023 to 2032 (USD TRILLION)

 $(Source: https://www.precedenceresearch.com/power-generation\ market\#: ``:text=The \%20global \%20power \%20generation \%20market \%20size \%20was \%20accounted \%20at \%20USD, 8.04 \%25 \%20 from \%202023 \%20 to \%20203)$

India is the world's third-largest energy-consuming country and by 2030, India's energy demand is expected to reach 405 GW, primarily driven by rapid industrialisation and urbanisation. Consequently, India's power sector is undergoing significant changes aimed at reducing the emissions' intensity of its GDP by 33%. Additionally, to also address the nation's energy security and affordability challenges, efforts are being made to improve domestic coal production, mandate coal imports, increase renewable energy sources (RES) and promote focus on battery energy storage solutions to improve reliability of RES. With an

All India Installed Capacity (as of May 31, 2023 to September 30, 2023)

| Category | Installed Generation Capacity (MW) |
|----------|------------------------------------|
| Thermal | 2,39,292 |
| Nuclear | 7,480 |
| Hydro | 46,850 |
| RES | 1,31,783 |
| Total | 4,25,406 |

installed power capacity of 425 GW as of September 30, 2023, India is aiming to increase its installed capacity to 900 GW by 2032 with a target of around

Driving Forces for the Growth of India's Power Sector

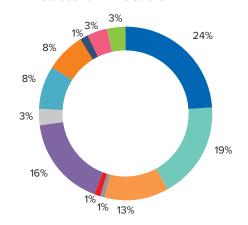

Improved Attractiveness of the Sector for Foreign Direct Investment

India's liberal foreign direct investment (FDI) policy, along with an improving business environment and vast potential, has piqued the interest of foreign investors in the energy sector. Non-conventional energy sources have become highly attractive, with the cumulative FDI inflow in the renewable sector at USD 13.30 Billion from April 2010 to March 2023. Going forward, India is looking to implement energy transition strategies, which include building local supply chains, securing domestic fuel resources, and deepening power sector reforms to address structural issues. The country also plans to continue adopting new and clean technologies, creating demand and infrastructure to support this transition.

National Infrastructure Pipeline

The National Infrastructure Pipeline (NIP) is a long-term plan launched by the Government of India in 2019 to develop and improve India's infrastructure across various sectors, including energy, transportation, housing, water, and health. The plan targets an investment of "INR 111 Lakhs Crore between FY2019-20 and FY2024-25 with share of Centre, State and private players pegged at 39%, 40% and 21%, respectively.

NIP Sectoral Allocation

Under the NIP, the energy sector has been allocated the highest share (24%) of the total expected capital expenditure. The focus is on renewable energy projects, with a planned outlay of INR 9.3 Lakhs Crore across 250+ opportunities. The Government aims to increase India's renewable energy capacity to 450 GW by 2030, requiring significant investments in generation, transmission, and distribution of infrastructure. To facilitate the integration of renewable energy into the existing transmission network, the Government plans to establish green energy corridors and renewable energy management centres. This initiative is aimed at improving network efficiency and address the intermittent nature of RES.

Under NIP, the generation, transmission and distribution sectors have a planned outlay of ~INR 14 Lakhs Crore. Given the addition of newer generation capacities across both – non-renewable and renewable energy sources – the focus for transmission and distribution sectors will be on the development of high voltage transmission corridors, sub-stations and last-mile connectivity to ensure smooth and uninterrupted power supplies.

24/7 Power for All

The Indian Government has implemented several initiatives and schemes to address issues related to power infrastructure, distribution, and efficiency. These include the Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY), Integrated Power Development Scheme (IPDS), Ujwal DISCOM Assurance Yojana (UDAY), and Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya). Notably, India has achieved 100% electrification of all households as of April 2021, demonstrating significant progress towards universal access to electricity. In addition, the Government is encouraging the use of smart grid technologies, energy-efficient appliances, and demand-side management strategies to improve the efficiency of the power sector.

Power Transmission in India

Transmission plays a crucial role in the power delivery value chain as it facilitates the efficient evacuation of power from generating stations to load centres. To ensure effective power dispersal, it is essential to strengthen the transmission network, enhance the Inter-State power transmission system, and augment the National Grid. The demand for electric power transmission and distribution equipment in India is forecast to rise 8.2% per year, reaching USD 15.8 billion in 2023. As of September 2023, the country's total transmission line length stands at 4,76,547 ckt. km where the share of intra-state line length was 54% (2,55,873 ckt. km) and share of intra-state was 46% (2,20,674 ckt. km). The T&D system in India operates at several voltage levels:

Extra High Voltage (EHV)

756 kV, 400 kV and 220 kV High Voltage
132 kV and 66 kV

Medium Voltage 33 kV, 11 kV, 6,6 kV and 3,3 kV Low Voltage

1.1 kV, 220 volts

and below

In response to the growing need for transmitting large amounts of power over extended distances, the transmission system has undergone significant expansion in recent years, particularly in terms of higher voltage levels and substation capacities. The goal of this expansion has been to optimise the utilisation of land, minimise transmission losses, and enhance the overall reliability of the power grid.

Voltage-Wise Growth in AC Transformer Capacity

*Up to June 2023. Source: CEA

To achieve the Indian Government's objectives for renewable energy and ensure consistent power supply, it is essential to augment the transformation capacity in the system for every megawatt of new generation capacity. The transmission sector has seen consistent growth due to an

enabling policy framework. As per the CTU ISTS Rolling Plan FY2027-28, the Government plans to invest INR 1,40,962 Crore to add 33,019 cKms of transmission lines, along with a transformation capacity of 2,42,940 MVA to the grid.

Growth Drivers in Transmission

Source: Crisil Research

Key Drivers for Development of Transmission Infrastructure

a. Renewable Energy Integration

The Government is actively pursuing the green energy corridor initiative to enable the integration of large-scale RES into the power grid. To achieve this, two schemes green energy corridor I and II - have been implemented to create highways for transmitting renewable power. Advanced technologies are being utilised to ensure grid stability, while energy balancing and scheduling mechanisms are being implemented at Renewable Energy Monitoring Centres (REMC) to enhance stability and facilitate energy transmission. Across the country, 11 renewable energy monitoring centres are being planned, in addition to state load dispatch centres and a national-level REMC, to enable smooth grid operations. These monitoring centres will operate in conjunction with their respective state or national load dispatch centres to ensure seamless grid operations.

b. Cross-Border Links

There have been several efforts in recent times aimed at strengthening the exchange of electricity across borders. One noteworthy example is the inauguration of two new transmission lines between India and Nepal in August 2017. These transmission lines have increased the electricity transfer capacity by an additional 100 MW, on top of the 350

MW that India was already supplying to Nepal. India has also undertaken several interconnections with Bangladesh, including the second Baharampur-Bheramara interconnection. Additionally, there is a memorandum of understanding signed between India and Bangladesh for the supply of 1,600 MW through high voltage direct current transmission lines. India is also working on various interconnections with Bhutan. All of this is slated to contribute to the growth of transmission infrastructure within India.

c. Rail Electrification

The electrification of railways is anticipated to be a significant catalyst for growth in the transmission segment. To achieve its goal of saving INR 41,000 Crore over the next 10 years through an Integrated Rail Energy Management System (I-REMS), Indian Railways launched the Railways Mission 41k initiative in January 2017. This programme involves electrifying 38,000 route km of rail track between FY2018 and FY2022, which will result in complete electrification of broad-gauge rail routes. To accomplish this objective, transmission lines, sub-stations, and transformers must be established, with around 8,000 km of transmission lines needed in the initial phase to provide dependable and secure power to the Golden Quadrilateral. This effort is

predicted to drive growth in the transmission sector and provide ample opportunities for transmission equipment manufacturers in India. The Central Organisation for Railway Electrification (CORE) has been instrumental in electrifying Indian Railways, with 52,247 route kilometres (RKM), equivalent to about 80.2% of the total broad-gauge network of Indian Railways (65,141 RKM) having been electrified by March 31, 2022. CORE aims to electrify all BG routes of Indian Railways by December 2023 and has nine operational project units located in Ahmedabad, Ambala, Bangalore, Chennai, Kolkata, Jaipur, Lucknow, Guwahati, and Secunderabad, targeting important railway routes with high traffic potential.

d. Smart Grid and Electric Vehicles

The PowerGrid Corporation is working on the Unified Real Time Dynamic State Measurement project to upgrade the transmission grid's intelligence. However, the Indian Government's ambitious plan to shift towards an all-electric fleet will result in a surge of electric vehicles into the grid, which will pose significant charging challenges. To prevent grid overloading, there is a pressing need for investments in grid enhancement, automation, and reactive power compensation capabilities. To encourage electric vehicle usage, the Government is planning to offer incentives and create regulatory frameworks.

e. Private Sector Participation

The promotion of competition in the electricity sector is a fundamental goal of the Electricity Act, 2003. To encourage

competition, the Central and State Governments have implemented various reform measures. The Ministry of Power has introduced competitive bidding guidelines to facilitate private sector investment in power transmission, enabling price discovery through market-based mechanisms. These guidelines ensure that private transmission companies have equal opportunities to access the market alongside public companies, fostering healthy competition. The most significant advantage of these guidelines is the availability of competitive prices, which benefits both consumers and the market.

India has opened up its transmission sector for private participation, setting it apart from other countries. Private players have shown a keen interest in this sector due to various initiatives taken by the Government and State Governments to promote competition in power transmission. However, private participation and competition in the Indian electricity transmission sector are still in their nascent stages. As India's generation capacity continues to grow, there is a growing need to increase transmission capacity to ensure that the power generated reaches the end-consumer. Private investment will play a crucial role in meeting the significant investment and capacity enhancement target in transmission. Therefore, the success of public-private partnerships in transmission will be crucial in achieving these goals.

Outlook for Power Transmission

The power sector in India is a constantly evolving and diverse industry, with an expected shift from fossil fuel-based energy sources to renewable energy sources. This shift is anticipated to decrease fossil fuel-based energy sources' installed capacity from 58% to 43% by FY2027-28, while renewable energy capacity additions will present new challenges in integrating renewable generation centres with the grid.

To support the integration of renewable energy sources, transmission schemes comprising 33,019 ckm of transmission lines and transformation capacity of 2,42,940 MVA, at an estimated cost of INR 1,40,962 Crores, will be added to the grid. The National Infrastructure Pipeline (NIP)

National Electricity Plan, 2016

During the 13th plan period, the National Electricity Plan 2016-Transmission has envisioned the addition of 105,580 circuit km of transmission lines and 292,000 MVA of substation capacity. The cost of tower erection is a major part of the investment required for transmission line construction, with towers and their foundations comprising nearly half of the total cost. With the increasing generation of renewable energy, there will be significant market opportunities for technology providers and transmission tower players. Rapid development of transmission lines and towers will be crucial to facilitate the evacuation of energy from renewable energy projects, and this can be achieved through the adoption of advanced technologies, such as surveying drones and helicopters for tower erection and stringing.

has estimated a USD 54.2 Billion investment outlay across 221 opportunities in the transmission sector. The need for a robust and reliable transmission system to support continued generation additions, as well as the push for renewable energy and rural electrification, will drive investment in the sector.

The transmission sector's growth will also be supported by increased private sector participation, with transmission projects having favourable risk-return profiles. By FY2027-28, large renewable energy complexes are expected to be established in the Northern, Western, and Southern regions of India, which will further increase the complexity of the power sector.

NEP 2022 - Provision for Power Transmission and Grid Operators

The National Electricity Plan (NEP) has laid out a comprehensive roadmap for electricity demand and supply planning until 2026-27. One of the primary objectives of the NEP is to achieve a cumulative target of 175 GW renewable energy capacity by 2022, while also anticipating the addition of 46 GW of coal-fired power capacity between 2022 and 2027.

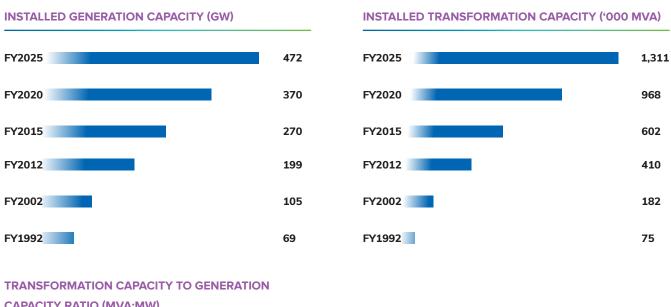

However, to ensure the safety and security of power supply, it is crucial that system operators have access to modern technologies. This can be achieved through a range of measures, including expanding balancing areas, integrating renewable energy sources with conventional generation and storage systems, developing ancillary services, and evaluating transfer capability.

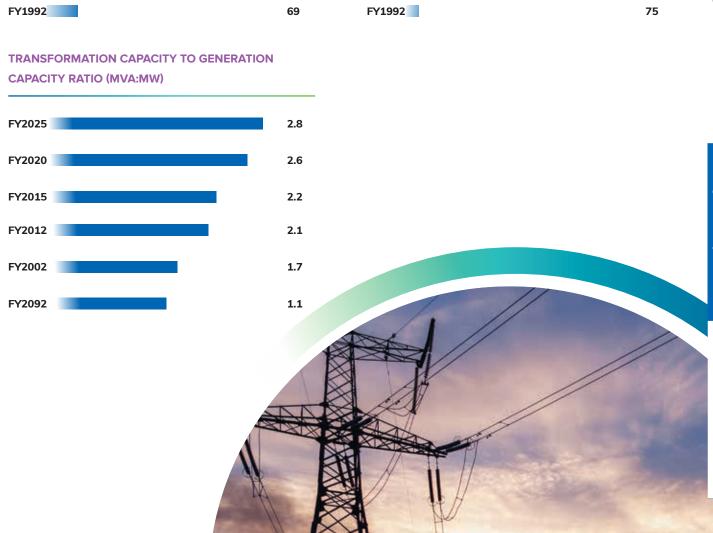

Furthermore, it is imperative to streamline the approval process for transmission projects. Currently, at the central level, the National Committee on Transmission approves plans formulated by the Central Transmission Utility (CTU), and a similar mechanism is recommended at the state level to expedite the approval process.

Key Objectives of NEP 2022

- Ensure reliable and affordable electricity supply.
- Promote the use of renewable energy sources.
- Reduce greenhouse gas emissions from the electricity sector.
- Improve energy efficiency and conservation.
- Develop and modernise the electricity grid.
- Encourage private sector investment in the electricity sector.
- Ensure equitable access to electricity across all regions and communities.
- Support economic growth and development through a stable and efficient electricity sector.

Outlook on Transmission Capacity Additions

Renewable Energy in India

India is at the forefront of a global push towards renewable energy, driven by the need to combat climate change. With 17% of the world's population, India contributes only 3.5% to global emissions. However, the country is making significant strides towards a clean energy transition, with an ambitious target to achieve 500 GW of non-fossil fuel capacity by 2030.

India's total renewable energy capacity, excluding large hydro and nuclear plants, reached 122 GW in February 2023 as per the latest monthly report by the Central Electricity Authority (CEA). This was an increase of almost 15% from February 2022, but still 30% short of the 175 - GW target that the Central Government had aimed to reach by the end of 2022.

The Government's target of 500 GW of non-fossil fuel capacity by 2030 translates to 35-40 GW of annual incremental renewable capacity over the next 8-9 years. To achieve this target, the Government is working on policy support for energy storage systems, green hydrogen, and offshore wind. Green energy open access is now allowed to any consumer with a load limit reduced from 1,000 kW to 100 kW, which will increase the weightage of green power. The transition to renewable energy has also been driven by the availability of low-cost finance through various instruments and sources, which has supported renewable energy capacity additions. The next leg of the accelerated renewable energy transition will require further policy support and execution, as well as a focus on energy storage systems, green hydrogen, and offshore wind.

Globally, some countries are investing in fossil fuels to secure and diversify their sources of supply. However, the lasting solutions to the climate crisis lie in speeding up clean energy transitions through greater investment in efficiency, clean electricity, and a range of clean fuels. India's Ministry of Power has taken several initiatives towards a clean energy transition, and the country's focus on renewable energy will continue to drive growth in the sector.

Increase in Share of Renewable Energy Sources

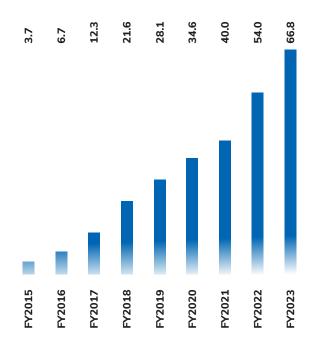

| | FY2015 | FY2020 | FY2022 | FY2025 |
|-----------|--------|--------|--------|--------|
| Coal | 58% | 54% | 51% | 46% |
| Lignite | 2% | 2% | 2% | 2% |

| Other RES | 4% | 3% | 3% | 4% |

Evolution of Solar Power in India

India has experienced impressive growth in its solar energy capacity, ranking fourth globally in solar PV deployment with a capacity of 70.1 GW as of June 30, 2023. This growth has been driven by a rising demand for renewable energy, as traditional electricity generation methods like thermal power plants become less viable. The National Institute of Solar Energy estimates that India's solar potential is around 748 GW, with 3% of waste land area covered by Solar PV modules. In 2010, the National Solar Mission was launched to install 100 GW grid-connected solar power plants by 2022, aligning with India's 'Intended Nationally Determined Contributions' to achieve 40% cumulative electric power installed capacity from non-fossil fuel-based energy resources and reduce GDP emission intensity by 33-35% from 2005 levels by 2030.

To attain these goals, the Indian Government has initiated several schemes to promote solar power generation, such as the Solar Park Scheme, VGF Schemes, CPSU Scheme, Defence Scheme, Canal Bank & Canal Top Scheme, Bundling Scheme, and Grid Connected Solar Rooftop Scheme. In addition, solar tariffs in India have become highly competitive, resulting in grid parity.

Growth in Installed Solar Capacities (GW)

Growth Drivers for Solar Sector in India

- Government Support: The Indian Government has been very supportive of the solar sector and has launched several schemes to promote solar energy generation.
 These schemes include the Solar Park Scheme, VGF Schemes, CPSU Scheme, Defence Scheme, Canal Bank & Canal Top Scheme, Bundling Scheme, and Grid Connected Solar Rooftop Scheme. The Government's goal of installing 100 GW of grid-connected solar power plants by 2022 has been a significant driver of growth in the sector.
- 2. Increasing Awareness and Demand: As people become more aware of the benefits of renewable energy and the negative impact of conventional energy sources on the environment, there has been a significant increase in demand for solar energy in India. This demand is expected to continue to grow in the coming years.
- Technological Advancements: Advancements in solar technology have made it more efficient and costeffective. This has made it more attractive to consumers and has further contributed to the growth of the solar sector in India.

- 4. Favourable Policy Environment: The Indian Government has created a favourable policy environment for the solar sector, including offering tax incentives and subsidies to encourage investment in the sector. This has helped attract both domestic and foreign investment, further driving growth in the sector.
- 5. Improving Availability of Finance at Low Cost: Developers in India's solar sector are adopting innovative approaches to secure low-cost financing, including the issuance of green bonds, funding from the Asian Infrastructure Investment Bank (AIIB), and the creation of investment trusts. These alternative channels have helped to widen the pool of available investments, bringing down the cost of financing and enabling more renewable energy projects to be funded.
- 6. Foray of Large Established Players in the Indian Solar Industry: After the Government of India announced its plan to establish 500 GW of renewable energy generation capacity by 2030, numerous established players have entered the solar power generation market. Several large Indian conglomerates and global companies have announced their intentions to develop significant solar power generation capacities.

Factors to boost growth in solar capacity additions

- Government subsidies and incentives for solar power projects
- Increase in public awareness and demand for renewable energy
- Development of new and innovative solar technology
- Expansion of solar power infrastructure, including grid integration and storage systems
- Partnerships and collaborations between Government, private sector, and international organisations
- Favourable policy on environment and regulatory frameworks
- Improvement in ease of doing business, including streamlined processes for project approvals and permits
- Investment in research and development for improving solar efficiency and reducing costs
- Increased focus on sustainability and reducing carbon emissions by corporations and industries, leading to adoption of renewable energy solutions

Opportunities and Challenges

Operational power transmission projects offer a low-risk investment opportunity, as they are not dependent on asset utilisation and have reliable payment security. During the construction phase, transmission assets may face risks, such as right of way, forest and environment clearances, and an increase in raw material prices. However, post-commissioning, with the implementation of POC mechanism, the risks are limited, and the cash flows from operational transmission projects resemble that of an annuity, providing steady returns to investors.

The tariffs payable to the Inter-State Transmission System (ISTS) have a fixed escalable component, which ensures stability in cash flows, while the variable component is linked to the inflation index in India, making it a smaller component of the tariff. These factors make operational transmission projects an attractive investment option for those seeking reliable and steady project returns.

Some of the key reasons for low risks are:

- Revenue recovery irrespective of asset utilisation limits offtake risk
- Diversified counter-party risk
- Collection risk offset owing to presence of CTU
- Payment security mechanism in place
- Relatively low probability of default due to lack of alternatives

Power transmission infrastructure has better risk-return profile as compared to most other infrastructure projects.

Infrastructure projects, such as roads, ports, and power generation rely heavily on the operational performance of the assets to generate returns. However, the success of these projects often depends on factors that are beyond the control of the developers. For example, the profitability of toll-based road projects depends on the collection of toll revenues, while port projects are at risk of fluctuations in cargo traffic. Similarly, power generation projects are dependent on the availability of fuel and off-take by distribution companies.

In the case of annuity-based road projects, counterparty risk is higher as the sole revenue counterparty for annuity-based payments is the National Highway Authority of India (NHAI). This limits the diversification of revenue sources and increases the risk associated with the project.

On the other hand, ISTS transmission projects have a pool

of distribution and generation companies as revenue counterparties, which reduces counterparty risk based on diversification. The revenue stream from power transmission infrastructure projects is generally more stable and predictable compared to other infrastructure projects, which may provide a more favourable risk-return profile for investors.

The key challenges faced in terms of India's power transmission sector are:

- Inadequate Infrastructure: India's power transmission infrastructure is insufficient to handle the increasing demand for electricity. The infrastructure needs to be modernised and upgraded to accommodate the growing renewable energy capacity.
- Inefficient Power Transmission: The transmission and distribution losses in India are among the highest in the world, resulting in significant energy wastage. This is primarily due to outdated equipment and inadequate maintenance practices.
- Delayed and Inadequate Approvals: The approval process for transmission projects in India can be time-consuming and complex, leading to project delays and cost overruns.
- Land Acquisition Issues: Acquiring land for transmission projects can be challenging in India due to a variety of reasons, such as land disputes, environmental concerns, and lack of proper compensation for landowners.
- Insufficient Investment: Despite the high demand for electricity in India, investment in the power transmission sector has been insufficient. This has resulted in a funding gap that needs to be bridged to meet the growing demand for electricity.
- Regulatory Challenges: The regulatory environment in India can be challenging for transmission companies, with frequent changes in policies and regulations, affecting their operations.
- Cybersecurity Risks: As power transmission becomes more digitised, there is a growing risk of cyber-attacks that can disrupt the power supply and cause significant damage. The transmission sector needs to prioritise cybersecurity measures to prevent such incidents.

OPERATIONAL REVIEW

IndiGrid is engaged in the business of owning and operating power transmission and solar energy assets. The inter-state power transmission projects receive tariffs based on availability, irrespective of the quantum of power transmitted through the line. These 'availability-based' tariffs incentivise transmission system operators to provide the highest possible system reliability as the operator is entitled to get an incentive amount in excess of 98%. Hence, to maximise revenue, a robust asset management framework is in place at IndiGrid to ensure robust and prudent asset management programme, devise strategies and plan prudently to meet IndiGrid vision. This framework duly considers the sector-specific conventional practices being followed and the global best practices from closely-related sectors like power

generation, renewable and other sectors, which leads to risk adjusted asset management of power transmission assets, enabling us to unlock maximum value for our stakeholders.

Below is graphical representation of the asset management framework. Over the last six years, IndiGrid has gradually moved from a planned/corrective practice to a reliability centric approach. Not only is this necessitated due to a larger asset base at IndiGrid - where assured performance is key, it is also critical due to the strategic nature of assets in the national grid. The movement to a reliability centric approach also underpins the steadfast pursuit of operational excellence and erecting a positive ecosystem around IndiGrid's portfolio.

We strongly believe that the above framework will help to achieve our aspiration to deliver assured performance to our stakeholders with unmatched operational excellence. The framework is built into three core strategic pillars:

a. Deliver Assured Performance

Assured performance is key to achieve IndiGrid's vision to meet our investor and other stakeholder expectations. Robust risk mitigation plan execution enabled by digital technologies will be a key driver for success of this pillar. Digital technologies will enable transition from conventional planned and corrective practices to advanced reliability centred predictive maintenance. Thus, strong rigor to minimise the downtime and improve mean time between failures and restoration, would certainly result in optimising total life cycle cost of ownership and unlocking the value of assets for our stakeholders.

b. Sustain with Operational Excellence

Simplified processes, methodologies, its compliances and skill developments are the most important element of developing continuous improvement culture across the value chain of asset management functions and will play critical role for the success of this pillar. Implementing globally benchmarked processes, standard operating procedures on EHS standards and quality assurance systems and with strong compliance rigor shall enable

unmatched operational excellence to deliver assured performance.

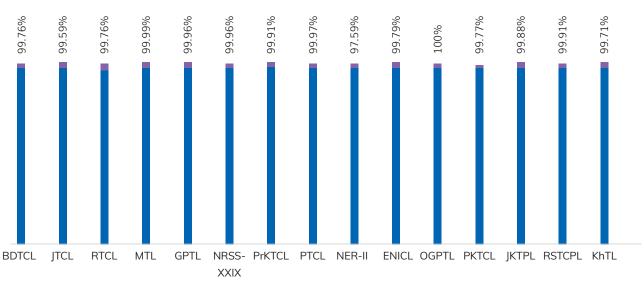

c. Enable with Winning Culture

This pillar becomes a strong enabler for delivering assured performance and to sustain with unmatched operational excellence. Working as 'One' Team till the last-mile person involved at the project sites, developing core competencies and building self-motivating teams would be key priorities to achieve objectives of this pillar. This is especially of great importance because there are several stakeholders involved, including IndiGrid, the project manager, and O&M contractors, among others. Asset management offers huge opportunity to create a social impact by supporting communities and environment located nearby our assets and will be an important aspect of this strategic pillar.

Key Performance in H1 FY2023-24

The following charts illustrate the demonstrated performance of IndiGrid's assets, which have consistently set benchmarks in the power transmission industry, beating pre-contracted availability-based tariffs – either under the transmission services contract or the CERC tariff guidelines.

Focus on Maximising 'Reliability'

In accordance with the Assured Performance pillar of Asset Management Framework, predictable reliability is of paramount importance to achieve committed performance for our stakeholders. IndiGrid has adopted Reliability Centred (RC) approach to achieve objective of safe and reliable operations of assets for the Company's life cycle. The IndiGrid RC approach is illustrated as:

Under this approach, conventional O&M mindset change from corrective (or reactive or run to failure approach) to preventive maintenance. Further, the preventive maintenance moves to predictive and ultimately to reliability centric approach. This Reliability-Centred (RC) approach has been the key philosophy towards maintaining IndiGrid's assets. Reliability-Centred (RC) approach is the process of determining the most effective maintenance strategies based on the local and global leading practices across the sectors and more particularly in power transmission.

The RC philosophy employs best practices from each of maintenance strategies, such as time-based maintenance, condition-based maintenance, predictive maintenance with real-time monitoring, risk-based maintenance, life cycle-based maintenance and even hard inevitable learnings from run-to-failure maintenance. These are deployed in integrated manner at system or component level to increase

the confidence that the assets will deliver its assured performance in the desired manner over its design life cycle.

Right now, we're in the 'condition-based maintenance' phase, where the objective is to plan maintenance when it's needed most, based on how the equipment is performing. By doing so, we can have lower service costs and excellent system availability.

Implementation of digital technologies like drone-based inspections, digital asset life cycle management platform with artificial intelligence-based transformative technologies, advance weather prediction to address climate change challenges and robust emergency management programmes with inbuilt state-of-the-art SCADA system will further strengthen RC approach to deliver IndiGrid's vision and objectives.

IndiGrid is now also accredited with IMS Certification for ISO 9001, ISO 14000, ISO 45000 quality and safety management systems and ISO 27001 for cybersecurity management system.

Some of these key projects undertaking during the year are detailed below:

Drone Inspection

ERS Training

Some Key Initiatives

Digital Transformation in Partnership with IBM

IndiGrid has signed a multi-year collaboration agreement with IBM to build an artificial intelligence (AI)-enabled asset management platform. DigiGrid, the digital transformation project with IBM, aims to digitise the entire operations of IndiGrid through its platform Maximo, recognised across the utility segment globally. At IndiGrid, we aim to deploy a One cloud solution with IBM Maximo Application Suite running on the secure AWS Cloud to optimise the quality and utilisation of our assets throughout their lifecycle, increase productive uptime through preventive and predictive maintenance, drive efficiency and reduce operating costs, thereby ultimately delivering better value to the investors. DigiGrid is live in all IndiGrid assets and integrated with SAP ERP system. The key modules of asset master, work order management for preventive inspection and defect correction, QHSE, crew management, warehouse operations, procurement & service modules are completed. Migration on all legacy processes to digital mode has been completed, including GPS-based mobile and geofencing technology. The next phase of the projects cover implementation of advanced business analytics and asset performance module to provide insights for risk-based and life cycle-based maintenance strategies.

IMS Certification

Other Digital & Technology Initiatives

IndiGrid is investing heavily into creating a future-ready infrastructure. Several projects including DMS, SAP implementation and SCADA upgradation have been undertaken to revamp and upgrade the existing infrastructure. IndiGrid has added emergency restoration system in the inventory to prepare itself better in case of emergency events. We also plan to use drones and thermal & LIDAR technology for effective vegetation management.

Specialized central monitoring system (BAX platform) tailored for solar assets is under implementation, a significant step supporting in our ongoing digital transformation journey. This system aligns with our Asset Management Framework, enabling us to proactively monitor and address faults and breakdowns within the system. It empowers us to transition from a conditionbased maintenance approach to a predictive maintenance stage, driven by our reliability-centered (RC) methodology. This transformation optimizes the efficiency of our assets by mitigating equipment underperformance and its associated costs, while also generating valuable, data-driven insights. The implementation of this system has facilitated 100% SCADA connectivity at all our sites, granting us roundthe-clock access to real-time data and allowing us to

- harness the full potential of this digital transformation for informed and swift decision-making.
- Indigrid has competed the IT/data migration from erstwhile system to a fully independent ecosystem.
- Cybersecurity- To ensure IndiGrid assets are resilient to any cyber-attacks and its impact on the grid, IndiGrid has deployed managed security operations centre across all its IT and OT systems. IndiGrid has completed all mitigation measures as guided by CERT and best prudent practices. SCADA upgradation been completed at all the substations.
- IndiGrid has been certified for ISO 27001 ISMS standards and compliance by Bureau Veritas, which is an internationally recognised certification agency.

OUR STRATEGIC INITIATIVES

OPERATIONAL EXCELLENCE

- Zero Harm ZeroDefect Approach
- Reliability centered framework adoption
- IMS Certification
- Self Perform Model with CBM maintenance approach
- KPI-based contracts (for limited assets)

DIGITAL INITIATIVES

- DigiGrid (Maximo)
- Central Monitoring System (BAX platform) for Solar Assets
- Weather monitoring
- Document Management System (DMS)
- One Cloud Initiative with DR
- Dashboard & Analytics on Power
- Host to Host Integration

TECH INITIATIVES

- Emergency restoration system
- Drone Inspections
- Thermal Image
 Camera
- SF6 leakage detection camera
- Online DGA instrument for transformer
- Asset Health Index (AHI)
- RAS and AFAS System
- BESS Project integrated with solar panels
- Robotic Module Cleaning

CYBERSECURITY

- Cybersecurity strengthening
- ISO 27001 Certification
- SCADA upgradation & integration
- SIEM/SOC application portfolio enhancement

Dashboard & Analytics (within DigiGrid Platform)

Asset Base

Dashboard & Charts

Key Notes

BI Ver-1 is released and integrated with DigiGrid Data base.

More than 250 charts have been developed in BI to get insights on operation such as:

- All asset details
- Plan vs actual details pertaining to preventive maintenance and inspections
- Quality and safety performance of different assets
- Trip trend with route cause
- AR/trip prone location information
- Mean time to restore parameters
- Solar generation trend, and
- Availability, among others

Self-Perform Model

- Self-perform O&M in TL will lead to retaining of only quality workforce, thereby enhancing the skill set, operational quality, and thus, enhanced reliability
- The proposed set-up will help IndiGrid in attaining self-sufficiency through in-house capability building
- Better end-to-end control will lead to improved compliances
- Proposed set-up is hopeful of aiding in efficient workforce mobilisation in case of special assignments
- Besides, self-perform O&M may help us to retain competitive advantage, through increased confidentiality of processes & technology
- Digitally savvy workforce in which the majority of periodic time-based, condition-based maintenance and restoration activities are managed internally
- Certification through CERC authorised training centres

Drone Inspections

Drone inspection is a methodology that helps Indigrid alter inspection procedures that have traditionally relied on manual labour, saving time and reducing risk by replacing time-consuming and potentially dangerous manual methods.

Below are some benefits:

- Enable improvement in reliability indicators (defects, trips, ARs & failures)
- Drones will enable implementation of predictive maintenance (reliability centered approach) if automated, through image analysis & interface with Enterprise Asset Management (EAM)
- Higher detectivity in inspection, thereby defect detecting accuracy will be high
- Overall trip/AR reduction
- Improve productivity of field resources, enabling fulfillment lean model
- Unapproachable locations can be addressed well ahead of time
- HSE hazard reduction to reduce risk of working at height/remote locations
- Defect analysis and ARE matrix-based on images
- Improve cost efficiency
- Approach to assess damaged during if unapproachable to last mile location

Emergency Preparedness

- Deployed ERS (Emergency Restoration System) 2 Sets compatible for 400kV and 765kV levels, planning to procure additional sets
- Material management strategy for strategic placement of inventory
- Training on emergency restoration SOP
- In-house team of 20 people got trained on ERS and developed as QRT (Quick Reaction Team) during installation of ERS in NER II
- Virtual mock drill on emergency restoration
- Reduced response time
- Reduced restoration time

Robotic Cleaning has been Implemented at Solaredge50. This is done with the Aim of minimizing Losses due to Soiling on Solar Modules & Maximizing Power

- Robotic water-free technology provides autonomous cleaning solution. It Includes powerful wind blower which provides touch-free removal of heavy soiling particles and gentle microfiber wipers that clean and protect the panels' ARC.
- We have used flexible bridges to facilitate easy mounting of airtouch robots on existing table layout for smooth movement even in misaligned rows, short rows, and curved rows, among others

Achieving Zero Defects on Assets

IndiGrid is striving to achieve Zero Defect in its all operating assets by adopting to reliability centred framework and below are the core pillars of our quality policy. The process involves robust mechanism of detecting the defects with stringent inspections protocols, prioritising per ARE scoring methodology, in-depth FMEA/RCA/CAPA analysis for each of

high risk defects and thereafter deploying mitigation measures with standard operating procedures and work instructions. This approach enables reduction of defects as well as mitigation of the recurrence of defects in the future, which is helping to maintain utmost reliability for our portfolio of assets.

Key Pillars of Quality Policy

Conformity

Efficiency

Sustai

Competency

Reliability Improvement Efforts

IndiGrid has adopted a reliability centred approach that strives for 'Zero Defect'. The Quality Policy aims for a continuous improvement culture through the adoption of leading practices, robust quality governance, conformance to applicable requirements and leading global standards. As part of the Reliability Improvement Efforts, under IndiGrid's defect liquidation program, 98% towers and 92% spans (excluding newly acquired assets), 99% Substation elements have been made defect free till Sep 30, 2023.

Emergency Readiness

To strengthen the reliability centred approach, IndiGrid has procured Emergency Restoration System suitable for the 765 kV and 400 kV transmission lines network spread across the country and is planning to procure additional sets. This will ensure quick restoration in case of any tower collapse events, thus minimising the outage hours & availability loss. The 1st phase of field training has been completed for understanding the erection process and hardwares and tools used on sites. In-house team of 20

people got trained on ERS and developed as QRT (Quick Reaction Team) during installation of ERS in NER II.

Emergency response and preparedness on natural disaster training conducted with collaboration of Disaster Management of J&K at NRSS.

ZERO HARM Culture

IndiGrid has committed itself to the vision of 'ZERO HARM' through its extensive Health, Safety & Environment Policy and ESMS framework. As a part of this endeavour, IndiGrid shall strive for 'Zero Harm' to people, environment and community by adopting best-in-class practices and advocating risk-based HSE culture across the organisation and its stakeholders.

Several initiatives such as awareness sessions, quizzes, expert sessions, trainings, and community help sessions have been organised during the year to inculcate the philosophy of 'ZERO HARM' acrossall levels. Height work rescue training was provided, in collaboration with M/s Karam, involving 109 participants from five SPVs.

STRONG MANAGEMENT TEAM

MR. PIYUSH PANDYA Senior Vice President - BU South

- Over 26 years of versatile experience in the field of power generation (both conventional & renewables) and transmission sector
- Previously worked with CLP India Private Limited, Reliance Infrastructure Limited and Torrent Power
- Bachelor's degree in Electrical Engineering from Saurashtra University and also qualified with PGDM-HRM
- Certified with energy auditor and Six Sigma green belt

MR. AMITANSHU SRIVASTAVA Senior Vice President - BU North

- Over 25 years of strong domain experience in power transmission sector majorly in EPC, business development and operations in India, Brazil, Africa and SAARC countries
- Demonstrated strong ability in project execution and operations, business development and commercial activities for power transmission projects in domestic and international markets
- Previously worked in Kalpataru Power, Sterlite Power and KEC International Bachelors degree in Electrical Engineering from Regional Engineering College, Nagpur

MR. ATUL RAIZADA Chief Operating Officer of Solar BU

- Over 30 years of experience in diverse fields in renewables and associated manufacturing sectors
- Expertise in projects and operations management in the renewable energy sector
- Previously worked with Flex Industries Limited, Jindal Poly Films, Orient Press Limited, Suzlon Infrastructure &
 Services Limited, Green Infra Limited, Hero Future Energies Private Limited
- Holds a bachelor's degree in Electronics Engineering from Nagpur University and PGDIGM from IIM. He has further completed various prorammes, including senior management programme of finance for non-finance executive from London School of Business. He is also a certified PMP with operational excellence from XLRI.

MR. ABHAY KUMAR Vice President (Legal and Corporate Affairs)

- Over 25 years of experience across different legal regulatory functions in varied sectors like power, telecom, real
 estate and print and electronic media
- Bachelor's degree in Law from Campus Law Centre, University of Delhi and is a Bachelor of Science (Maths-Stats-Hons) from Kirori Mal College, University of Delhi
- He has previously worked with Tata Power Delhi Distribution Ltd, Jindal Steel and Power Ltd, Bennett, Coleman & Co. Ltd. Tata Teleservice Ltd and Tata Power Co Ltd

MR. PUNEET SINGH CHAUHAN Vice President - SCM, BD & Contracts

- Over 20 years of experience in power transmission & railways infra sector, working in developing as well as EPC environment in India, Africa & South America
- He has previously worked with BSES, ANGELIQUE, STERLITE & KEC
- Bachelor's degree in Electrical Engineering from CCS UNIVERSITY Meerut, UP

MR. LOKENDRA RANAWAT General Manager - Regulatory Affairs

- About 16 years of experience in the field of power transmission detailing into various verticals of project development, project monitoring, tendering & bidding, contract management, supply chain management, contracts & commercial, regulatory operations, regulatory affairs in transmission sector
- Previously worked with Adani Power Limited and Reliance Infrastructure Limited. Bachelor's degree in Electrical Engineering from the University of Rajasthan

FINANCIAL REVIEW

Consolidated Financials - IndiGrid

(INR Million unless otherwise stated)

| Particulars | H1 FY2024 | H1 FY2023 | FY2022 | FY2021 | FY2020 | FY2019 |
|-------------------------|-----------|-----------|--------|--------|--------|--------|
| Revenue from Operations | 13,242 | 11,419 | 22,222 | 16,769 | 12,427 | 6,656 |
| EBITDA | 11,253 | 10,476 | 20,227 | 14,473 | 11,504 | 6,036 |
| EBITDA Margin | 85% | 92% | 91% | 86% | 93% | 91% |
| NDCF | 4,820 | 3,950 | 9,442 | 9,179 | 7,203 | 3,330 |
| PAT | 1,461 | 2,089 | 3,433 | 3,344 | 5,057 | 1,539 |
| Net Debt/AUM | 63.5% | 57% | 56% | 59% | 50% | 47% |
| DPU (INR/Unit) | 7.00 | 6.60 | 12.75 | 12.20 | 12.00 | 12.00 |
| NAV as per Independent | 132.97 | 135.3 | 131.71 | 146.26 | 102.26 | 96.55 |
| Valuer (INR/Unit) | | | | | | |

REVENUE, EBITDA AND PAT

For H1 FY2024, while revenue grew by 16% YoY, EBITDA grew by 7% YoY.

For the half-year, the EBITDA margins maintained at 85% on the back of consistently efficient asset management and operational excellence. Key cost components included costs incurred towards annual maintenance contracts, insurance, professional and regulatory fees.

NDCF AND DPU

Net Distributable Cash Flows (NDCF) is the free cash flow generated from underlying operations. Cash flows received by IndiGrid are typically in the form of interest income, dividend income, other income, and principal repayment. IndiGrid is required to distribute 90% of the cash flows received to its unitholders. During the period, the NDCF was INR 4,820 Million, a YoY growth of 22% on the back of accretive acquisition consummated during the fiscal.

Distribution Per Unit (DPU) amounts to cash flows distributed on a 'per unit' basis to the unitholders. The trust distributed DPU of INR 7.00/unit in the period H1 FY2024, with an increased guidance of INR 14.10/ unit for the year FY2024. Total cash distributed to unitholders in H1 FY2024 was at INR 5,011 Million.

ASSETS UNDER MANAGEMENT

Registered valuer, Mr. Manish Gadia, carried out the valuation as an independent valuer and valued IndiGrid's assets at INR 269 Billion, as of September 30, 2023.

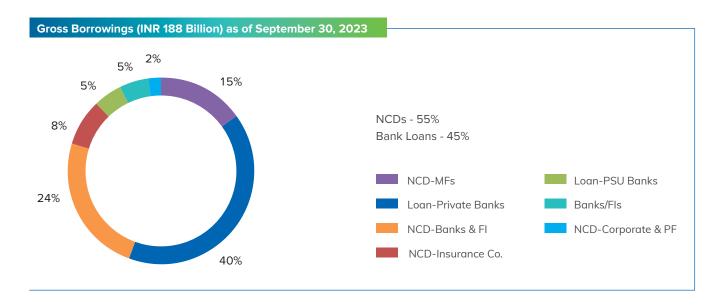

| Asset | Revenue (INR Million) | | | | | | AUM (INR Million) | | |
|------------|-----------------------|--------|--------|--------|--------|-----------|-------------------|--------------------|--|
| | FY2019 | FY2020 | FY2021 | FY2022 | FY2023 | H1 FY2024 | March 31, 2023 | September 30, 2023 | |

BORROWINGS

IndiGrid enjoys a AAA corporate credit rating; its debt facilities at the asset level are also rated AAA. This is on account of low operating risk resulting in stable cash flows. The break-up of borrowing by sources as of September 30, 2023 is as follows:

| Rating Agency | Rating For | Rating | Date | Rating Rationale |
|------------------|------------|--|------------------|--|
| India Ratings | IndiGrid | IND AAA/Stable IND A1+ | August 14, 2023 | Stable operating performance Diversified ownership High-quality underlying transmission assets Stable solar assets Moderate debt structure Adequate liquidity |
| CRISIL | IndiGrid | CCR AAA/Stable, CRISIL AAA/ Stable | October 26, 2023 | Steady revenue of underlying operational assets Strong collection efficiency of central transmission utility Robust financial risk profile |
| ICRA | IndiGrid | ICRA AAA/Stable ICRA A1+ | October 16, 2023 | Availability-linked payments under long-term TSAs for transmission assets and long-term PPAs for solar assets Stable performance of assets under IndiGrid Strong payment security for inter-state transmission assets and strong counterparty for solar assets Healthy debt coverage metrics Structural features, such as DSRA, cash-trap triggers and payment mechanism |

Fixed Rate Borrowing

Repayment/Refinancing Schedule as of September 30, 2023 (INR Billion)

NOTE: Information as of September 30, 2023

*Chart is not drawn to scale

NOTE: There will be difference in reported consolidated borrowing and above repayment schedule on account of Ind AS adjustments.

Key Business Strategies

LEVERAGE POLICY

- Active and prudent liability management
- Focussing on long tenure loans with fixed cost of borrowing
- Distribute the repayment schedule evenly to avoid bunching up
- Diversify sources of debt

LIQUIDITY MANAGEMENT

- Maintain a combination of liquid reserve & DSRA
- Minimum liquidity level to increase in line with increasing AUM

ACQUISITION STRATEGY

- Acquire value accretive assets with low risk, long-term contracts, strong counterparties and steady cash flows
- Profile of the platform to be transmission-centric, with gradual and systematic diversification into solar
- Independent & thorough technical, financial, legal and environmental due diligence

DISTRIBUTION FRAMEWORK

- Grow DPU in sustainable and steady manner to ensure predictable cash flows to investors
- Minimum 90% of cash generated to be distributed
- Quarterly distribution to the unitholders after meeting debt service obligations in a taxefficient manner

TRANSPARENT REPORTING

- Quarterly publication of financial statements, including NAV and other key metrics
- Quarterly disclosures on business and valuation reports

Risk Management and Mitigation

IndiGrid is aware of the risks associated with its business. These risks are constantly monitored, and adequate steps are taken to mitigate these risks. There are robust internal control mechanisms to identify and manage these risks in a timely manner. We employ a comprehensive risk management framework which assesses and mitigates key risks. Our risk management framework ensures smooth business operations and financial stability.

| | STRATEGIC RISK | OPERATIONAL RISK | MARKET RISK |
|------------|---|--|---|
| Definition | Political riskFinancial riskRegulatory risk | Asset availability and collection risk Hazard risk – natural disaster, manmade disaster Compliance risk Acquisition risk | Foreign currency riskInterest rate risk |
| Mitigation | Diversify funding sources High corporate governance standards Transparent disclosure norms Available undrawn lines of credit | Comprehensive insurance coverage Enhanced focus on HSE & ERM Long-term O&M contracts Adequate cash resources Strong diligence framework for acquisitions | Adopted a well-defined and structured risk management policy Well-tenured borrowing Focus on fixed rate borrowing |

a. Delay in Collection

A delay in payment by customers to the CTU under PoC mechanism might affect the timing of cash flows.

b. Inability to Offset Cost Increases

The tariff structure under TSA is largely fixed. Increase in O&M and interest costs because of the reasons beyond control might adversely impact profitability.

c. Unforeseen Changes in Regulatory Environment

Any adverse regulatory development can impact cash flows to the unitholders.

d. Force Majeure

Any force majeure event that is not covered by insurance or TSA can adversely impact the business and the timing of cash flows to the unitholders.

Internal Control Systems

IndiGrid has a strong internal control system to manage its operations, financial reporting, and compliance requirements.

The investment manager has clearly defined roles and responsibilities for all managerial positions. All the business parameters are regularly monitored, and effective steps are taken to control them. Regular internal audits are

undertaken to ensure that responsibilities are executed effectively.

The Audit Committee of the Board of Directors periodically reviews the adequacy and effectiveness of internal control systems and suggests improvements to further strengthen them.

Insurance

All transmission assets, substations and renewable assets are covered under Industrial All Risks (as against Standard Fire and Special Peril Insurance). This provides a wide cover against perils such as fire and allied perils, burglary, accidental damage, asset breakdown as well as business interruption. We have also covered the damage due to terrorism. Detailed insurance terms and conditions, exclusions, deductibles are mentioned in the respective policy contract.

All assets are insured to the extent of INR 2 Billion loss limit for standard risks like fire, storm, flood, tempest, machinery breakdown and related risks including loss of profit. The policy is subject to standard exclusions. The coverage under policy has been extended for reinstatement of value, escalation, cost of architect, surveyors, and consulting engineers, removal of debris and other clauses. All substation assets are covered on a 100% replacement value basis,

including business interruption. The substation assets are covered on a replacement value basis, including business interruption through a separate industrial all risk policy. Sudden and accidental machinery breakdown and related business interruption are also covered. In addition, there is terrorism cover for all transmission assets with loss limit of INR 4 Billion and CGL with loss limit of INR 500 Million.

Outlook

Over the last six years, IndiGrid's underlying performance has been robust, and it remains well capitalised (post Rights and Public NCD Issue) to grow faster than ever before. Backed by KKR and its investment expertise, we intend to keep the momentum of growing the underlying portfolio as well as enhancing unitholder returns. On the operational front, we continue to make investments in industry-leading technology initiatives to catapult IndiGrid's digital asset management, predictive analytics and emergency preparedness and become self-reliant in project management, going forward, to bring in the operational efficiencies and synergies. IndiGrid's main objective is to continue to ensure a positive impact on India's power connectivity by providing reliable power, while delivering superior risk-adjusted total returns to its

unitholders. The management has guided for an increased distribution to the tune of INR 14.10 per unit for FY2023-24, and we are confident of successfully meeting the guidance.

Cautionary Statement

This document contains statements about expected future events, financial and operating results of IndiGrid, which are forward-looking. By their nature, forward-looking statements require IndiGrid to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that the assumptions, predictions and other forward-looking statements will not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause assumptions, actual future results and events to differ materially from those expressed in the forwardlooking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the Management Discussion and Analysis of IndiGrid's Annual Report 2022-23.

ESG AT INDIGRID

At IndiGrid, our philosophy of business is deeply intertwined with the principles of sustainable development. We have committed ourselves to the vision of 'Zero Harm' to the environment, people, and communities. Our ESG strategy is deeply integrated in our daily operations, ensuring alignment with our environmental, social, and governance commitments across all office and site locations.

ENVIRONMENT

IndiGrid is constantly making efforts to create a balance between operational excellence and environmental stewardship. We continuously strive to make a positive impact on the environment via monitoring and assessment, and undertaking initiatives aimed at impacting our key focus areas.

Our Policies

ESMS Policy: Environment and Social Management System Policy (ESMS) document is the parent document encompassing all the guidelines necessary to establish ESG systems at IndiGrid.

Our Initiatives

Emissions and Energy Management

We consciously monitor all our operations with their corresponding energy consumption and emissions patterns to identify initiatives which can help us improve our performance.

1. Installation of Solar Panels

Installed solar panels coupled with battery energy storage systems across our Bhopal and Dhule substation with generation capacity of 453.6Kwh. Generation through these installations is utilised for meeting the substations' auxiliary power consumption requirements.

2. Increasing Energy Efficiency

Two old air conditioning units having R22 gas (ozone-depleting substance) replaced with new air conditioning having R32 gas, increasing power input by 20%. Global warming potential of R32 is 1/3rd of R22

Water Management

As the global population increases, and resource-intensive economic development continues, the global state of water resources and infrastructure are failing to meet accelerating demand. Climate change is making water scarcity worse. At IndiGrid, we believe that constant monitoring is key to judiciously manage our water consumption and identify initiatives to reduce it going forward.

1. Water Monitoring Systems

Across our offices and sites, we consume water either received through municipal supply or extracted ground water. While the former source is judiciously tracked by the suppliers, for tracking our ground water consumption, we have installed water flow meters across 100% of our sites.

In FY2022-23, we installed flowmeters at our substations across our assets – Bhopal Dhule Transmission Company Limited (BDTCL) and Jhajjar KT Transco Private Limited (JKTPL) – to achieve 100% coverage. We plan to install similar flowmeters at other substations across our assets.

For H1 FY2024, our ground water consumption across all site locations stood at 17,376 cubic meters.

2. Water Conservation Initiatives

To conserve water across sites, during FY2022-23, we developed a rooftop rainwater harvesting structure at our Bhopal substation of the BDTCL asset. This structure has an annual capacity of 328 cubic meters. We plan to install similar structures across our other locations to augment our water conservation efforts.

 Replaced 400W and 150W High-Pressure Sodium Vapour (HPSV) lamps with 350W flood lights and 70W street lights respectively. These lights consume low energy while providing superior levels of illumination

Waste Management

It is our constant endeavour at IndiGrid that we adhere to all the prescribed standards of waste disposal, while working towards better management and monitoring of waste generation and segregation. We try to streamline all our waste management efforts to achieve maximum efficiency in our generation and disposal processes.

1. Waste Segregation and Monitoring

We monitor our waste across the following three categories:

We have developed and institutionalised robust waste management systems to monitor the generation and disposal of waste properly.

2. Proper Waste Disposal

IndiGrid has tied up with certified hazardous waste and e-waste handlers for proper disposal of waste generated across our sites and offices.

Biodiversity Management

All IndiGrid's assets are based in remote locations where they interact with the native flora and fauna on a daily basis. Hence it is critical that we are contributing positively to the biodiversity quotient across our sites.

1. Environmental Social Due Diligence (ESDD)

IndiGrid undertook an environmental and social due diligence exercise across 10 selected assets to develop a gap analysis and identify variances between our set ESMS standards and the on-ground environmental and social performance of these assets.

The outcome report of ESDD serves as a guideline for us in developing an E&S action plan that outlines the activities required to meet ESMS compliance standards.

2. Critical Habitat Assessment (CHA)

We undertook Critical Habitat Assessment (CHA) across 6 of our major assets to determine if any of our assets are located around a habitat of significance for any endemic, congregatory or migratory species, threatened or unique ecosystems, and key evolutionary processes. None of our assets were found to be located near any of the abovementioned categories of species, ecosystems and/or processes.

Going forward, we plan to undertake similar assessments for our other assets to ensure awareness and corrective actions wherever necessary.

3. Biodiversity Action Planning Assessment (BAP)

IndiGrid is in process of completing biodiversity action planning assessment for 5 of our major assets to identify and prepare an action plan to conserve the biodiversity and natural habitats around these assets.

4. Plantation

(i) Miyawaki Forestation

We planted 50,000 saplings using the well-known Miyawaki technique at our JKTPL asset. The benefits of the Miyawaki forestation technique are many-fold. It not only emphasises on a completely chemical fertiliser-free forest that sustains itself and supports local biodiversity but also has at least 30 times carbon-dioxide absorption capability compared to a conventional forest. IndiGrid has taken up the full responsibility of maintenance until the forest is self-sustaining.

(ii) Greening the Workplace

We planted over 200 saplings across multiple site locations to improve our emission management efforts. Responsibility of maintenance of all these plantations also lies with IndiGrid and is being performed regularly.

5. Biodiversity Conservation Initiatives

Earthen water feeders have been installed at solar assets gardens. It brings a great feeling that many of the passing birds, like sparrows, had water at regular intervals and were always very happy to fly. Re-nesting of birds at solar assets The visual hatching process was evidenced by passerine birds and, later, the happy fly of chicks.

SOCIAL

IndiGrid cares about developing a meaningful and engaging environment for its employees, stakeholders, and the communities that it operates within, by building a 'ZERO HARM' culture. IndiGrid has a presence across the length and breadth of the country and with such great presence, we are mindful of the societal impact that we can bring through our initiatives.

Our Policies

HSE Policy: Health, safety and environment policy contains commitment towards adoption of best-in-class practices to make IndiGrid safe workplace for everyone.

Diversity, Equity and Inclusion Policy: DE&I highlights our commitment to providing equal opportunities within the organisation and creating an inclusive work environment enabling us to attract, retain and engage with diverse talents.

1. Best-in-Class Practices Across Organisation

- Policies and Processes: Developed and rolled-out detailed HSE policy, framework, manual, and SOPs across all sites to ensure compliance to our health and safety standards.
- Top-Down Drive: Periodic review by the Company's leadership of HSE performance metrics and planned improvements.
- HSE Checklist: HSE checklist provided to all the assets to ensure easy adherence to safety standards.

2. Robust Hazard Identification and Risk Mitigation

- Geography-based risk assessment to identify risks specific to varying climatic conditions and terrains unique to IndiGrid's different assets. The teams across assets then equipped with suitable tools and trainings to handle emergency conditions.
- Asset specific emergency preparedness and response plan (EPRP) plans developed.
- Snake bite protector and snake anti-venom kit made available across substations.

Alcohol testing, vehicle compliance tracking, defensive driving training, and driver medical check-ups undertaken across assets to ensure road safety.

3. Culture of safety and well-being

- Trainings and awareness sessions organised to encourage employees to report incidents and nearmiss.
- Tool-box talks at each site before initiation of activities.
- PPE standardisation across all assets.
 - Tower hook safety harness & rescue Kit across all sites.
- Regular internal inspections performed by regional managers and other senior members to ensure safe working environment.
- Expert-led specialised trainings: Height safety, electrical safety, and fire safety.
- Acrophobia test before deploying any workforce at jobs requiring work at heights.
- In FY2023, IndiGrid has deployed:

57000+

Training Workforce Hours

200+

First Aiders Certified

40+

Defensive Drivers Certified

4. Continuous Improvement and Sustenance

- To improve the process of data collection, monitoring, and assessment IndiGrid has digitised its systems for:
- Incident Reporting
- Concern Reporting
- Audits and Surveys
- Scorecard Generation
- Accident Investigation

Digitisation of EHS processes is expected to improve the efficiency, accuracy, tracking and implementation of better measure at IndiGrid.

Employee Well-Being

Irrespective of the industry, effective management of a company's human capital is crucial to its long-term success. At IndiGrid, we focus on people management to attract, retain and develop future leaders through widespread, targeted and individual interventions. We also strive to create a motivating and energising workplace for all employees to contribute towards their development and foster an environment of trust, openness and excellence.

1. Ensuring Physical and Promoting Mental Well-Being

- Insurance: 100% of our employees have term insurance and accidental coverage. 100% of our employees along with five of their respective dependents are covered under the group mediclaim coverage.
- Well-Being Sessions: Various sessions like pranic healing, mental wellness, women health and hygiene, maintaining cardiac health conducted regularly.

- Flexible Work Hours and Time-Off: IndiGrid continues to operate in hybrid mode, at corporate offices, where our employees can work from home few days every week. We also provide flexible working hours and various categories of leaves (sick, maternity, paternity, and bereavement, among others) to our employees, ensuring their physical and mental well-being.
- Enabling Easy Access to Health: Digital applicationbased employee wellness program has been deployed to support employees to setup doctors' appointments, receive tele consultation, get discounts on medical bills, and free OPD services for themselves through our partner network. There is strong coverage with more than 60% employees using various services under the application
- First-Aid Camps: Two-day first-aid camps were organised at various assets with sessions like performing CPR, first aid methodologies, and responding to an emergency condition, among others, which created 142 certified first-aiders across assets and offices.

2. Employee Engagement, Training and Upskilling

The need to engage our talent and grow them is one of the key drivers of our growth and also a way to address the risk of losing talent as part of addressing enterprise risk management (ERM). INDIGROW is our comprehensive engagement model to build our people capability and enhance employee experience. IndiGrow covers broadly five areas of intervention as mentioned below.

| Onboard | IndiGrid Values: i-Care | Managerial Skills | Technical Skills | Grow Within |
|----------------------|----------------------------|---------------------|--------------------|---------------------|
| Pre-Onboarding | Integrity | Curiosity | Operations Skills | GET SPARK Program |
| Mandatory Training | Collaboration | Result Orientation | Commercial Skills | Internal Jobs (IJP) |
| Safety Induction | Agility | Decision-Making | Regulatory Skills | Job Rotations |
| Functional Induction | Reliability | Stakeholder Ecstasy | Finance Skills | Job Enrichment |
| Immersion Module | Excellence | Impact & Influence | Contracting Skills | Key Projects |
| | | Leadership | | |

On a consistent basis, we continue to engage with specialised external trainers to provide multiple avenue of technical and managerial trainings to our employees:

- >50% engineers participated in Tata Power Technical Program
- "60% technicians and fitters participated in power sector's Skills Council Program

Diversity, Equity and Inclusion

A workplace that appreciates and respects the diversity of its employees and promotes equity and inclusion irrespective of their varied views and backgrounds are more likely to earn deeper trust and more commitment from their employees. It is our constant endeavour at IndiGrid to uplift our work culture by engraining the spirit of inclusivity across levels.

1. Implementation of DE&I Policy

IndiGrid rolled out its DE&I policy solidifying our commitment to create a diverse and inclusive workplace where everyone can fully participate and be valued for their distinctive skills and experiences.

The purpose of this policy is to ensure that all job applicants, employees (on-roll and off-roll) receive favourable treatment and are not unlawfully discriminated on grounds of gender, civil status, family status, sexual orientation, religion, age, disability, and race, among others.

2. Gender Diversity

Promoting gender diversity is a key objective for the senior management of IndiGrid and the HR team constantly works towards launching policies and programs to encourage gender diversity. For example:

Employees receive higher referral benefits for referring female candidates.

20%

In leadership positions at IndiGrid, there is a gender diversity of

Community Engagement

IndiGrid works extensively with the local communities in and around our assets, as we believe in building a symbiotic relationship to drive mutual growth. Our on-site teams spend time with the local communities to identify their needs and areas for collaboration.

All of IndiGrid's corporate social responsibility efforts are aligned under the following four themes:

Promoting Healthcare

Fostering Education

Rural Development

Green Initiatives

All our CSR efforts this year contributed to seven UN Sustainable Development Goals.

1. Promoting Healthcare

IndiGrid provided infrastructural support to many hospitals across its assets to improve the quality of healthcare services for the communities.

- Installed an air conditioner and hot water geyser inside the labour room of the public health center at Lephripara near our OGPTL asset
- Provided ambulance for emergency purposes to the local healthcare centre at Rajouri
- Offered healthy mid-day meals to kids in Biwandi near our BDTCL asset
- Organised health check-up camps at various locations:
 Palwal, Jeerapur, and Garhiwazidpur

Healthcare Beneficiaries

Communities Living in more than

Received Medical Support Through Camps

Healthy Mid-Day Meal for Children

2. Promoting Education

IndiGrid's CSR project – EduGrid – is aimed at promoting quality education and focusses on:

- Improving the school infrastructure around various parts of Tripura
- Upskilling teaching staff to improve learnings
- Creating tools and solutions for multimodal support to teachers

Some of the initiatives deployed by IndiGrid through EduGrid during the first half of 2024:

- Smart classrooms set up in Sepahijala and West Tripura districts aided with digital infrastructure to improve learning experience for students
- Deployed Pragyan mobile application a digital tool for supporting teachers with teaching ideas, worksheets, student facing videos etc. to upskill teachers and enhance teaching practices
- Workshops conducted for teachers to develop understanding of competency-based teaching, learning and assessment; introduction to Pragyan App and its usage, qualities of a facilitator, use of tech tools for teaching and learning processes, and session planning & designing, among others

 Developed a repository of student videos in local tribal language of Kokborok in accordance with NEP 2020 to promote learning for tribal students

Other Initiatives:

- Provided infrastructural support to various schools around our assets in form of like chairs, desks, colour printers, and fans, among others
- Distributed stationary items like books, note-books, pen, pencil, schoolbags, crayons at various Government schools

100

Smart Classrooms Setup

98

Participants from Eight Districts Joined in Teacher Training Workshops

3. Promoting Rural Development

Working towards the development of rural infrastructure and to contribute to the growth of rural parts of country.

- Developed an approach road for farmers for their agricultural land, which was otherwise obstructed by dam back water at Kadpa Galiveedu
- Distributed 100 pesticide sprayers at Tendukheda, to support farmers to protect their yield
- Installed 10 solar streetlights at Huzur & Rasla Khedi
 Village and renovated tehsil office at Dhule Songir, near our BDTCL asset

4. Green Initiatives

Undertaking green initiatives to contribute positively to the local environment near our assets:

- Distributed more than 1,000 jute bags in various villages at Punjab to reduce single-use plastic consumption
- Distributed iron tree guards at Dhule to promote plantation protection

GOVERNANCE

Our values govern – doing the right thing, the right way. We are dedicated to the highest standards of personal and corporate conduct, and we align our architecture by embedding the principles of good governance in our business. We are also driven by nurturing an open and transparent culture at the core.

We are committed towards the adoption of best corporate governance practices that goes beyond compliance with the applicable laws and have been rated as one of the best corporate governance practices among our peer group.

Our Policies/Codes

- Policy on Vendor Selection & Evaluation
- Policy on Material Subsidiaries
- Code of Ethical Business Conduct
- Borrowing Framework
- Borrowing Policy
- Distribution Policy
- Nomination and Remuneration Policy
- Policy for Determining Materiality of Information

- Framework on Succession Planning
- Auditor's Engagement Framework
- Investor Grievance Redressal Policy
- Document Archival Policy

Key Focus Areas

- Code of Conduct
- Corporate Behaviour
- Business Ethics

Code of Ethical Business Conduct

The Code of Ethical Business Conduct ('Code of Conduct') is a reference document outlining the standard of conduct for India Grid Trust (IndiGrid), IndiGrid Investment Managers Limited (IIML), and affiliates of both these entities (together referred to as the 'Group') and for the Directors, officers, employees, contractors, suppliers, or any other third-party intermediaries of the Group entities (together referred to as 'Associates'). The Code of Conduct provides a detailed roadmap and primary reference point for the Group and Associates, on questions pertaining to business ethics and integrity. It provides support for decision-making on ethical questions faced from time to time. It protects the Group's reputation in case of a breach by an individual employee. It is defined by our core values and complements our policies and rules.

Key Aspects of Conduct

Following are few of the key aspects or areas covered under the Code of Conduct:

- Compliance with the law
- Relationship with customers, business partners, competitors, government & regulators
- Anti-trust and fair competition accounting and payment practices, gifts and donations
- Fraud, misconduct and money laundering
- Brand use and protecting confidential Information, conflict of interest

- Insider trading and information barriers, prevention of sexual hrassment, environmental, health and safety
- Use of social media, whistle-blower cases
- Anti-corruption compliance policy

Governance - Key Actions & Deliverables

- New policy on third-party business partner engagement procedures has been rolled out
- Quarterly declarations from all function heads for all material interactions with Government officials/ authorities, are being taken
- Training module on prevention of sexual harassment has been rolled out for all employees
- Training modules on code of conduct (including anti bribery & anti-corruption, and insider trading), information security, and whistle blower are targeted to be rolled out
- Training for: (a) Vendors on code of conduct, and (b) regional managers (in the form of a 'train the trainer' session), is targeted to be rolled out
 - Monthly posts/communications on provision under code of conduct with respect to pre-approvals, expense disclosures & general guidelines for gifts, donations and contributions, are shared with all employees
- Regular review of pre-approval requests sent to compliance officer for proposed expenses with respect to Government officials & other external stakeholders, issuance of approvals & maintenance of register for such expenses, is undertaken

CORPORATE GOVERNANCE

HALF-YEAR IN REVIEW: H1 FY 2023-24

April

Installed and commissioned their pilot project of Solar Panel bank coupled with Battery Energy Storage Systems (BESS) at their Dhule Substation located in Maharashtra, for meeting the substation's auxiliary consumption requirement. (April 5, 2023)

Appointed Mr. Navin Sharma as the Chief Financial Officer (w.e.f. April 19, 2023)

International Finance Corporation(IFC) has subscribed to a listed NCD issuance of IndiGrid aggregating to INR 1,140 crores (April 20, 2023)

May 2023

Outcome of Board Meeting (May 12, 2023)

- Approved audited standalone and consolidated financial information for the financial year ended on March 31, 2023 along with the audit reports.
- Declared a distribution of INR 3.45 per unit comprising INR 2.5344 per unit in the form of Interest, INR 0.2848 per unit in the form of Dividend (wherein INR 0.0257 is taxable, and INR 0.2591 is non-taxable) and INR 0.5853 per unit in the form of Principal payment and INR 0.0455 per unit in the form of Other Income.
- Proposed acquisition of 100% of units in Virescent Renewable Energy Trust and matters related thereto, subject to approval of the unitholders, approvals of relevant regulatory authorities and execution and closing of the related definitive agreements.
- Raising debt upto INR 4,250 crores through various sources including term loans, nonconvertible debentures and/or any other mode as may be permitted under applicable law.
- An enabling resolution to raise capital upto an aggregate value not exceeding INR 1,500 crore, subject to receipt of necessary approvals from statutory, regulatory and other authorities as applicable, including but not limited to by way of issue of Units of IndiGrid to its eligible Unitholders on a right basis ('Rights Issue') or Preferential Issue or institutional placement and/ or any other mode, in accordance with the applicable provisions of the InvIT Regulations and other applicable laws.
- Amendment to the Investment Management Agreement in relation to IndiGrid Investment Managers Limited, subject to approval of the unitholders and execution of the definitive agreement.
- De-classification of status of Sterlite Power Transmission Limited as a Sponsor subject to approval of Unitholders of IndiGrid and approvals of relevant regulatory authorities.

Published Valuation Report for FY 2022-2023 (May 12, 2023).

Executed unit purchase agreement(s) dated May 12, 2023 for acquisition of 100% of the units of Virescent Renewable Energy Trust ("VRET"), in one or more tranches, from the unitholders of VRET (May 12, 2023).

Executed share purchase agreement(s) dated May 12, 2023, for acquisition of 100% of the equity shares of Virescent Infrastructure Investment Manager Private Limited ("Virescent IM") along with its wholly owned subsidiary, Virescent Renewable Energy Project Manager Private Limited ("Virescent PM"), in one or more tranches and from the shareholders of the Virescent IM (May 12, 2023).

IndiGrid has received a disclosure from Mr. Navin Sharma, the Chief Financial Officer of IndiGrid Investment Managers Limited (the Investment Manager of IndiGrid) regarding the purchase of IndiGrid units by his immediate relative (May 31, 2023)

June

Outcome of EGM of IndiGrid held through video conferencing (June 06, 2023)

- Approved proposed acquisition of units of Virescent Renewable Energy Trust and matters related thereto
- Approved proposed acquisition of shares of Virescent Infrastructure Investment Manager Private Limited along with its wholly owned subsidiary, Virescent Renewable Energy Project Manager Private Limited and matters related thereto.
- Considered and approved amendment and/or restatement in the Investment Management Agreement
- Granted omnibus approval for Capital Raising
- Considered and approve de-classification of status of Sterlite Power Transmission Limited as a Sponsor

The Board of Investment Manager has approved the appointment of Mr. Manish Gadia, Chartered Accountants, bearing IBBI registration number IBBI/RV/06/2019/11646 as the Valuer of India Grid Trust ("IndiGrid") for the financial year 2023-2024 subject to the approval of the Unitholders (June 28, 2023)

Published Annual Report of IndiGrid for FY 2022-23 (June 29, 2023)

Executed Termination Deed with Sterlite Power Transmission Limited to discontinue Project Manager services for NER II Transmission Limited (June 30, 2023)

July 2023

Securities and Exchange Board of India has granted its approval for de-classification of Sterlite Power Transmission Limited (SPTL) as a Sponsor of India Grid Trust (July 6, 2023)

Outcome of Board Meeting (July 28, 2023)

- Approved Un-audited standalone and consolidated financial results for the period ended on June 30, 2023 along with limited review reports.
- Declared a distribution of INR 3.45 per unit comprising INR 3.1759 per unit in the form of Interest and INR 0.0611 per unit in the form of Dividend, INR 0.2010 in the form of Principal payment and INR 0.0120 in the form of Other Income.

Published Valuation Report the quarter ended on June 30, 2023 (July 28, 2023)

Outcome of 6th AGM of IndiGrid held through video conferencing (July 28, 2023)

- Adopted audited standalone financial statements and audited consolidated financial statements
 of IndiGrid as at and for the financial year ended on March 31, 2023 together with the reports
 of the auditors thereon for the financial year ended on March 31, 2023 and the report on
 performance of IndiGrid
- Adopted valuation report issued by Mr. Pradhan Dass, valuer for the valuation of the InvIT Assets as on March 31, 2023
- Appointed Mr. Manish Gadia, Chartered Accountant, bearing IBBI registration number IBBI/ RV/06/2019/11646 as the valuer of India Grid Trust

HALF-YEAR IN REVIEW: FY 2023-24 (Contd.)

August

Completed the acquisition of 100% of units in Virescent Renewable Energy Trust (August 25, 2023)

September 2023

Outcome of EGM of IndiGrid held through video conferencing (September 8, 2023)

Approved issuance of units on a preferential basis for an aggregate consideration of upto ₹ 409 crore.

IndiGrid Limited ("IGL"), a holding company held by India Grid Trust ("IndiGrid") has acquired 100% of the share capital of Virescent Infrastructure Investment Manager Private Limited ("Virescent IM") along with its wholly owned subsidiary, Virescent Renewable Energy Project Manager Private Limited ("Virescent PM") (September 8, 2023)

The Board of Directors ("Board") of IndiGrid Investment Managers Limited acting in the capacity of Investment Manager to India Grid Trust ("IndiGrid") on September 21, 2023, considered and approved allotment of 3,08,01,491 Units on preferential basis to the eligible allottees for cash at a price of ₹ 131.00 per unit aggregating to approximately ₹ 403.50 crores (September 21, 2023)

October 2023

Consortium of IndiGrid 2 Limited (wholly owned subsidiary of India Grid Trust) and Amperehour Solar Technology Private Limited, has received the Letter of Intent (LOI) / Letter of Award (LOA) dated October 23, 2023 from BSES Rajdhani Power Limited (BRPL) for "Design, Supply, Testing, Installation, Commissioning, Operation and Maintenance of 20 MW/ 40 MWh Battery Energy Storage Systems in Delhi" on Build Own Operate Transfer ("BOOT") basis. (October 25, 2023)

November 2023

Outcome of Board Meeting (November 3, 2023)

- Approved Un-audited standalone and consolidated financial results for the period ended on June 30, 2023 along with limited review reports.
- Declared a distribution of INR 3.55 per unit comprising INR 2.8961 per unit in the form of Interest, INR 0.6341 in the form of Principal payment and INR 0.0198 in the form of Other Income.
- Raising debt upto INR 1,300 crores through various sources including term loans, non-convertible debentures and/or any other mode as may be permitted under applicable law.
- Amendment to the Trust Deed and Investment Management Agreement subject to the approval
 of the Unitholders.
- Internal restructuring (merger, acquisition etc.) within the group of various Special Purpose Vehicle(s) / HoldCos held by IndiGrid subject to the approval of the Unitholders.

Published Valuation Report for half year ended September 30, 2023 (November 3, 2023).

CORPORATE GOVERNANCE REPORT

Corporate Governance is a continuous process, which incorporates every sphere of management, from internal set of controls and action plans to performance evaluation and disclosures. It is vital for any organisation to have a disciplined approach to Corporate Governance and we at India Grid Trust ("IndiGrid") have imbibed this philosophy. In harmony with SEBI (Infrastructure Investment Trusts) Regulations, 2014 ("SEBI InvIT Regulations") the Report on Corporate Governance reverberates the ideology of Corporate Governance Systems at IndiGrid.

IndiGrid's Philosophy on Code of Corporate Governance represent the values, ethical and moral framework under which business decisions are taken. The investors want to

be sure that not only is their capital handled effectively and adds to the creation of wealth, but the business decisions are also taken in a manner which is not illegal or involving moral hazard. IndiGrid perceives best in class corporate governance practices as a key to sustainable corporate growth and long-term unitholder value creation. The primary objective is to develop and adhere to a corporate culture of harmonious and transparent functioning and enhancing unitholders' wealth by developing capabilities and identifying opportunities that best serve the goal of value creation. All actions and strategic plans are directed towards delivering value to all stakeholders, as well as adhere to the highest standards of corporate behaviour.

IndiGrid has a three-tier governance structure:

| Statutory supervision | Axis Trustee Services Limited is the Trustee of IndiGrid. Trustee is responsible for ensuring |
|-----------------------|--|
| | that all the business activities and investment policies comply with the provisions of the Code, |
| | Policies, Material Contracts and the SEBI InvIT Regulations and monitors the activities of the |
| | Investment Manager under the Investment Management Agreement and activities of the Project |
| | Manager under the Project Implementation and Management Agreement. |
| Strategic management | IndiGrid Investment Managers Limited is the Investment Manager of IndiGrid. The Investment |
| | Manager has overall responsibility for setting the strategic direction of IndiGrid and deciding on |
| | the acquisition, divestment or enhancement of assets of IndiGrid in accordance with its stated |
| | investment strategy. The Board of Investment Manager lays down strategic goals and exercises |
| | control to ensure that IndiGrid is progressing to fulfill unitholders' aspirations. |
| Executive Management | The executive management is composed of the key personnel and operates upon the directions |
| | of the Board of Directors of Investment Manager. |

BOARD OF DIRECTORS

In order to maintain independence of the Investment Manager, IndiGrid Investment Managers Limited has a judicious combination of Executive Director, Non-Executive and Independent Directors ("the Board"). As on date, the Board comprised Six (6) directors including one (1) Wholetime Director, two (2) Non-Independent Director and three (3) Independent Directors. The Whole-time Director also serves as the Chief Executive Officer of the Investment Manager. The Chief Executive Officer takes a lead role in facilitating effective communication among Directors. Policies of the Board of Directors of the Investment Manager in relation to IndiGrid

In order to adhere the good governance practices the Investment Manager has adopted the following policies in relation to IndiGrid:

Borrowing Policy

The Investment Manager shall ensure that all funds borrowed in relation to IndiGrid are in compliance with the SEBI InvIT Regulations. Accordingly, the Investment Manager has formulated Borrowing Policy to outline the process for borrowing monies in relation to IndiGrid.

Policy on Appointment of Auditor and Valuer

The Investment Manager has adopted the Policy on Appointment of Auditor and Valuer to govern the appointment and operations of Auditor and Valuer which plays very crucial role at IndiGrid.

Policy on Related Party Transactions

To ensure proper approval, supervision and reporting of the transactions between IndiGrid and its Related Parties, the board of directors of the Investment Manager has adopted the Policy in relation to Related Party Transactions, to regulate the transactions between IndiGrid and its Related Parties.

Distribution Policy

The Investment Manager has adopted the Distribution Policy to ensure proper, accurate and timely distribution to the unitholders of IndiGrid. The Distributable Income of IndiGrid is calculated in accordance with the Distribution Policy, SEBI InvIT Regulations and any circular, notification or guidance issued thereunder.

Code of Internal Procedures and Conduct for Regulating, Monitoring and Reporting of trading by Designated Person(s) of IndiGrid (the "UPSI Policy")

The Investment Manager has adopted the UPSI Policy to ensure that IndiGrid complies with applicable law, including the SEBI InvIT Regulations or such other laws, regulations, rules or guidelines prohibiting insider trading and governing disclosure of material, unpublished price sensitive information.

Policy for Determining Materiality of Information for Periodic Disclosures (the "Materiality of Information Policy")

The Investment Manager has adopted the Materiality of Information Policy with an intention to outline process and procedures for determining materiality of information in relation to periodic disclosures on IndiGrid's website, to the stock exchanges and to all stakeholders at large, in relation to IndiGrid.

Policy for Preservation of Documents and Archival Policy

The Investment Manager has adopted the Policy for Preservation of Documents and Archival Policy to provide a comprehensive policy on the preservation and conservation of the records and documents of IndiGrid. This policy provides guidance on the preservation and management of documents to help ensure the authenticity, reliability and accessibility of such documents. The Policy aims at identifying, classifying, storing, securing, retrieving, tracking and destroying or permanently preserving records.

Nomination and Remuneration Policy

The Investment Manager has adopted the Nomination and Remuneration Policy with an intention to provide the underlying principles and guidelines governing the activities of the Nomination and Remuneration Committee.

Whistle Blower Policy / Vigil Mechanism

The Investment Manager has established a whistle blower mechanism for directors, employees, contractors and suppliers of IndiGrid. The whistle blower mechanism is widely circulated for the knowledge of directors, employees, supplies and contractors of IndiGrid.

We further confirm that no personnel has been denied access to the Chairperson of the Audit Committee of Investment Manager.

Conflict of Interest Policy

The Investment Manager has adopted the Conflict of Interest policy to protect India Grid Trust and its affiliates' interests while contemplating entering into any discussion or transaction or arrangement for potential acquisition (directly or indirectly) of power infrastructure assets or businesses that might conflict with or is similar in nature to the transaction or arrangement proposed by Sponsors, shareholders of the Investment Managers or their affiliates.

Policy on Material Subsidiaries

The Investment Manager has adopted a policy on determination of material subsidiaries of India Grid Trust in line with the Listing Regulations. The policy aims to determine the Material Subsidiaries and Material Unlisted Indian Subsidiaries of India Grid Trust and to provide the governance framework for such subsidiaries.

Investor Grievance Redressal Policy

To provide efficient services to the investors and to effectively address and redress the grievances of the investors of India Grid Trust in a timely manner, the board of directors of the Investment Manager has adopted the Investor Grievance Redressal Policy.

Disclosure of Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Pursuant to the requirements of Section 22 of Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 read with Rules thereunder, the Investment Manager has not received any complaint of sexual harassment during the period under review.

The Investment Manager has complied with provisions relating to the constitution of Internal Complaints

Committee under the Sexual Harassment of Women at

Workplace (Prevention, Prohibition and Redressal) Act, 2013.

SEBI Complaints Redressal System (SCORES)

The investor complaints are processed in a centralised web based complaints redress system.

The salient features of this system are centralised database of all complaints, online upload of Action Taken Reports (ATRs) by the concerned companies and online viewing by investors of actions taken on the complaint and its current status.

IndiGrid has been registered on SCORES and Investment Manager makes every effort to resolve all investor complaints received through SCORES or otherwise within the statutory time limit from the receipt of the complaint.

Green initiative

Investment Manager is concerned about the environment and utilises natural resources in a sustainable way.

SEBI InvIT Regulations allows IndiGrid to send official documents to their Unitholders electronically.

In terms of the InvIT Regulations, Investment Manager propose to send documents like the Notice convening the general meetings, Financial Statements, Auditor's Report and other documents to the email address of investors as provided by relevant depositories.

Amendments to Material Contracts

During the period under review, at the time of acquisition of assets and from time to time, IndiGrid has executed (i) Deed of Accession/ Amendment to the Investment Management Agreement (IMA) and Deed of Accession/ Amendment to the Project Implementation and Management Agreement and (ii) Facility Agreements and Amendments thereto.

SIGNIFICANT AND MATERIAL ORDERS

During the period under review, there are no significant and material orders passed by the regulators or courts or tribunals impacting the going concern status and the IndiGrid's operations in future.

There are adequate systems and processes in the IndiGrid commensurate with the size and operations of the IndiGrid to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. During the period under review, no penalty has been imposed by any stock exchange or SEBI, nor has there been any instance of non-compliance with any legal requirements, or on matters having material impact on the operations of IndiGrid.

For the half-year ended September 30, 2023, IndiGrid have complied with the provisions of the Trust Deed, InvIT

Regulations, applicable provisions of LODR and Corporate Governance norms.

Publications

The information required to be disclosed to the stock exchanges (including financial results, press releases and presentations made to the investors) have been duly submitted to the NSE and BSE as well as uploaded on IndiGrid's website.

Postal Ballot

The detail of the previous postal ballots are available on our website, at https://www.indigrid.co.in/investor/agm-egm/.

Communication to the Unitholders

The IndiGrid ensures that the following filings and reports are available on its website:

- The quarterly filings/ reports, as required to be filed under various applicable provisions are posted on our website, at https://www.indigrid.co.in/investor/otherregulatory-filings/
- Quarterly and annual financial statements, standalone and consolidated, are also posted on our website, at https://www.indigrid.co.in/investor/financial-results/
- Audio recordings of Earnings calls with analysts and investors along with their transcripts are also published on the website. The AGM recording, transcripts and results are available on our website, at https://www.indigrid.co.in/investor/agm-egm/.
- The unitholders can also access the details of policies, Board committee charters, Trust Deed, financial information, unitholding information, Distribution history, FAQs, etc. on IndiGrid's website.
- Other information, such as press releases, Trustee Report and presentations made to investors and analysts, etc., is regularly updated on the IndiGrid's website.

Awareness Sessions/ Workshops on Governance practices

IndiGrid as an organisation that strongly supports transparency and openness and believes in zero tolerance for unethical practices. Employees across the Group are regularly sensitised about the various policies and governance practices of IndiGrid through various interactive tools.

Statutory Auditors

S R B C & Co LLP, Chartered Accountants (ICAI Firm Registration No.: 324982E/ E300003), having their office at C - 401, 4th Floor, Panchshil Tech Park, Yerwada

(Near Don Bosco School), Pune, Maharashtra – 411006 have been appointed as the Statutory Auditors of IndiGrid for a second term of five consecutive years from conclusion of 4th Annual General Meeting till the conclusion of 9th Annual General Meeting of the IndiGrid.

Internal Auditors

BDO India LLP (LLP Identification No. AAB-7880) have been appointed as the Internal Auditors of IndiGrid for the financial year 2023-2024.

SUCCESSION PLANNING

The nomination and remuneration committee works with the Board on the leadership succession plan to ensure orderly succession in appointments to the Board and in senior management. The Investment Manager strives to maintain an appropriate balance of skills and experience within the organization and the Board in an endeavour to introduce new perspectives while maintaining experience and continuity. By integrating workforce planning with strategic business planning, the Investment Manager puts the necessary financial and human resources in place so that IndiGrid's objectives can be met.

The Board members bring to the table their broad and diverse skills and viewpoints to aid the Investment Manager in advancing its strategy. In addition, promoting senior management within the organization fuels the ambitions of the talent force to earn future leadership roles.

SELECTION OF DIRECTORS

Considering the requirement of skill sets on the Board, eminent people in their respective field / profession and who can effectively contribute to the IndiGrid's business and policy decisions are considered by the Human Resources, Nomination and Remuneration Committee, for appointment, as a Director on the Board. The Committee inter alia considers qualification, integrity, positive attributes, area of expertise and experience in relevant industry in accordance with the structure designed by Investment Manager for selection of Directors and determining Directors' independence in case of Independent Directors. The Board considers the Committee's recommendation and takes appropriate decision.

Every Independent Director, at the first meeting of the Board in which he / she participates as a Director and thereafter at the first meeting of the Board in every financial year, gives a declaration that he / she meets the criteria of independence as provided under the law and that he / she is not aware of any circumstance or situation, which exist or may be

reasonably anticipated, that could impair or impact his / her ability to discharge his / her duties with an objective independent judgement and without any external influence. In the opinion of the Board, the Independent Directors fulfil the conditions specified in the Companies Act, 2013 and InvIT regulations are independent of the management.

FAMILIARISATION PROGRAMMES FOR BOARD MEMBERS

The Board members are provided with necessary documents/ brochures, reports and internal policies to enable them to familiarise with the IndiGrid's procedures and practices.

Executive director and senior management provide an overview of operations, and familiarize the new non-executive directors on matters related to IndiGrid's values and commitments. They are also introduced to the organization structure, services, Group structure and subsidiaries, constitution, Board procedures, matters reserved for the Board, major risks and risk management strategy.

Periodic presentations are made at the Board and Committee meetings on business and performance updates of the IndiGrid including Finance, M&A, overview of business operations of major subsidiaries, business strategy and risks involved. Detailed presentations or discussions on various aspects of the IndiGrid's business operations are made in separate meetings with Directors from time to time.

EXECUTIVE LEADERSHIP COMPENSATION

Investment Manager's executive compensation programs encourage reward for performance. A significant portion of the executives' total rewards are tied to the delivery of long-term corporate performance goals, in order to align with the interest of the stakeholders.

The nomination and remuneration committee determines and recommends to the Board the compensation payable

to the directors. Remuneration for the executive directors comprises a fixed component and a variable component, including Long Term Incentive Plan. The committee makes a periodic appraisal of the performance of executive directors based on a detailed performance matrix.

INDEPENDENT DIRECTORS' COMPENSATION

The compensation payable to the independent directors is limited to a fixed amount per year as determined and approved by the Board, the sum of which does not exceed 0.4% of the difference between revenue from operations and operating expenses (other than the fee of the Investment Manager) of each Special Purpose Vehicle of IndiGrid, per annum. The unitholders of IndiGrid has approved the aforesaid remuneration limit and the Board reviews the performance of independent directors on an annual basis.

The Board, while deciding the basis for determining the compensation of the independent directors, takes various things into consideration. These includes

- . The attendance of a particular independent director
- The independent director(s) have complied with the code of conduct for independent directors as provided under Schedule IV of the Companies Act, 2013 ("Code of Conduct")
- c. Quality of contributions to the Board deliberations
- d. Strategic perspectives or inputs regarding future growth of Investment Manager, IndiGrid and its performance
- e. Providing perspectives and feedback going beyond information provided by the management
- f. Commitment to unitholders and other Stakeholders interests

 3,08,01,491 Units on preferential basis to the eligible
 allottees for cash at a price of ₹ 131.00 per unit
 aggregating to approximately ₹ 403.50 crores.

 This is to confirm that, during the period under review,
 there was no buy back of units by India Grid Trust.
- Approval of the Board of Directors of the Investment Manager for declassification of the Sterlite Power Transmission Limited as a Sponsor of IndiGrid was received on May 12, 2023 and approval of the unitholders of IndiGrid was received on June 6, 2023 and SEBI approval received vide letter dated July 6, 2023.

SUMMARY OF INDEPENDENT VALUATION

As per Securities and Exchange Board of India (Infrastructure Investment Trust), Regulations, 2014 (InvIT Regulations), IndiGrid is supposed to carry out independent valuation for its assets. Mr. Manish Gadia, Registered Valuer, has carried out yearly financial valuation of BDTCL, JTCL, MTL, RTCL, PKTCL, PTCL, NTL, OGPTL, ENICL, GPTL, JKTPL, PrKTCL, solar assets and NER-II at the enterprise level. Enterprise value is described as the total value of the equity in a business plus the value of its debt and debt related liabilities, minus any cash or cash equivalents to meet those liabilities.

VALUATION APPROACH

All assets, except JKTPL, are projects allotted under Build Own Operate and Maintain (BOOM) Model or Build Own Operate (BOO) Model and operate under PoC mechanism. The independent valuation of BDTCL, JTCL, MTL, RTCL, PKTCL, PTCL, NTL, OGPTL, ENICL, GPTL, JKTPL, PrKTCL, NER-II and Solar assets has been determined by the independent valuer using the discounted cash flow approach on the free cash flows of the assets. Kallam, being an underconstruction project, has been valued using Net Asset Value (NAV) approach.

Valuation Summary

The independent valuation of the assets as of September 30, 2023 is summarized below:

| | September 30, 2023 | | March 31, 2023 | | September 30, 2022 | | March 31, 2022 | | September 30, 2021 | | March 31, 2021 | |

Note

Valuation report of IndiGrid assets as on September 30, 2023 issued by. The valuation report can also be viewed on the Company's websiteandcanbeaccessedviathelink https://www.indigrid.co.in/wp-content/uploads/2023/07/6.IGT-Valuation-Report-Sept-23.pdf

^{*}Only in case of ENICL, independent valuer has considered separate WACC for explicit period and terminal period.
**PrKTCL operates under Cost Plus Mechanism where the period of services is not mentioned in TSA. Independent valuer has considered a total period of 35 years of useful life based on CERC Tariff Regulations, 2019 and based on discussions with the Investment Manager.

^{***}KTL project is currently under development. Hence due to the nascent stage of the project, independent valuer found it appropriate to consider the Net Asset Value method for arriving at the enterprise value of KTL.

UNIT PRICE PERFORMANCE

Units of IndiGrid were listed on June 06, 2017 on BSE and NSE. Unit price inched higher in H1 FY 2023-24, with total volume of trade at approximately 392.12 Million units. This translated to an average daily traded volume of approximately 3.19 Million units during the period. IndiGrid distributed ₹ 7.00 / unit for H1 FY 2023-24.

Summary of Price and volume

NOTES:

- 1 The above unaudited consolidated financial results for the quarter and half year ended September 30, 2023 has been reviewed and approved by the Audit Committee and Board of Directors of Indigrid Investment Managers Limited ('Investment Manager') at its meeting held on November 03, 2023.
- The unaudited consolidated financial results comprises of the Statement of Profit and Loss and explanatory notes thereon of India Grid Trust, for the quarters ended June 30, 2023, quarter and six month ended September 30, 2023, quarter and six month ended September 30, 2022, six month ended and year ended March 31, 2023 ("Interim Financial Information"). The Interim financial Information has been prepared in accordance with recognition and measurement principles laid down in Indian Accounting Standard 34- Interim Financial Reporting (Ind AS 34), as presribed in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, the additional disclosures as required in Chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated July 06, 2023 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars/InvIT Regulations").

The consolidated financial result for six month ended March 31, 2023 are the derived figures between the audited figures in respect of the year ended March 31, 2023 and the published year-todate figures up ot Septembr 30, 2022, being the date of the end of the six months of the previous financial year, which were subject to limited review.

SEBI REGISTRATION NUMBER :IN/INVIT/16-17/0005 UNAUDITED CONSOLIDATED FINANCIAL RESULTS FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

- 3 Revenue and corresponding expenses included in the standalone financial results for various periods may not be comparable on account of acquisitions done by the Trust during the respective periods as mentioned below
 - i. On August 25, 2023, India Grid Trust ("IndiGrid" or "the Trust") completed the acquisition of 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') for a purchase consideration of INR 38,544 Million. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of September 08, 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets / liabilities of IndiGrid, with effect from the date of acquisition.

These SPVs have long term Power Purchase Agreements (PPAs) with various state electricity distribution companies, and is in the business of generating renewable power."

As a part of the above deal, Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) has also been acquired at a enterprise value of INR 184.71 Million on 08 September 2023 and will be merged with the Project Manager of IndiGrid as a pre-condition to the acquisition of VRET from regulators. Till the time the merger take effect the same are treated as separate SPV of the IndiGrid.

IndiGrid has accounted for the above acquisition as a business combination in accordance with "Ind AS 103 - Business Combination" and allocated the purchase consideration on a provisional basis, pending final determination of fair value of the acquired assets and liabilities.

Necessary approvals have been taken by IndiGrid to give effect to the above acquisition."

- ii. In December 2022 quarter, the Trust acquired equity capital and management control of Raichur Sholapur Transmission Company Private Limited ('RSTCPL') from Simplex Infrastructure Limited, Patel Engineering Limited and BS Limited dated pursuant to Share Purchase Agreement dated July 30, 2022 ("SPA") (100% equity stake was acquired during Q3 FY 23)
- iii. In March 2023 quarter, the Trust acquired equity capital and management control of Khargone Transmission Limited ('KhTL') from Sterlite Power Transmission Limited (SPTL) dated pursuant to Share Purchase Agreement dated January 21, 2023 ("SPA"), 49% equity stake is acquired during Q4 FY 23 and a binding agreement is entered with SPTL for acquiring balance 51% shares. Considering the rights available to the Trust as per SPA, the Trust has concluded that it controls KhTL, and have considered KhTL as a wholly owned subsidiary from March 02, 2023.
- 4 Parbati Koldam Transmission Company Limited (PrKTCL), a subsidiary company, had filed a tariff petition with Central Electricity Regulatory Commission("CERC") during the FY 2021-22. Such tariff petition had been filed by PrKTCL for true up of the revenue for the financial years 2014-2015 to 2018-2019 and for determining the tariffs for the financial years 2019-2020 to 2023-2024 which is yet to be disposed off by CERC. Accordingly, revenue for the quarter and half year ended September 30, 2023 amounting to INR 340.89 Million (September 30, 2022 INR 352.41 Million) and INR 688.72 Million (September 30, 2022 INR 698.90 Million) has been recognised based on tariff petition filed by PrKTCL.
- The provision for impairment/(reversal) of impairment of property plant equipment and service concession is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Group tests impairment on the amounts invested in the respective subsidiary companies. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions. As per the valuation workings made for the quarter and half year ended September 30, 2023, no impairment provision is reversed by the Group.
- Pursuant to the Investment Management Agreement dated August 25, 2023 as amended, Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager. Further, during the current period, on the basis of approvals obtained from the board of directors and audit committee in a meeting dated May 12, 2023 and unitholders in the extraordinary general meeting dated June 06, 2023, the investment management agreement is revised to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly, acquisition fee amounting to INR 341.00 Million (INR 237.75 Million during the current quarter) has been provided in the books to the investment manager during the half year ended September 30, 2023 for new acquisitions done during this period."
- Pursuant to the Project Implementation and Management Agreement dated June 30, 2021 as amended, Project Manager is entitled to fees @ 7% of gross expenditure incurred by each SPV (other than Jhajjar KT Transco Private Limited ('JKTPL') to which project manager fees is charged @ INR 80.5 Million per annum subject to 5% escalation every year) in relation to operation and maintenance costs per annum. The fees is paid by SPV's to IGL which gets eliminated at consolidation. There are no changes in the methodology of computation of fees paid to project manager.

UNAUDITED CONSOLIDATED FINANCIAL RESULTS
FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

- The Board of Directors of the Investment Manager approved a distribution of INR 3.55 per unit for the period July 01, 2023 to September 30, 2023 to be paid on or before 15 days from the date of declaration.
- 9 The activities of the IndiGrid Group includes owning, operating, and managing power transmission networks and solar assets. Given the nature of the Group's diversified operations and in accordance with the guidelines set forth in Ind AS 108 ""Operating Segments,"" management has identified two distinct reportable business segments as ""Power Transmission segment" and ""Power generation segment". Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM).

Following are the details of segment wise revenue, results, segment assets and segment liabilities

FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

Notes:

- 1. The Trust acquired VRET on August 25, 2023 and as per regulatory approval the Trust has filed for the disloution of VRET. The effective date of disolution is September 08, 2023. Accordingly the NDCF with respect to VRET for the period of acquisition till the date of disolution is considered for the purpose of calulation of NDCF for the quarter ended September 30, 2023.
- 2. TSETPL and TSESPL has not made any distributions during the current quarter, as the SPVs has not satisfied the dividend distribution requirements under its distribution policy approved by Board of Directors and in accordance with the relevant legal requirements applicable to the SPV. Accordingly IGT has also not considered distribution under its distribution policy approved by Board of Directors of the Investment Manager.

| - | income tax demand (refer note D below) | 98.83 | - | - | - |
| Tot | al | 877.44 | 782.21 | 862.46 | 782.21 |

A 1. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. Out of the total demand INR 138.75 Million September 30, 2022: INR 138.75 Million, June 30, 2023: INR 138.75 Million, March 31, 2023: INR 138.75 Million) pertains to Jabalpur Transmission Company Limited ('JTCL'), INR 165.80 Million (September 30, 2022: INR 165.80 Million; June 30, 2023: INR 165.80 Million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') and INR 13.30 Million; June 30, 2022: INR 13.30 Million; March 31, 2023: INR 13.30 Million) pertains to RAPP Transmission Company Limited ('RTCL') which is pending with High Court, Jabalpur.

SEBI REGISTRATION NUMBER :IN/INVIT/16-17/0005
UNAUDITED CONSOLIDATED FINANCIAL RESULTS
FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

- 2. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. The total demand INR 1.33 Million (September 30, 2022: INR 1.33 Million; June 30, 2023: INR 1.33 Million,; June 30, 2023: INR 1.33 Million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') which is pending with Commissioner (Appeals).
- 3. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Chhattisgarh. The total demand INR 113.41 Million (September 30, 2022: INR 113.41 Million; June 30, 2023: INR 113.41 Million; March 31, 2023: INR 113.41 Million) pertains to Jabalpur Transmission Company Limited ('JTCL') out of which INR 51.55 Million (September 30, 2022: INR 51.55 Million; June 30, 2023: INR 51.55 Million; March 31, 2023: INR 51.55 Million) is pending with the Chhattisgarh High Court, INR 40.50 Million (September 30, 2022: INR 40.50 Million; June 31, 2023: INR 40.50 Million; March 31, 2023: INR 40.50 Million) is pending with Chairman Chhattisgarh Commercial tax Tribunal, Raipur (C.G.) and INR 21.36 Million (September 30, 2022: INR 21.36 Million; June 30, 2023: INR 21.36 Million; March 31, 2023: INR 21.36 Million) the notice for assessment has been received in the month of October 2020 for which the Group has applied for a certified copy of the Assessment Order on October 29, 2020 and is still awaiting a copy of the same.
- B 1. Sales tax demand of INR 17.99 Million (September 30, 2022: INR 17.99 Million; June 30, 2023: INR 17.99 Million; March 31, 2023: INR 17.99 Million) for Indigrid Limited (IGL) pertains to demand under Delhi VAT Act, 2004 for non-submission of C Forms for FY 2015-16. The Group has filed an objection against the order with Assistant Commissioner of Delhi VAT Authorities.
 - 2. VAT demand notice of INR 2.10 Million (September 30, 2022: INR 5.70 Million; June 30, 2023: INR 5.70 Million; March 31, 2023: INR 5.70 Million) for Purulia & Kharagpur Transmission Company Limited (PKTCL) pertains to Jharkhand VAT Act, 2005. The Group has received the notice for assessment in the month of January 2020 and various submissions along with the requisite details and documents were made to the officer. The Group further applied for a certified copy of the Assessment Order on October 01, 2020 and is still awaiting a copy of the same.
 - During the period ended September 30, 2023, VAT demand of INR 3.60 Million has been settled under the amnesty scheme of Jharkand Government and the same has been indemnified by seller of PKTCL.
- C During the financial year 2019-20, land owners have filed a case with the District Court, Jhajjar, Haryana towards compensation and interest thereon for the value of land over which the transmission line is passing. The Group is of the view that required amount of compensation to these landowners have already been paid and no further compensation is payable. Further, these litigations are barred by limitations. Based on the legal advice, the Group does not anticipate any liability against the same and has disclosed a contingent liability of INR NIL (September 30, 2022: INR 20.12 Million; June 30, 2023: INR Nil Million). It also includes an amount of INR 113.27 Million (September 30, 2022: INR 173.39 Million; June 30, 2023: INR 113.27 Million; March 31, 2023: INR 113.27 Million) for claims from farmers for additional Right of Way (RoW) compensation made against one of the subsidiaries. Further it includes an amount of INR 212.66 Million (September 30, 2022: 212.67 Million; June 30, 2023: 212.66 Million; March 31, 2023: 212.66 Million) for claims from one of the erstwhile EPC contract vendor against two of the subsidiaries.
- **D** The income tax demand of INR 98.83 Million pertains new entites acquired during the current quarter and the same is recoverable as per Share purchase agreement.

Others

The total contingent liability (except ROW and GST claim against ISPL 1 and ISPL 2) is recoverable as per share purchase agreement from Selling Shareholders.

D) Statement of Commitments

- (a) The Group has entered into transmission services agreement (TSA) with long term transmission customers pursuant to which the Group has to transmit power of contracted capacity and ensure minimum availability of transmission line over the period of the TSA. The TSA contains provision for disincentives and penalties in case of certain defaults.
- (b) The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years.
- (c) The Group has entered into Power Purchase Agreement ('PPA') with various DISCOM's for solar entities, where the respective solar entity is required to sell power at a pre-fixed tariff rates agreed as per PPA for an agreed period.

SEBI REGISTRATION NUMBER :IN/INVIT/16-17/0005
UNAUDITED CONSOLIDATED FINANCIAL RESULTS
FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

- (d) The Group has entered into an Implementation and Support Agreement with Andhra Pradesh Solar Power Corporation Private Limited (APSPCL). Annual O&M charges are payable for the period of 25 years from the commercial operation date to APSPCL.
- (e) The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited.

E) Statement of Earnings per unit (EPU):

Basic EPU amounts are calculated by dividing the profit for the period/year attributable to Unit holders by the weighted average number of units outstanding during the period/year.

Diluted EPU amounts are calculated by dividing the profit attributable to unit holders by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital. The Group does not have any potentially dilutive units which would be added to Unit Capital

The following reflects the profit and unit data used in the basic and diluted EPU computation:

| Description | Quarter | Quarter | Quarter | Six months | Six months | Six months | Year ended |
|--|-------------|-------------|-------------|-------------|-------------|-------------|------------|

F) Statement of Related Party Transactions:

I. List of related parties as per the requirements of Ind-AS 24 - Related Party Disclosures

(a) Entity with significant influence over the Trust

Esoteric II Pte. Limited - Inducted Sponsor of IndiGrid (EPL)

Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef July 06, 2023) Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

II. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid

Esoteric II Pte. Limited - Inducted Sponsor of IndiGrid (EPL)

Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef July 06, 2023)

Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Limited is Promoter)

SEBI REGISTRATION NUMBER: IN/INVIT/16-17/0005
UNAUDITED CONSOLIDATED FINANCIAL RESULTS
FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

(b) Promoters of the parties to IndiGrid specified in (a) above

KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL

Electron IM Pte. Limited - Promoter of IIML (Parent with 100% holding of IIML)

Twin Star Overseas Limited - Promoter of SPTL

Axis Bank Limited - Promoter of ATSL

Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Directors of the parties to IndiGrid specified in (a) above

(i) Directors of IIML:

Harsh Shah (CEO & Whole-time director) (till June 30, 2022 and re-joined from August 30, 2022)

Jyoti Kumar Agarwal (CFO) (till June 30, 2022) and (CEO & Whole-time director) (from July 01, 2022 till September 30, 2022)

Tarun Kataria

Rahul Asthana (till 25 December 2022)

Ashok Sethi

Hardik Shah

Jayashree Vaidhyanthan

Ami Momaya (from January 27, 2022)

(ii) Directors of SPTL (till July 06, 2023):

Pravin Agarwal

Pratik Agarwal

A. R. Narayanaswamy

Anoop Seth

Manish Agarwal

Kamaljeet Kaur (from 29 June 2022)

(iii) Key Managerial Personnel ("KMP") of IIML:

Harsh Shah (CEO & Whole-time director) (till June 30, 2022 and re-joined from August 30, 2022)

Navin Sharma (CFO) (from April 19, 2023)

Urmil Shah (Company Secretary) (from August 01, 2022)

Jyoti Kumar Agarwal (CFO) (till June 30, 2022) and (CEO & Whole-time director) (from July 01, 2022 till September 30, 2022)

Divya Bedi Verma (CFO) (from July 01, 2022 till February 15, 2023)

Swapnil Patil (Company Secretary) (till July 31, 2022)

(iv) Directors of ATSL:

Rajesh Kumar Dahiya

Ganesh Sankaran

Deepa Rath

SEBI REGISTRATION NUMBER :IN/INVIT/16-17/0005 UNAUDITED CONSOLIDATED FINANCIAL RESULTS FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

(v) Directors of Esoteric II Pte. Limited:

Tang Jin Rong

Madhura Narawane

(vi) Relative of directors mentioned above:

Sonakshi Agarwal

Sujata Asthana (till 25 December 2022)

(vii) Directors / KMP of Subsidiary:

Mehgana Pandit

Satish Talmale

Kundan Kishore

(viii) Relative of sponsor mentioned above:

Terra Asia Holdings II Pte. Limited ("Terra")*

*In accordance with Regulation 2(1)(zv) of the InvIT Regulations, the seller of the units of VRET being Terra Asia Holdings II Pte. Limited ("Terra"), is controlled and/or managed and/or advised, solely by Kohlberg Kravis Roberts & Co. L.P., or by its affiliates (together, the "KKR Group"), along with one of our sponsors, and is a related party of IndiGrid.

NOTES:

- The above standalone financial results for the quarter and half year ended 30 Setember 2023 has been reviewed and approved by the Board of Directors and Audit Committee of Indigrid Investment Managers Limited ('Investment Manager') at its meeting held on 03 November 2023.
- The unaudited standalone financial results comprises of the Statement of Profit and Loss and explanatory notes thereon of India Grid Trust, for the quarters ended June 30, 2023, quarter and six month ended September 30, 2023, quarter and six month ended September 30, 2022, six month ended and year ended March 31, 2023 ("Interim Financial Information"). The Interim financial Information has been prepared in accordance with recognition and measurement principles laid down in Indian Accounting Standard 34- Interim Financial Reporting (Ind AS 34), as presribed in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, the additional disclosures as required in Chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars/InvIT Regulations")

The standalone financial result for six month ended March 31, 2023 are the derived figures between the audited figures in respect of the year ended March 31, 2023 and the published year-todate figures up to September 30, 2022, being the date of the end of the six months of the previous financial year, which were subject to limited review.

- 3) Revenue and corresponding expenses included in the standalone financial results for various periods may not be comparable on account of acquisitions done by the Trust during the respective periods as mentioned below
 - i. OnAugust25,2023,IndiaGridTrust("IndiGrid" or "theTrust") completed the acquisition of 100% units in Virescent Renewable Energy Trust ('UnitAcquisition' in 'VRET') for a purchase consideration of INR 38,544 Million. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of September 08, 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets / liabilities of IndiGrid, with effect from the date of acquisition. These SPVs have long term Power Purchase Agreements (PPAs) with various state electricity distribution companies and is in the business of generating renewable power."

As a part of the above deal, Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) has also been acquired at a enterprise value of INR 184.71 Million on September 08, 2023 and will be merged with the Project Manager of IndiGrid as a pre-condition to

SEBI REGISTRATION NUMBER: IN INVIT/16-17/0005

UNAUDITED STANDALONE FINANCIAL RESULTS FOR THE HALF YEAR AND QUARTER ENDED SEPTEMBER 30, 2023 (Contd.)

the acquisition of VRET from regulators. Till the time the merger take effect the same are treated as separate SPV of the IndiGrid. Necessary approvals have been taken by IndiGrid to give effect to the above acquisition."

- ii. In December 2022 quarter, the Trust acquired equity capital and management control of Raichur Sholapur Transmission Company Private Limited ('RSTCPL') from Simplex Infrastructure Limited, Patel Engineering Limited and BS Limited dated pursuant to Share Purchase Agreement dated 30 July 2022 ("SPA") (100% equity stake was acquired during Q3 FY 23)
- iii. In March 2023 quarter, the Trust acquired equity capital and management control of Khargone Transmission Limited ('KhTL') from Sterlite Power Transmission Limited (SPTL) dated pursuant to Share Purchase Agreement dated January 21, 2023 ("SPA"), 49% equity stake is acquired during Q4 FY 23 and a binding agreement is entered with SPTL for acquiring balance 51% shares. Considering the rights available to the Trust as per SPA, the Trust has concluded that it controls KhTL, and have considered KhTL as a wholly owned subsidiary from March 02, 2023.
- 4) Formulae for computation of ratios are as follows:
 - (a) Paid up debt capital = Total borrowings as on reporting date
 - (b) Debt equity ratio = Total borrowings / (Unitholders' Equity+Retained Earnings)
 - (c) Debt Service Coverage Ratio= Earnings before Interest and Tax* / (Interest Expense + Principal Repayments made during the period/year)**
 - (d) Interest Service Coverage Ratio= Earnings before Interest and Tax*/ Interest Expense
 - (e) Asset cover ratio = (Total investments in subsidiaries + Loan to subsidiaries) / Liability in respect of Secured Non-convertible debentures at amortised cost under Ind-AS as at balance sheet date and Secured market linked debentures.
 - (f) Net Worth = Unit Capital + Retained Earnings
 - *Earnings before Interest and Tax excludes impairment/(reversal) of impairment of investments or loans to subsidiaries and finance income on Non-Convertible Debentures ('NCD') issued by subsidiary on effective interest rate basis.
 - ** Principal repayments made out of refinancing of loans are not considered for the purpose of this ratio.

5) Details of non-convertible debentures are as follows:

| Particulars | Secured/ | Previous | Due Date | Next Due Date | | |

- (iii) Pledge over share capital of specified SPVs.
- (b) Trust has repaid entire amount of non convertible debt securities carrying interest rate of 8.40% during the period.
- 6) The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 26 October 2023, "ICRA AAA/Stable" from ICRA on 16 October 2023 and "IND AAA/Stable" from India Ratings on 14 August 2023.
- 7) Revenue from operations comprise of interest income on NCDs/loans to subsidiaries and includes interest income accounted under EIR method as per Ind AS 109 for 0.01% Non Convertible Debentures (NCD) issued by Indigrid Limited (wholly owned subsidiary of IndiGrid) which is the difference between market rate of interest and rate of interest on the NCD.
- 8) Pursuant to the Investment Management Agreement dated June 13, 2023 (as amended), Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager.
 - Further, during the current period, on the basis of approvals obtained from the board of directors and audit committee in a meeting dated May 12, 2023 and unitholders in the extraordinary general meeting dated June 06, 2023, the investment management agreement is revised to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly acquisition fee amounting to INR 341.00 Million (INR 237.75 Million during the current quarter) has been provided in the books to the investment manager during the six month ended September 30, 2023."
- 9) The provision for impairment of investments in subsidiaries is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Trust tests impairment on the amounts invested in the respective subsidiary companies. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions etc.
- 10) The Board of Directors of the Investment Manager approved a distribution of INR 3.55 per unit for the period 01 July 2023 to September 30, 2023 to be paid on or before 15 days from the date of declaration.

The Trust acquired VRET on August 25, 2023 and as per regulatory approval the Trust has filed for the disloution of VRET. The effective date of disolution is September 08, 2023. Accordingly the NDCF with respect to VRET for the period of acquisition till the date of disolution is considered for the purpose of calulation of NDCF for the quarter and six month ended September 30, 2023.

B.1) Statement of Commitments

The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited. Cost of the acquisition will be finalised on the date of acquisition.

B.2) Statement of Contingent Liabilities:

The Trust has no contingent liabilities as on September 30, 2023 (as on September 30, 2022: Nil, as on June 30, 2023: Nil and as on March 31, 2023: Nil).

C) Statement of Earnings per unit (EPU):

Basic EPU amounts are calculated by dividing the profit for the period/year attributable to Unit holders by the weighted average number of units outstanding during the period/year.

Diluted EPU amounts are calculated by dividing the profit attributable to unit holders by the weighted average number of units outstanding during the year/period plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital. The Trust does not have any potentially dilutive units which would be added to Unit Capital

The following reflects the profit and unit data used in the basic and diluted EPU computation:

<u>Sub: Independent Fair Enterprise Valuation of the Project SPVs of India Grid Trust as of 30th September 2023 in accordance with the SEBI InvIT Regulations (as amended)</u>

Dear Sir(s)/ Madam(s),

I, Manish Gadia ("Registered Valuer" or "RV") has been appointed by IndiGrid Investment Managers Limited ("the Investment Manager" or "IIML"), acting as the investment manager for India Grid Trust ("the Trust") and Axis Trustee Services Limited ("the Trustee") acting as the trustee for the Trust via engagement letter dated 27th September 2023 as an independent valuer. I enclose my valuation report regarding the fair enterprise value of the Project SPVs of the Trust as on 30th September 2023 ("Valuation Date") in accordance with the requirements of the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended ("the SEBI InvIT Regulations").

The Investment Manager and the Trustee intends to undertake the fair enterprise valuation of the Project SPVs of the Trust as on 30th September 2023 for incorporating any key changes in the quarter ended 30th September 2023. In this connection I have been appointed by Board of Directors of the Investment Manager on 28th June 2023. Accordingly, I am pleased to enclose the Valuation Report ("Report") providing my opinion on the fair enterprise valuation of the Project SPVs as on 30th September 2023.

I have relied on explanations and information provided by the Investment Manager. Although, I have reviewed such data for consistency, but have not carried out audit of such information.

In terms of the SEBI InvIT Regulation, I hereby confirm and declare that:

- 1. I am competent to undertake this valuation in terms of SEBI InvIT Regulations;
- 2. We further confirm that I am independent in terms of the SEBI InvIT Regulations and that this report has been prepared on a fair and unbiased basis in compliance with Regulation 13(1) and Regulation 21 of the SEBI InvIT Regulations;
- 3. I have an experience of more than 5 years for valuation of infrastructure assets.

My team and I have no present or planned future interest in the Trust, the SPVs or the Investment Manager, except to the extent of this appointment as an independent valuer and the fee for this Valuation Report ("Report") which is not contingent upon the values reported herein. The valuation analysis should not be construed as investment advice, specifically, I do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Trust.

The Trust owns the following special purpose vehicles:

I. <u>Transmission Assets:</u>

| Sr. No. | Name of the SPVs | Abbreviation | Category | |

^{*}Refers to assets/SPVs added in the portfolio on account of Acquisition of Virescent Renewable Energy Trust (VRET Assets) w.e.f August 2023

(Hereinafter all the above 33 SPVs are together referred to as the "Project SPVs" or the "SPVs")

I am enclosing the Report providing opinion on the fair enterprise value of the Project SPVs on a going concern basis as at 30th September 2023 ("Valuation Date"). The attached Report details the valuation methodologies used, calculations performed and the conclusion reached with respect to this valuation.

I believe that the analysis must be considered as a whole. Selecting portions of any analysis or the factors that are considered in this Report, without considering all factors and analysis together could create a misleading view of the process underlying the valuation conclusions. The preparation of a valuation is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis.

The valuation methodologies and approaches adopted by me are widely recognised and used. They are in compliance with Valuation standards issued by The Institute of Chartered Accountants of India and International Valuation Standards issued by International Valuation Standards Council (IVSC) and are accepted across India and internationally.

The valuation provided by RV and the valuation conclusions are included herein and the Report complies with the SEBI InvIT Regulations and guidelines, circular or notification issued by the Securities and Exchange Board of India ("SEBI") thereunder.

The Report must be read in conjunction with the caveats to the Report, which are contained in Section 8 of this Report. This letter, the Report and the summary of valuation included herein can be provided to Trust's advisors and may be made available for the inspection to the public as a material document and with the SEBI, the stock exchanges and any other regulatory and supervisory authority, as may be required.

This letter should be read in conjunction with the attached Report.

Yours faithfully

Brief Background and Purpose

India Grid Trust:

India Grid Trust ("IndiGrid" or "Trust") was set up on 21^{st} October 2016, as an irrevocable trust pursuant to the trust deed under the provisions of the Indian Trusts Act, 1882, and was registered with SEBI as an InvIT on 28th November 2016, under Regulation 3(1) of the InvIT Regulations.

India Grid Trust ("IndiGrid") is India's first infrastructure investment trust ("InvIT") in the power sector. It owns and acquires power transmission assets (overhead transmission lines and substations) & solar assets. Today, it owns 17 power transmission projects with transmission lines of more than 8,468 ckms, 13 substations with 17,550 MVA transformation capacity, and 18 solar generation projects with 676 MW DC of solar generation capacity. Each of the Portfolio Assets is located in strategically important areas for electricity transmission connectivity, delivering power from generating centers to load centers to meet inter-regional power deficits.

The units of the Trust are listed on the National Stock Exchange of India Limited and BSE Limited since 6th September 2017.

Unit holding pattern of the Trust as on 30th September 2023 is as follows:

| Particulars | No. of Units | % |
|---------------------------------|--------------|--------|
| Esoteric II Pte. Ltd (Sponsor) | 16,59,01,932 | 22.70% |
| Insurance Companies | 4,52,22,809 | 6.19% |
| Mutual Funds | 9,30,912 | 0.13% |
| Financial Institutions or Banks | 5,39,477 | 0.07% |
| Provident or pension funds | 18,92,124 | 0.26% |
| Alternative Investment Fund | 9,27,704 | 0.13% |
| Foreign Portfolio Investors | 20,04,33,309 | 27.42% |
| Non-institutional investors | 31,51,31,709 | 43.11% |
| Total | 73,09,79,976 | 100% |

Sponsors:

The Trust is currently sponsored by Esoteric II Pte. Ltd., an affiliate of KKR & Co. Inc. ("Esoteric"). IndiGrid was originally sponsored by Sterlite Power Grid Venture Limited (now merged with Sterlite Power Transmission Limited) as an irrevocable trust pursuant to the Trust Deed, under the provisions of the Indian Trusts Act, 1882.

SEBI has granted its approval for de-classification of Sterlite Power Transmission Limited (SPTL) as a Sponsor of India Grid Trust ("IndiGrid") vide its letter dated July 6, 2023. Accordingly, SPTL will be declassified as a Sponsor of IndiGrid with effect from July 6, 2023.

In the annual meeting of Trust held on 28th September 2020, the unitholders approved induction of EsotericII Pte. Ltd., an affiliate of KKR & Co. Inc. ("Esoteric"), as a sponsor.

Esoteric is an affiliate of KKR & Co. Inc. KKR & Co. Inc. was founded in 1976 and is a leading global investment firm. KKR & Co. Inc. sponsors investment funds that invest in multiple alternative asset classes, including private equity, credit and real assets, with strategic partners that manage hedge funds.

Shareholding Pattern of Sponsor as on 30th September 2023:

| Sr. No. | Name of Shareholder | % |
|---------|---------------------------|--------|
| 1 | Esoteric I Pte. Limited | 36.5% |
| 2 | KKR Ingrid Co-invest L.P. | 60.6% |
| 3 | KKR PIP Investments L.P. | 2.9% |
| | Total | 100.0% |

The Investment Manager:

IndiGrid Investment Managers Limited (formerly known as Sterlite Investment Managers Limited) ("the Investment Manager" or "IIML") has been appointed as the investment manager to the Trust by Axis Trustee Services Limited ("the Trustee") and is responsible to carry out the duties of such a person as mentioned under SEBI InvIT Regulations.

Shareholding of the Investment Manager as on 30^{th} September 2023 is as under:

| Sr. No. | Name of Shareholder | % |
|---------|--|--------|
| 1 | Electron IM Pte. Ltd. (KKR affiliate entity) | 100.0% |
| | Total | 100.0% |

Engagement Overview

As per Regulation 21(5) of Chapter V of the SEBI InvIT Regulations:

"A half yearly valuation of the assets of the InvIT shall be conducted by the valuer for the half-year ending September 30th for a publicly offered InvIT for incorporating any key changes in the previous six months and such half yearly valuation report shall be prepared within one month from the date of end of such half year.

Provided that in case the consolidated borrowings and deferred payments of an InvIT, in terms of Regulation 20, is above forty nine per cent of the value of InvIT assets, the valuation of the assets of such InvIT shall be conducted by the valuer for quarter ending June, September and December, for incorporating any key changes in the previous quarter and such quarterly report shall be prepared within one month from the date of the end of such quarter."

In this regard, the Investment Manager and the Trustee have appointed Mr. Manish Gadia ("Registered Valuer" or "RV") bearing IBBI registration number IBBI/RV/06/2019/11646 to undertake the fair valuation at the enterprise level of the SPVs as per the SEBI InvIT Regulations as at 30th September 2023. Enterprise Value ("**EV**") is described as the total value of the equity in a business plus the value of its debt and debt related liabilities, minus any cash and cash equivalents to meet those liabilities.

Registered Valuer declares that:

- i. The RV is competent to undertake the financial valuation in terms of the SEBI InvIT Regulations;
- ii. The RV is independent and has prepared the Valuation Report ("the Report") on a fair and unbiased basis.
- iii. I have estimated the Enterprise Value of each of the Project SPVs based on the valuation standards as specified under regulation 21 of SEBI InvIT regulations.

The Valuation Date considered for the Enterprise Valuation of the SPVs is 30th September 2023. Valuation analysisand results are specific to the valuation date.

A valuation of this nature involves consideration of various factors including the financial position of the Specified SPVs as at the Valuation Date, trends in the equity stock market and fixed income security market, macro-economic and industry trends, etc.

The Valuation Report ("Report") covers all the disclosures required as per the SEBI InvIT Regulations and the valuation of the SPVs is impartial, true and fair and in compliance with the SEBI InvIT Regulations. On 28th July 2023, I had issued a Valauation report of the SPVs of the Trust with Valuation Date of 30th June 2023 to incorporate the key changes from March 2023 to June 2023. This Report incorporates the key changes occurred since the previous quarter of 30th June 2023 till 30th September 2023 including the completion of the acquisition of the SPVs of Virescent Renewable Energy Trust ("VRET") on 25th August 2023.

Key Changes in the Current Quarter Ended 30th September 2023

Completion of Acquisition of VRET and its Assets:

India Grid Trust had passed a resolution in Board meeting dated May 12, 2023 for acquisition of 100% of the units of Virescent Renewable Energy Trust which was subsequently approved by unitholders in extra Ordinary General Meeting dated June 06, 2023.

IGT has acquired 100% units of VRET as from Terra Asia Holdings II Pte. Ltd. an affiliate of KKR & Co. and other unit-holders of VRET for a purchase consideration of INR 22,994.4 Mn on 25th of August 2023 as represented by the management.

Acquisition results in adding 16 operating solar projects and 1 Transmission asset held by 15 SPVs with a capacity of 538 DC MW.

The addition of the solar projects to the existing IndiGrid portfolio will result in Indi Grid's Assets under Management (AUM) being approximately INR 270 billion and overall solar capacity to 676 MW comprising approximately 17% of its AUM.

The details of the assets acquired by India Grid Trust from VRET, directly or indirectly, are provided below

| Sr. No. | Name of SPV | Project Name | DC Capacity | | |
|---------|---|-----------------|----------------|--|--|
| 1 | TN Solar Power Energy Private Limited | TNSEPL | 27.6 | | |
| 2 | Universal Mine Developers & Service Providers Private Limited | UMD | 30.0 | | |
| 3 | Terralight Kanji Solar Private Limited* | TL Kanji | 48.4 | | |
| 4 | Terralight Rajapalayam Solar Private Limited | TL Raj | 54.0 | | |
| 5 | Solar Edge Power and Energy Pvt Ltd | Solar Edge | 169.0 | | |
| 6 | Terralight Solar Energy Charanka Private Limited | TL Charanka | 15.0 | | |
| 7 | Terralight Solar Energy Tinwari Private Limited TL Tinwari | | | | |
| 8 | PLG Photovoltaic Private Limited | PLG | 20.0 | | |
| 9 | Universal Saur Urja Private Limited** | USUPL | 62.9 | | |
| 10 | Globus Steel and Power Private Limited | Globus | 23.6 | | |
| 11 | Terralight Solar Energy Patlasi Private Limited | TL Patlasi | 22.1 | | |
| 12 | Terralight Solar Energy Nangla Private Limited | TL Nangla | 4.2 | | |
| 13 | Terralight Solar Energy Gadna Private Limited TL Gadna | | | | |
| 14 | Godawari Green Energy Limited GGEL | | | | |
| 15 | Terralight Solar Energy Sitamauss Private Limited*** | TL SitamauSS | S NA | | |

^{*}Consists of 2 projects namely Project I: TKSPL and Project II: Lalitpur

IGT has acquired control of VRET via Acquisition resulting in addition of 16 operating solar projects (14 SPVs) and 1 Transmission asset held by 15 SPVs with a capacity of 538 MW w.e.f 25^{th} August 2023 (hereinafter referred to as the VRET Assets). Accordingly, I have undertaken valuation of all the SPVs including the VRET Assets as at 30^{th} September 2023. The details in relation to valuation of VRET assets are summarized in Section 9 appendices of this Report in relation to VRET Assets.

^{**}Consists of 2 projects namely Project I: USUPL and Project II: Jodhpur

^{***} TL SitamauSS is engaged in the business of providing transmission and step-up services to its shareholders. TL SitamauSS provides services to 4 SPVs. Among these SPVs, two are owned by VRET (Globus and TL Patlasi), while the other two are owned by Brookfield (Focal Photovoltaic India Private Limited and Focal Renewable Energy Two Private Limited).

Section 2: Valuation Analysis

Valuation Analysis

All the SPVs have been valued using Discounted Cash Flow ("DCF") Method except for KLMTL & TL SitamauSS where Net Asset Value approach is used.

I have relied on the provisional Financial Statements as on 30^{th} September 2023 and financial projections of the SPVs provided by the investment manager for arriving at fair enterprise value.

Based on the methodology and assumptions discussed further, I have arrived at the following fair Enterprise Value of the SPVs as on the Valuation Date:

I. Transmission Asset

| Sr No. | SPVs | Projection Period (Balance TSA Period) | CKm | WACC | Fair EV (INR Mn) | | |
|------------------|---|---|-----|--------------------|---------------------|--|--|

III. Fair enterprise Value

| Particulars | Fair EV (INR Mn) |
|--|---------------------|
| Total Fair Enterprise Value of Transmission Assets (A) | 2,22,110 |
| Total Fair Enterprise Value of Solar Assets (B) | 46,702 |
| Total Fair Enterprise Value of SPVs (A+B) | 2,68,812 |

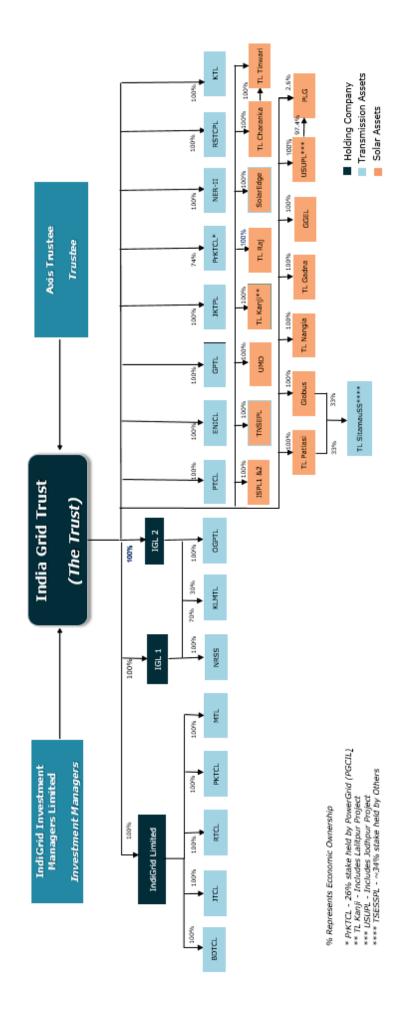

Notes:

- 1. In case of ENICL, I have considered separate WACC for explicit period and terminal period.
- 2. KLMTL project is currently under construction. Hence due to a nascent stage of the project, I find it appropriate to consider the Net Asset Value method for arriving at the enterprise value of KLMTL.
- 3. PrKTCL operates under Cost Plus Mechanism where the period of services is not mentioned in TSA. I have considered a total period of 35 years of useful life based on CERC Tariff Regulations, 2019 and based on discussions with the Investment Manager.
- 4. TL SitamauSS is engaged in the business of providing transmission and step-up services to its shareholders. TL SitamauSS provides services to 4 SPVs. Among these SPVs, two are owned by VRET (Globus and TL Patlasi), while the other two are owned by Brookfield (Focal Photovoltaic India Private Limited and Focal Renewable Energy Two Private Limited). TL SitamauSS is currently utilised for captive consumption and in absence of any specific projections, I have considered NAV method for the purpose of valuation of this SPV.

1. Bhopal Dhule Transmission Company Limited ("BDTCL")

The BDTCL project was awarded to IndiGrid Limited (formerly known as Sterlite Grid 1 Limited) by the Ministry of Power on 31st January 2011 for a 35 year period from the scheduled commercial operation date on a BOOM basis. The expiry date of TSA shall be the date which is 35 years from the Scheduled Commercial Operation Date ("SCOD") of the project.

BDTCL operates six extra high voltage overhead transmission lines of 943 Ckms comprising four 765 kV single circuit lines of 890 Ckms and two 400 kV dual circuit lines of 53 Ckms. The single circuit lines comprise a 259 ckms line from Jabalpur to Bhopal in Madhya Pradesh, a 176 Ckms line from Bhopal to Indore in Madhya Pradesh, a 192 Ckms line from Aurangabad to Dhule in Maharashtra and a 263 Ckms line from Dhule (Maharashtra) to Vadodara (Gujarat). The double circuit lines consist of a 36 Ckms line within Dhule and a 17 Ckms line within Bhopal. In addition, the project includes two 3,000 MVA substations, one each in Bhopal and Dhule. BDTCL facilitates the transfer of electricity from coal-fired power generation sources from the states of Odisha and Chhattisgarh to power load centers in India's western and northern regions.

Due to various Force Majeure and Change in Law events during the construction period which adversely affected and delayed the commissioning, BDTCL has been granted an increase in Annual Non Escalable Transmission charges by Appellate Tribunal for Electricity through order dated 20th October 2020 at the rate of 2.987%.

| Parameters | Details |
|-------------------|-----------------------------|
| Project Cost | INR 21,634 Mn |
| Total Length | 943 ckms |
| Scheduled COD | 31 st March 2014 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

BDTCL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|----------------------------------|----------|------------------|-----------------------------|-------------|-------------------------------------|
| Jabalpur – Bhopal | MP | 259 | 765 kV S/C | 9 Jun 2015 | 22% |
| Bhopal – Indore | MP | 176 | 765 kV S/C | 19 Nov 2014 | 12% |

| Aurangabad -Dhule (IPTC) | МН | 192 | 765 kV S/C | 5 Dec 2014 | 10% |
| Dhule (IPTC) – Vadodara | MH, GJ | 263 | 765 kV S/C | 13 Jun 2015 | 16% |
| Dhule (IPTC) - Dhule (MSETCL) | МН | 36 | 400 kV D/C | 6 Dec 2014 | 4% |
| Bhopal Substation | MP | NA | 2 x 1,500 MVA 765/400 kV | 30 Sep 2014 | 17% |
| Dhule Substation | МН | NA | 2 x 1,500 MVA 765/400 kV | 6 Dec 2014 | 17% |

2. Jabalpur Transmission Company Limited ("JTCL")

The JTCL project was awarded to IndiGrid Limited (formerly known as Sterlite Grid 1 Limited) by the Ministry of Power on 19th January 2011 for a 35 year period from the scheduled commercial operation date on a BOOM basis. The expiry date of TSA shall be the date which is 35 years from the scheduled COD of the project.

JTCL operates two extra high voltage overhead transmission lines of 994 Ckms in the states of Chhattisgarh and Madhya Pradesh comprising one 765 kV dual circuit line of 759 Ckms from Dharamjaygarh (Chhattisgarh) to Jabalpur (Madhya Pradesh) and one 765 kV single circuit Line of 235 Ckms from Jabalpur to Bina in Madhya Pradesh.

JTCL alleviates transmission capacity bottlenecks and expands the reliability and stability of the power grid in western and northern India by providing open access to transmit power from the independent power projects in the east of India.

| Parameters | Details |
|-------------------|----------------------------|
| Project Cost | INR 19,183 Mn |
| Total Length | 994 ckms |
| Scheduled COD | 1 st March 2014 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

JTCL consists of the following transmission assets:

| | - | - | | | |
|----------------------------------|----------|------------------|----------------|----------------|-------------------------------------|
| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
| Jabalpur – Dharamjaygarh | CH, MP | 759 | 765 kV D/C | 14 Sep 2015 | 72% |
| Jabalpur-Bina | MP | 235 | 765 kV S/C | 1 Jul 2015 | 28% |

3. Maheshwaram Transmission Limited ("MTL")

The MTL project was awarded to IndiGrid 2 Limited (formerly known as Sterlite Grid 3 Limited) by the Ministry of Power on 10th June 2015 for a 35 year period from the scheduled commercial operation date on BOOM basis. The expiry date of TSA shall be the date which is 35 years from the SCOD of the project. MTL will create a key component to enable Southern region to draw more power from North-East-West Grid and address the issue of power stability in Telangana region.

The improved grid connectivity shall facilitate power procurement from the ISTS network to the beneficiary states Telangana, Tamil Nadu, Seemandhra and Karnataka to meet their electricity demands. The project is envisaged to provide grid connectivity for Maheshwaram 765/400 kV Pooling Substation and Nizamabad 765/400 kV Substation.

| Parameters | Details |
|-------------------|---------------------------|
| Project Cost | INR 3,841 Mn |
| Total Length | 474 ckms |
| Scheduled COD | 1 st June 2018 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

MTL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|--|----------|------------------|----------------|-------------|-------------------------------------|
| Maheshwaram (PG) – Mehboob Nagar | TS | 196 | 400 kV D/C | 14 Dec 2017 | |
| 2 Nos. of 400 kV line bays at Mehboob Nagar S/S of TSTRANCO | TS | NA | | 14 Dec 2017 | 35% |
| Nizamabad - Yeddumailaram | TS | 278 | 400 kV D/C | 14 Oct 2017 | _ |
| 2 Nos. of 400kV line bays at Yeddumailaram (Shankarapali) SS of TSTRANCO | TS | 192 | 765 kV S/C | 14 Oct 2017 | 10% |

4. RAPP Transmission Company Limited ("RTCL")

The RTCL project was awarded to IndiGrid 1 Limited (formerly known as Sterlite Grid 2 Limited) by the Ministry of Power on 24th July 2013 for a 35 year period from the scheduled commercial operation date on a BOOM basis. The expiry date of TSA shall be the date which is 35 years from the scheduled COD of the project.

The RTCL project transfers power from the atomic power plant near Kota in Rajasthan to Shujalpur in Madhya Pradesh to provide the path for the evacuation of electricity generated at RAPP-7 and 8. Its route length is 201 Kms. The network will act as an interregional link between the Northern and the Western region.

RTCL alleviates transmission capacity bottlenecks and expands the reliability and stability of the power grid in western and northern India by providing open access to transmit power from the independent power projects in the west of India.

| Parameters | Details |
|-------------------|----------------------------|
| Project Cost | INR 2,601 Mn |
| Total Length | 403 ckms |
| Scheduled COD | 1 st March 2016 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

RTCL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|-------------------------------|----------|------------------|----------------|------------|-------------------------------------|
| RAPP- Shujalpur | RJ, MP | 403 | 400 kV D/C | 1 Mar 2016 | 100% |

5. Purulia & Kharagpur Transmission Company Limited ("PKTCL")

The PKTCL project was awarded to IndiGrid 1 Limited (formerly known as Sterlite Grid 2 Limited) by the Ministry of Power on 6th August 2013 for a 35 year period from the scheduled commercial operation date on BOOM basis. The expiry date of TSA shall be the date which is 35 years from the scheduled COD of the project.

PKTCL project has been brought into existence, keeping in view the growing generation capacity in the eastern region. It was much needed to strengthen the interconnection of the state grids with regional grids to facilitate exchange of additional power between them. Its route length is 545 Ckms.

| Parameters | Details |
|-------------------|-----------------------------|
| Project Cost | INR 4,405 Mn |
| Total Length | 545 ckms |
| Scheduled COD | 11 th March 2016 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

PKTCL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|-------------------------------|----------|------------------|----------------|-------------|-------------------------------------|
| Kharagpur-Chaibasa | WB, JH | 323 | 400 kV D/C | 18 Jun 2016 | 54% |
| Purulia- Ranchi | WB,JH | 223 | 400 kV D/C | 7 Jan 2017 | 46% |

6. Patran Transmission Company Limited ("PTCL")

The PTCL project located in Patran Village Nihal, Punjab was awarded to Techno Electric & Engineering Co. Ltd. by the Ministry of Power for a 35 year period from the scheduled commercial operation date on BOOM basis. The expiry date of TSA shall be the date which is 35 years from the scheduled COD of the project.

The PTCL project's need arose because of the partial grid disturbance in the Patial – Sangrur district of Punjab in July 2011. There were 5 substations of 220 kV in the vicinity and a need for 400 / 220 kV substation was felt to avoid the unbalanced loading. The 400/220 kV S/s at Patran would be connected to the grid by LILO of Patial-Kaithal 400 kV D/C

| Parameters | Details |
|-------------------|---------------------------|
| Project Cost | INR 2,250 Mn |
| Total Length | 10 ckms |
| Scheduled COD | 11 th Nov 2016 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

PTCL consists of the following transmission assets:

| Transmission line/Sub- Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|--------------------------------------|----------|------------------|-------------------------|----------------|-------------------------------------|
| Patiala- Kaithal LILO | PB | 10 | 400 kV D/C | 12 Nov 2016 | - |
| Patran Substation | PB | NA | 2*500 MVA, 400/220kV | 12 Nov 2016 | 100% |

7. NRSS XXIX Transmission Limited ("NRSS")

The NRSS project was awarded by the Ministry of Power on 2nd January 2014 for a 35 years period from the commercial operation date on a BOOM basis. The NRSS XXIX Transmission Limited project is expected to deliver over 2,000 MW of electricity from Punjab to the Kashmir Valley by strengthening the transmission system in these two states.

The Jalandar-Samba 400 kV D/C transmission line was commissioned in June 2016. NRSS XXIX Transmission Limited commissioned the other two 400 kV double circuit transmission lines and one 400/220 kV GIS substation in September 2018. The SPV would operate and maintain these for a minimum tenure of 35 years.

| Parameters | Details |
|-------------------|---------------------------|
| Project Cost | INR 28,082 Mn |
| Total Length | 830 ckms/415 kms |
| Scheduled COD | 05 th Aug 2018 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

NRSS consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|-------------------------------|----------|------------------|---------------------------|-------------|-------------------------------------|
| Jalandar- Samba | PB, JK | 270 | 400 kV D/C line | 24 Jun 2016 | 22% |
| Samba- Amargarh | JK | 546 | 400 kV D/C line | 2 Sept 2018 | _ |
| Uri- Wagoora | JK | 14 | 400 kV D/C line | 2 Sept 2018 | – 78% |
| Amargarh Substation | JK | NA | 400/220 kV GIS substation | 2 Sept 2018 | 70 |

8. Odisha Generation Phase- II Transmission Limited ("OGPTL")

The OGPTL project was awarded to IndiGrid 2 Limited (formerly known as Sterlite Grid 3 Limited) by the Ministry of Power on 19th January 2011 for a 35 years period from the SCOD date on a BOOM basis.

The OGPTL project is a part of Common Transmission System for Phase – II Generation Projects and Immediate Evacuation System for OPGC Projects in Odisha. The transmission lines will be part of the interstate transmission network providing additional evacuation up to 5,000 MW of electricity from Odishabased plants that are seeking better access to power-consuming centers. The OPGC – Jharsuguda 400 kV D/C transmission line was commissioned in August 2017 and Jharsuguda – Raipur 765 kV D/C transmission line in April 2019. The SPV would operate and maintain these for a minimum tenure of 35 years.

| Parameters | Details |
|-------------------|--------------------------|
| Project Cost | INR 12,200 Mn |
| Total Length | 710 ckms /355 kms |
| Scheduled COD | 8 th Aug 2019 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

OGPTL consists of the following transmission assets:

| Transmission line/Sub- Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|--------------------------------------|----------|------------------|----------------|----------------|-------------------------------------|
| Jharsuguda- Raipur | OD | 610 | 765 kV D/C | 6 Apr 2019 | 94% |
| OPGC- Jharsuguda | OD | 103 | 400 kV D/C | 30 Aug 2017 | 6% |

9. East-North Interconnection Company Limited ("ENICL")

The ENICL project was awarded to Sterlite Technologies Limited, by the Ministry of Power on 7th January 2010 for a period of 25 years from the date of issue of Transmission License by Central Electricity Regulatory Commission ("CERC") on a BOOM basis

ENICL is engaged in the establishment of two 400 KV Double Circuit transmission lines (with a total line length of 452 Km) that passes through the Indian states at Assam, West Bengal, and Bihar. Bongaigaon Silliguri Line, having the length of 219 kms passing through the states of Assam and West Bengal. Purnea Biharsharif Line with the length of 229 kms passes through the state of Bihar. As per the terms of TSA, ENICL would construct, operate and maintain these for a minimum tenure of 25 years.

| Parameters | Details | | | |
|-------------------|---|--|--|--|
| Project Cost | INR 12,519 Mn | | | |
| Total Length | 896 ckms | | | |
| Scheduled COD | 7 th Jan 2013 | | | |
| Concession period | 25 years from issue c transmission license | | | |
| Trust's stake | 100% economic ownership | | | |

ENICL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD | Contribution to total Revenue |
|-------------------------------|----------|------------------|----------------|-------------|-------------------------------------|
| Bongaigaon-Silliguri | AS,WB,BH | 438 | 400 kV D/C | 12 Nov 2014 | 52% |
| Purnea-Biharsharif | ВН | 458 | 400 kV D/C | 16 Sep 2013 | 48% |

10. Gurgaon Palwal Transmission Limited ("GPTL")

GPTL project was awarded to Sterlite Grid 4 Limited, a wholly owned subsidiary of SPGVL (now merged with SPTL), by the Ministry of Power for a period of 35 years from the Scheduled COD on a BOOM basis. GPTL was granted Transmission License by CERC on 29th September 2016. GPTL consists of three GIS substations, five transmission lines and two bays to meet the rising power demand in Gurgaon and Palwal.

GPTL consists of three gas-insulated substations (GIS) with a total transformation capacity of 3,000 MVA and \sim 273 circuit kilometers of 400 KV transmission lines, to enhance power transmission in the region. Due to change in law during the construction period, GPTL has been claiming increase in Non Escalable Transmission charges at the rate of 1.52% from its Long Term Transmission Customers. I have considered such increase in Non Escalable Transmission charges based on representation by the Investment Manager.

| Parameters | Details |
|-------------------|---------------------------------|
| Project Cost | INR 10,520 Mn |
| Total Length | 273 ckms |
| Scheduled COD | 13 th September 2019 |
| Concession period | 35 years from SCOD |
| Trust's stake | 100% economic ownership |

GPTL consists of the following transmission assets:

| GITE consists of the following transmission assets. | | | | |
|---|------------------|-----------------------|-------------|--|
| Transmission line/Sub- Station | Length (ckms) | Specifications | Actual COD | |
| Aligarh-Prithala | 99 | 400 kV D/C | 6 Aug 2019 | |
| Prithala-Kadarpur | 58 | 400 kV D/C | 7 Dec 2019 | |
| Kadarpur-Sohna Road | 21 | 400 kV D/C | 21 Mar 2020 | |
| LILO of Gurgaon Manesar | 2 | 400 kV D/C | 13 Mar 2020 | |
| Neemrana-Dhonanda | 93 | 400 kV D/C | 25 Feb 2019 | |
| Kadarpur Substation | - | 400/220 kV, 2X500 MVA | 11 Dec 2019 | |
| Sohna Substation | - | 400/220 kV, 2X500 MVA | 13 Apr 2020 | |
| Prithala Substation | - | 400/220 kV, 2X500 MVA | 6 Aug 2019 | |
| Dhonanda Substation Bays | - | 2X400 Line Bays | 25 Feb 2019 | |

11. NER-II Transmission Limited ("NERTL")

The NERTL project was awarded to SGL 4, wholly owned subsidiary of SPGVL (now merged with SPTL), by the Ministry of Power for a period of 35 years from SCOD of NERTL on a BOOM basis. NERTL was granted Transmission License by CERC on 23rd May 2017. The project has 11 elements including two substations of ~1,260 MVA capacity and four transmission lines extending over ~832 circuit kilometers. The asset spans across the states of Assam, Arunachal Pradesh and Tripura.

Due to change in law during the construction period, NERTL has been claiming increase in Non Escalable Transmission charges at the rate of 3.93% from its Long Term Transmission Customers. I have considered such increase in Non Escalable Transmission charges based on representation by the Investment Manager.

| Parameters | Details | | | |
|-------------------|--|--|--|--|
| Project Cost | INR 30,649 Mn | | | |
| Total Length | 449 kms / 832 Ckms | | | |
| Scheduled COD | 31 st March 2020 to 30 th November 2020 | | | |
| Revised SCOD | 31 st August 2020 and 30 th April 2021 | | | |
| Concession period | 35 years from SCOD | | | |
| Trust's stake | 100% economic ownership | | | |

As informed by the Investment Manager, there was tripping in the transmission line of the SPV due to technical issue. The management is actively working on fixing the issue permanently. However, it is anticipated that this issue may persist in the near future, which could potentially affect the availability of the NERTL.

NERTL consists of the following transmission assets:

| Transmission line/Sub- Station | Location | Length (ckms) | Specifications | Actual COD |
|--|----------|------------------|---------------------------|-------------|
| BNC – Itanagar | AS,AP | 136 | 132 kV DC | 6 Apr 2021 |
| LILO of Biswanath Chariali (PG) – Itanagar | АР | NA | 2 No. of Line Bays 132 kV | 6 Apr 2021 |
| Line bays at Itanagar Substation | АР | 17 | 132 kV DC | 6 Apr 2021 |
| Silchar – Misa | AS | 357 | 400 kV DC | 1 Mar 2021 |
| Surajmaninagar Substation | TR | NA | 400/132 kV (2X315 MVA) | 27 Jan 2021 |
| Surajmaninagar-PK Bari 400/132 Kv | TR | 238 | 400/132 kV DC | 27 Jan 2021 |
| Surajmaninagar – PK Bari | TR | 36 | 400 kV DC | 27 Jan 2021 |
| NEEPCO-PK Bari | TR | 48 | 132 kV DC | 23 Feb 2021 |
| AGTPP (NEEPCO) Line Bays | TR | NA | 2 No. of Line Bays 132 kV | 23 Feb 2021 |
| PK Bari (TSECL) Line Bays | TR | NA | 2 No. of Line Bays 132 kV | 23 Feb 2021 |
| PK Bari Substation | TR | NA | 400/132 kV (2X315 MVA) | 27 Jan 2021 |

12. Raichur Sholapur Transmission Company Private Limited ("RSTCPL")

RSTCPL was incorporated on 19th November 2009 to establish transmission system for evacuation of power from Krishnapattnam UMPP and other IPPS in southern region to beneficiaries in the western region of India. The SPV was responsible for construction of one line of 765 KV between Raichur and Sholapur.

| Parameters | Details |
|-------------------|-------------------------|
| Total Length | 208 ckms |
| Scheduled COD | 7 ^h Jan 2014 |
| Concession period | 35 years from SCOD |
| Location | Karnataka, Maharashtra |
| Trust's stake | 100% economic ownership |

As informed by the Investment Manager, basis the due diligence done, 3 towers of the transmission line of the SPV collapsed in the month of May 2019 due to heavy storms, due to which the availability for the months of June and July 2019 were affected. The deemed availability was granted to the SPV for the month of June 2019, but not for July 2019. The Investment Manager has informed that it was an exceptional one-time event and that they do not foresee any deficiency in the transmission assets of the SPV.

RSTCPL consists of the following transmission assets:

| Transmission line/Sub-Station | Location | Length (ckms) | Specifications | Actual COD |
|-------------------------------|----------|------------------|----------------|------------|
| Raichur-Solapur | KN,MH | 208 | 765 KV | 4 Jul 2014 |

13. Khargone Transmission Limited ("KTL")

KTL was incorporated to establish transmission system for Transmission System Strengthening in WR associated with Khargone Thermal Power Plant of 1,320 MW (2×660MW) at Khargone in the state of Madhya Pradesh. The SPV was responsible for construction of 4 transmission lines of between Maharashtra and Southern region. The project will evacuate 1,320 MW of power generated by the Khargone Power Plant to 765 kV Khandwa substation to further distribute it downstream across Madhya Pradesh, Maharashtra, Chhattisgarh, Gujarat, Goa, Daman & Diu, and Dadra & Nagar Haveli.

KTL was incorporated on 28th November 2015 by REC Transmission Projects Company Limited. After successful completion of bidding process for the project, the SPV was transferred to a Sterlite Grid 4 Limited vide share purchase agreement dated 22nd August 2016. Further, during FY 2021-22, Sterlite Grid 4 Limited was merged into its immediate holding company, i.e. Sterlite Power Transmission Limited.

Due to change in law (GST impact) during the construction period, KTL has been claiming increase in Non Escalable Transmission charges at the rate of $\sim 1.57\%$ from its Long Term Transmission Customers. I have considered such increase in transmission charges based on the representation by the Investment Manager.

| Parameters | Details |
|-------------------------|--------------------|
| Project Cost | INR 16,630 Mn |
| Total Length | 626 ckms |
| Scheduled COD | 31st July 2019 |
| Concession period | 35 years from SCOD |
| Line Voltage Class (Kv) | 765 Kv / 400 kv |
| Actual COD | 13th December 2021 |

KTL consists of the following transmission assets:

| Transmission line/Sub-Station | Locat ion | Length (ckms) | Specifications | | Contribution to total Revenue |
|---------------------------------|--------------|------------------|--|----------------|-------------------------------------|
| TL: Khandwa – Rajgarh (LILO) | MP | 13.57 | 400 kV D/C | 6 Aug 2019 | 0.39% |
| Prithala-Kadarpur | MP | 50.10 | 400 kV D/C | 7 Dec 2019 | 8.34% |
| Kadarpur-Sohna Road | MP | 180.08 | 765 kV D/C | 21 Mar 2020 | 29.62% |
| LILO of Gurgaon Manesar | МН | 382.66 | 765 kV D/C | 13 Mar 2020 | 40.62% |
| Neemrana- Dhonanda | MP | | 765/400 Kv, 2x1500 MVA | 25 Feb 2019 | 17.20% |
| Kadarpur Substation | МН | | 765 Kv line bays and 7x80 MVAR switchable reactors | 11 Dec 2019 | 3.83% |

14. Kallam Transmission Limited ("KLMTL")

KLMTL will consist of one substation of 2 x 500 MVA, 400/220 kV near Kallam and associated Bays with a LILO multi circuit line of \sim 18 kms.

KLMTL project will strengthen the transmission system in Maharashtra by improving the grid availability for evacuation & integration of renewable energy in the state. The project is situated in a low-risk plain topography. Its objective is to establish a transmission system for evacuation of power from renewable energy projects in Osmanabad area (1 GW) in Maharashtra.

The KLMTL project was awarded to the consortium of IndiGrid 1 Limited and IndiGrid 2 Limited (wholly-owned subsidiaries of India Grid Trust), by REC Power Development and Consultancy Limited for a period of 35 years from COD of KLMTL on a BOOM basis through tariff based competitive bidding.

As per the terms of TSA, the SCOD for various elements of the SPV is 18 months from effective date. Further, as per the Investment Manager, a force majeure event occurred, causing a delay in the entire project. The force majeure event has resulted in ECOD being revised to Q3 FY 2024.

| Parameters | Details |
|----------------------|---------------------------------|
| Total Length | ~18 Ckms |
| Total Capacity (MVA) | 1,260 |
| TSA Signing Date | 30 th September 2021 |
| SCOD | 27 th June 2023 |
| ECOD | Q3 FY 2024 |
| Trust's stake | 100% economic ownership |

KLMTL consists of the following transmission assets:

| Transmission line/ Sub-Station | Length (ckms) | Specifications | Actual COD |
|---|------------------|--------------------------|-------------|
| Establishment of 2x500 MVA, 400/220 kV substation near Kallam PS | | 400/220 kV, 2x500 MVA | 30 Sep 2023 |
| 1x125 MVAr bus reactor at Kallam PS 400 kV reactor bay – 1 | | 1x125 MVAr | 30 Sep 2023 |
| LILO of both circuits of Parli (PG) – Pune (GIS) 400 kV D/c line at Kallam PS | 18 | 400 kV D/c | 30 Sep 2023 |
| New 50 MVAr switchable line reactor with 400 ohms NGR at Kallam PS end of Kallam – Pune (GIS) 400 kV D/c line | | 50 MVAr | 30 Sep 2023 |

15. Jhajjar KT Transco Private Limited ("JKTPL")

The JKTPL project was awarded on 28th May 2010 to a joint venture between Kalpataru Power Transmission Ltd and Techno Electric & Engineering Co. Ltd., by the Haryana Vidyut Prasaran Nigam Limited ("HVPNL") for a period of 25 years effective from the appointed date on a DBFOT basis. JKTPL was granted Transmission License by CERC on 26th October 2010.

JKTPL consists of ~ 100 kms 400 KV Jhajjar – Kabalpur - Dipalpur transmission line and two substations with a transformation capacity of 830 MVA each in the state of Haryana. It spans over 205 ckms, while delivering from the 1,320 MW thermal power plant in Jhajjar to enhance power transmission in the region.

| Parameters | Details |
|-------------------|----------------------------------|
| Total Length | 205 ckms |
| Scheduled COD | 12 th March 2012 |
| Concession period | 25 years from the issue of |
| | Transmission License, extendable |
| | for 10 years as per TSA |
| Location | Haryana |
| Trust's stake | 100% economic ownership |

JKTPL consists of the following transmission assets:

| Transmission line/ Sub-Station | Length (ckms) | Specifications | Actual COD |
|--|------------------|--------------------------------------|-------------|
| Jharli (Jhajjar) to Kabulpur (Rohtak) | 70 | 400 kV D/C line | 14 Dec 2017 |
| Kabulpur (Rohtak) to Dipalpur (Sonepat) | 134 | 400 kV D/C line | 14 Dec 2017 |
| Abdullapur - Bawana at Dipalpur (Sonepat) | 1 | 400 kV S/C LILO | 14 Oct 2017 |
| Kabulpur AIS Substation (Rohtak) | NA | 400 kV/220 kV/132 kV (830 MVA) | 14 Oct 2017 |
| Dipalpur AIS Substation (Sonepat) | NA | 400 kV/220 kV/132 kV (830 MVA) | |

16. Parbati Koldam Transmission Company Limited ("PrKTCL")

PrKTCL owns and operate 280 Km (458 circuit kms) of 400 kV transmission lines across Himachal Pradesh and Punjab. PrKTCL evacuate power from power plants situated in Himachal Pradesh, viz. 800MW Parbati – II and 520MW Parbati – III Hydro Electric Plant (HEP) of NHPC, 800 MW Koldam HEP project of NTPC and 100 MW Sainj HEP of HPPCL.

PrKTCL was incorporated on 2nd September 2002 and promoted to undertake the construction and operation of transmission line in area of Punjab and Haryana on BOO basis. PrKTCL has been granted transmission license under section 14 of the Act. PrKTCL operate 458 ckm of 400 kV lines in the area of Punjab and Himachal Pradesh. The tariff of PrKTCL is determined under section 62 of the Act read with Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2019. The transmission assets have been developed under a cost-plus tariff model which includes construction, maintenance and operation of transmission lines and evacuating power from power plants situated in Himachal Pradesh and Punjab, with total line length of ~458 Ckms.

| Parameters | Details | | |
|-------------------|-----------------------------------|--|--|
| Project Cost | INR 9,354 Mn | | |
| Total Length | 458 ckms | | |
| Scheduled COD | 03 rd November 2015 | | |
| Concession period | 25 years from the issue of | | |
| | Transmission License | | |
| Trust's stake | 74% economic ownership | | |
| | (Balance 26% stake held by PGCIL) | | |

PrKTCL consists of the following transmission assets:

| Transmission line/ Sub-Station | Length (ckms) | Specifications | Actual COD |
|--|------------------|--|-------------|
| Asset 1 – Koldam Ludhiana CKT I | 150.64 | 400 kV D/C, Triple Bundle Line | 7 Aug 2014 |
| Asset 2 – Koldam Ludhiana CKT II | 150.64 | 400 kV D/C, Triple Bundle Line | 14 Aug 2014 |
| Asset 3 – Banala-Nalagarh | 66.38 | 400 kV S/C along with D/C Quad Bundle Line | 10 Oct 2014 |
| Asset 4 – Banala Koldam | 62.63 | 400 kV S/C along with D/C Quad Bundle Line | 4 Oct 2014 |
| Asset 5 – Parbati-II HEP to LILO point of Banala Pooling Station (CKT-I) | 12.83 | 400 kV S/C along with D/C Quad Bundle Line | 3 Nov 2015 |
| Asset 6 - Parbati II HEP to LILO point of Banala Pooling Station (CKT II) | 11.27 | 400 kV S/C along with D/C Quad Bundle Line | 3 Nov 2015 |
| Asset 7 – LILO point of Parbati III HEP to LILO point of Parbati Pooling Station | 3.51 | 400 kV S/C along with D/C Quad Bundle Line | 1 Aug 2013 |

17. Terralight Solar Energy SitamauSS Private Limited ("TL SitamauSS")

TL SitamauSS is engaged in the business of providing transmission and step-up services to its shareholder companies. The services provided by TL SitamauSS are essential and integral to the functioning of the solar plants owned by these shareholder companies. TL SitamauSS serves as an interconnection between the electricity delivery point and the electricity generating plant.

Moreover, TL SitamauSS offers transmission services to four Special Purpose Vehicles (SPVs). Among these SPVs, two are owned by VRET (Globus and TL Patlasi), while the other two are owned by Brookfield (Focal Photovoltaic India Private Limited and Focal Renewable Energy Two Private Limited). VRET hold a 66.06% ownership stake in TL SitamauSS through its SPVs, TL Patlasi and Globus, with each SPV owning 33.03%, the remaining balance is owned by Brookfield entities.

Considering the SPV's nature of being used for captive consumption and functioning solely as a cost center without generating any revenue, the Investment Manager has decided not to value the same for the proposed transaction.

18 & 19. IndiGrid Solar-I (AP) Private Limited ("ISPL 1") and IndiGrid Solar-II (AP) Private Limited ("ISPL 2")

Summary of project details of ISPL 1 and ISPL 2 are as follows:

| Parameters | ISPL 1 | ISPL 2 |
|--|---|--|
| Project Cost | INR 3,130 Mn | INR 3,149 Mn |
| Capacity | 50 MW (AC) / 68 MW (DC) | 50 MW (AC) / 70 MW (DC) |
| State / Location | Ananthapuramu Solar Park, District Kadapa, Andhra Pradesh | Ananthapuramu Solar Park, District Kadapa, Andra Pradesh |
| EPC Contractor | Sterling & Wilson Private Limited | Sterling & Wilson Private Limited |
| Counter Party (for PPA) | Solar Energy Corporation of India Ltd. | Solar Energy Corporation of India Ltd. |
| Scheduled commissioning date (revised) | 26 th June 2018 | 13 th October 2018 |
| Actual commissioning date | 22 nd June 2018 | 08 th October 2018 |
| Actual Commercial Operation Date ("COD") | 22 nd July 2018 | 31 st January 2019 |
| Period of PPA | 25 years from COD | 25 years from COD |
| Sale Model | Sale to DISCOM + VGF | Sale to DISCOM + VGF |
| Project Model | Build Own Operate (BOO) | Build Own Operate (BOO) |
| PPA Tariff Rate | INR 4.43 per kWh unit | INR 4.43 per kWh unit |
| Trust's Stake | 100% economic ownership | 100% economic ownership |

ISPL 1 was incorporated on 14th July 2016 and ISPL 2 was incorporated on 9th July 2016. These Solar Assets have each set up and commissioned a 50 MW (AC) solar photo voltaic power generation system at Annanthapuramu Solar Park in the state of Andhra Pradesh. Power generated from these Solar Assets is sold under long term Power Purchase Agreement ("PPA") between the Solar Assets and Solar Energy Corporation of India Limited ("SECI"). I understand that SECI has further signed PPA with Eastern and Southern Power Distribution Companies of Andhra Pradesh - APEPDCL & APSPDCL for entire capacity. The Solar Assets were selected through competitive reverse bidding under JNNSM Phase – II Batch-III, Tranche-IV. SECI is the nodal agency for implementation of Ministry of New & Renewable Energy ("MNRE") schemes for developing grid connected solar power capacity through Viability Gap Funding ("VGF") mode.

The Solar Assets have entered into a leasehold agreement for the land parcel from APSCPL for a period of 25 years from the COD, which can be extended through mutual agreement

20. TN Solar Power Energy Private Limited ("TNSEPL")

Summary of project details of TNSEPL are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 27.60 MW |
| Plant Location | Thuthookudi, Tamil Nadu (12.00 MW) Virudhunagar, Tamil Nadu (9.60 MW) Dindigul, Tamil Nadu (6.00 MW) |
| Actual COD | 01-Nov-2015 (Average) |
| Land Area | 116.21 Acres |
| O&M Contractor | AVI Solar Energy Pvt. Ltd. |
| PPA Counterparty | Tamil Nadu Generation and Distribution Corporation Ltd. |
| PPA Date | 12 th September 2014 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 7.01 per Unit |
| TRUST's stake | 100% economic ownership |

TNSEPL is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Thuthookudi (12.00 MW), Virudhunagar (9.60 MW), and Dindigul (6.00 MW) in Tamil Nadu. The Company had entered into a PPA with Tamil Nadu Generation and Distribution Corporation Ltd. ("TANGEDCO") on 12th September 2014 for implementation of a 27.60 MW Solar Photovoltaic Power Generation Unit in the State of Tamil Nadu, under which it has a commitment to sell electricity for a period of 25 years.

21. Universal Mine Developers & Service Providers Private Limited ("UMD")

Summary of project details of UMD are as follows:

| Parameters | Details |
|-------------------------|---|
| Installed Capacity (DC) | 30.00 MW |
| Plant Location | Amathur, Tamil Nadu (14.40 MW) Kovilpatti, Tamil Nadu (15.60 MW) |
| Actual COD | 20-Jan-2016 (Average) |
| Land Area | 147.29 Acres |
| O&M Contractor | AVI Solar Energy Pvt. Ltd. |
| PPA Counterparty | Tamil Nadu Generation and Distribution Corporation Ltd. |
| PPA Date | 12-Sept-14 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 7.01 per Unit |
| TRUST's stake | 100% economic ownership |

UMD is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Amathur (14.40 MW) & Kovilpatti (15.60 MW) in Tamil Nadu. The Company had entered into a PPA with Tamil Nadu Generation and Distribution Corporation Ltd. ("TANGEDCO") on 12th September 2014 for implementation of a 30 MW Solar Photovoltaic Power Generation Unit in the State of Tamil Nadu, under which it has a commitment to sell electricity for a period of 25 years.

22. Terralight Kanji Solar Private Limited ("TL Kanji")

Summary of project details of TL Kanji are as follows:

Project I - TKSPL

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 36.00 MW |
| Plant Location | Thuthookudi, Tamil Nadu (12.00 MW) Virudhunagar, Tamil Nadu (9.60 MW) Dindigul, Tamil Nadu (6.00 MW) |
| Actual COD | 26-Mar-16 |
| Land Area | 160.03 Acres |
| O&M Contractor | AVI Solar Energy Pvt. Ltd. |
| PPA Counterparty | Tamil Nadu Generation and Distribution Corporation Ltd. |
| PPA Date | 12-Sept-14 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 7.01 per Unit |
| TRUST's stake | 100% economic ownership |

Terralight Kanji Solar Private Limited (earlier known as Shapoorji Pallonji Solar PV Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Tiruvannamalai, Tamil Nadu. TKSPL had entered into a PPA with Tamil Nadu Generation and Distribution Corporation Ltd. ("TANGEDCO") on 12th September 2014 for implementation of a 36 MW Solar Photovoltaic Power Generation Unit in the State of Tamil Nadu, under which it has a commitment to sell electricity for a period of 25 years.

Project II - Lalitpur Project

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 12.42 MW |
| Plant Location | Lalitpur, Uttar Pradesh |
| Actual COD | 19-Mar-15 |
| Land Area | 48.1 Acres |
| O&M Contractor | AVI Solar Energy Pvt. Ltd. |
| PPA Counterparty | Uttar Pradesh Power Corporation Limited |
| PPA Date | 27-Dec-13 |
| PPA Term | 12 Years from Actual COD, extendable by 13 years |
| PPA Tariff | INR 8.44 per Unit for 12 years, APPC tariff post PPA |
| TRUST's stake | 100% economic ownership |
| | |

TL Kanji acquired 12.42 MW (10.00 MW AC) solar project from Jakson Power Private Limited in Aug '22. Lalitpur Project is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Lalitpur, Uttar Pradesh. TL Kanji had entered into a PPA with Uttar Pradesh Power Corporation Limited ("UUPCL") on 12th September 2014 for implementation of a 12.42 MW Solar Photovoltaic Power Generation Unit in the State of Uttar Pradesh, under which it has a commitment to sell electricity for a period of 12 years. As per the PPA the term can be extended to further 13 years on willingness of the developer.

23. Terralight Rajapalayam Solar Private Limited ("TL Raj")

Summary of project details of TL Raj are as follows:

| Parameters | Details |
|--|--|
| Installed Capacity (DC) | 54.00 MW |
| Plant Location | Rajapalayam, Tamil Nadu |
| Scheduled Commercial Operation Date (SCOD) | 26-Sept-18 |
| Actual COD | 26-Sept-18 |
| Land Area | 224.48 Acres |
| O&M Contractor | AVI Solar Energy Pvt. Ltd. |
| PPA Counterparty | Tamil Nadu Generation and Distribution Corporation Ltd. (TANGEDCO) |
| PPA Date | 27-Sept-17 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 3.47 per unit |
| TRUST's stake | 100% economic ownership |

Terralight Rajapalayam Solar Private Limited (earlier known as Shapoorji Pallonji Suryaprakash Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Rajapalayam, Tamil Nadu. The Company had entered into a PPA with TANGEDCO on 27th September 2017 for implementation of a 54.00 MW Solar Photovoltaic Power Generation Unit in the State of Tamil Nadu, under which it has a commitment to sell electricity for a period of 25 years

24. Solar Edge Power and Energy Private Limited ("Solar Edge")

Summary of project details of Solar Edge are as follows:

| Parameters | Details |
|--|--|
| Installed Capacity (DC) | 169 MW |
| Plant Location | Beed, Maharashtra (104 MW) Jalgaon, Maharashtra (65 MW) |
| Scheduled Commercial Operation Date (SCOD) | 23-Dec-17 |
| Actual COD | 18-April-18 (Average) |
| Land Area | 718.99 Acres |
| O&M Contractor | Param Renewable Energy Pvt. Ltd. |
| PPA Counterparty | Solar Energy Corporation of India Ltd. (SECI) |
| PPA Date | 10-Feb-17 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 4.43 per unit |
| TRUST's stake | 100% economic ownership |

Solar Edge is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Beed (104 MW) & Jalgaon (65 MW) in Maharashtra. It had entered into a Power Purchase Agreement ("PPA") with Solar Energy Corporation of India Ltd. ("SECI") on 10th February 2017 for implementation of a 169.00 MW Solar Photovoltaic Power Generation Unit in the State of Maharashtra, under which it has a commitment to sell electricity for a period of 25 years.

25. Terralight Solar Energy Charanka Private Limited ("TL Charanka")

Summary of project details of TL Charanka are as follows:

| Parameters | Details |
|--|---|
| Installed Capacity (DC) | 15.00 MW |
| Plant Location | Patan, Gujarat |
| Scheduled Commercial Operation Date (SCOD) | 30-Jun-11 for 3.00 MW 31-Dec-11 for 12.00 MW |
| Actual COD | 28-Mar-12 (Average) |
| Land Area | 78.52 Acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | Gujarat Urja Vikas Nigam Limited |
| PPA Date | 29-May-10 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff (Weighted average) | INR 11.32 till FY 23 INR 11.11 during FY 24 INR 6.99 during FY 25 INR 6.47 from FY 26 till FY 37 |
| TRUST's stake | 100% economic ownership |

Terralight Solar Energy Charanka Private Limited (earlier known as Sindicatum Solar Energy Gujarat Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Patan, Gujarat. The Company had entered into a PPA with Gujarat Urja Vikas Nigam Limited ("GUVNL") on 29th May 2010 for implementation of a 15.00 MW Solar Photovoltaic Power Generation Unit in the State of Gujarat, under which it has a commitment to sell electricity for a period of 25 years.

26. Terralight Solar Energy Tinwari Private Limited ("TL Tinwari")

Summary of project details of TL Tinwari are as follows:

| Parameters | Details | |
|--|-------------------------------|--|
| Installed Capacity (DC) | 5.85 MW | |
| Plant Location | Jodhpur, Rajasthan | |
| Scheduled Commercial Operation Date (SCOD) | 15 ⁻ Oct-11 | |
| Actual COD | 15-Oct-11 | |
| Land Area | 37.06 Acres | |
| O&M Contractor | Meera Corporation | |
| PPA Counterparty | NTPC Vidyut Vyapar Nigam Ltd. | |
| PPA Date | 15-Oct-10 | |
| PPA Term | 25 years from Actual COD | |
| PPA Tariff | INR 17.91 per unit | |
| TRUST's stake | 100% economic ownership | |

Terralight Solar Energy Tinwari Private Limited (earlier known as Sindicatum Solar Energy Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Jodhpur, Rajasthan. The Company had entered into a PPA with NTPC Vidyut Vyapar Nigam Ltd. ("NVVN") on 15th October 2010 for implementation of a 5.85 MW Solar Photovoltaic Power Generation Unit in the State of Rajasthan, under which it has a commitment to sell electricity for a period of 25 years.

27. PLG Photovoltaic Private Limited ("PLG")

Summary of project details of PLG are as follows:

| Parameters | Details |
|--|--|
| Installed Capacity (DC) | 20.00 MW |
| Plant Location | Sami, Patan, Gujarat |
| Scheduled Commercial Operation Date (SCOD) | 31-May-11 for 10 MW 30-Jun-11 for 10 MW |
| Actual COD | 26-Jan-12 |
| Land Area | 107 Acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | Gujarat Urja Vikas Nigam Limited |
| PPA Date | 20-May-10 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 15 per unit for first 12 years INR 5 per unit from 13 th year |
| TRUST's stake | 100% economic ownership |

PLG is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Sami, Patan, and Gujarat. The Company had entered into a PPA with Gujarat Urja Vikas Nigam Limited ("GUVNL") on 20th May 2010 for implementation of a 20.00 MW Solar Photovoltaic Power Generation Unit in the State of Gujarat, under which it has a commitment to sell electricity for a period of 25 years.

28. Universal Saur Urja Private Limited ("USUPL")

Summary of project details of USUPL are as follows: Project I – USUPL

| Parameters | Details |
|-------------------------|---|
| Installed Capacity (DC) | 36.98 MW |
| Plant Location | Mahoba District, Uttar Pradesh |
| Actual COD | 15-Sept-16 |
| Land Area | 37.06 Acres |
| O&M Contractor | Meera Corporation |
| PPA Counterparty | Uttar Pradesh Power Corporation Ltd. |
| PPA Date | 06-April-15 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 9.33 per unit for first 12 years Est. INR 3.25 per unit from 13 th year (Fixed Tariff till for first 12 years, then RoE based tariff will be as determined by the state commission in the 11 th year) |
| TRUST's stake | 100% economic ownership |

USUPL is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Mahoba District, Uttar Pradesh. The Company had entered into a PPA with Uttar Pradesh Power Corporation Ltd. on 6th April 2015 for implementation of a 35.24 MW (capacity now augmented to 36.98 MW) Solar Photovoltaic Power Generation Unit in the State of Uttar Pradesh, under which it has a commitment to sell electricity for a period of 25 years.

Project II - Jodhpur

| Parameters | Details |
|-------------------------|-------------------------------|
| Installed Capacity (DC) | 25.88 MW |
| Plant Location | Rajasthan |
| Actual COD | 26-Feb-13 |
| Land Area | 106.68 acres |
| O&M Contractor | Mahindra Tego Private Limited |
| PPA Counterparty | NTPC Vidyut Vyapar Nigam Ltd. |
| PPA Date | 25-Jan-12 |
| PPA Term | 25 Years |
| PPA Tariff | INR 8.59 per Unit |
| TRUST's stake | 100% economic ownership |

USUPL acquired Jodhpur Project 25.88 MW (20.00 MW AC) solar project from Jakson Power Private Limited during FY 23. Jodhpur Project is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Jodhpur, Rajasthan. The Company had entered into a PPA with NTPC Vidyut Vyapar Nigam Ltd. on 25th January 2012 for implementation of a 25.88 MW Solar Photovoltaic Power Generation Unit in the State of Jodhpur, under which it has a commitment to sell electricity for a period of 25 years.

29. Globus Steel And Power Private Limited ("Globus")

Summary of project details of Globus are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 23.67 MW |
| Plant Location | Nataram Village, Sitamau, Mandsaur, Madhya Pradesh, India |
| Actual COD | 29-Jan-16 |
| Land Area | 156.28 Acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | Madhya Pradesh Power Management Company Limited |
| PPA Date | 16-Jun-14 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 6.969 per unit |
| TRUST's stake | 100% economic ownership |

Globus is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Nataram Village, Sitamau Taluka, and Mandsaur District of Madhya Pradesh. Power Purchase Agreement (PPA) has been signed between developer and Madhya Pradesh Power Management Company Limited (MPPMCL), at a fixed rate of $\frac{3}{2}$ 6.969 / kWh for a period of 25 Years on 16th June 2014. The DC capacity of the project is 23.67 MW and AC capacity is 20.00 MW.

30. Terralight Solar Energy Patlasi Private Limited ("TL Patlasi")

Summary of project details of TL Patlasi are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 22.10 MW |
| Plant Location | Village Choti Patlasi, Sitamau Tehsil, Mandsaur, Madhya Pradesh |
| Actual COD | 06-Jun-15 (Average) |
| Land Area | 116.90 Acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | Solar Energy Corporation of India |
| PPA Date | 25-April-14 |
| PPA Term | 25 years from Actual COD |
| PPA Tariff | INR 5.45 per unit |
| TRUST's stake | 100% economic ownership |

TL Patlasi (earlier known as Focal Energy Solar One India Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Choti Patlasi Village, Sitamau Tehsil and Mandsaur District of Madhya Pradesh State.

The DC capacity of the project is 22.10 MW and AC capacity is 20.00 MW Power Purchase Agreement (PPA) has been signed between developer and Solar Energy Corporation of India (SECI), at a fixed rate of ₹ 5.45 / kWh for a period of 25 Years.

31. Terralight Solar Energy Nangla Private Limited ("TL Nangla")

Summary of project details of TL Nangla are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 4.2 MW |
| Plant Location | Nangla, Talwandi Saboo, Bhatinda, Punjab |
| Actual COD | 24-Mar-15 |
| Land Area | 18.75 Acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | Punjab State Power Corporation Ltd |
| PPA Date | 31-Dec-13 |
| PPA Term | 25 Years |
| PPA Tariff | INR 8.30 per unit |
| TRUST's stake | 100% economic ownership |

TL Nangla (earlier known as Focal Energy Solar India Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Nangla, Talwandi Saboo, Bhatinda, and Punjab. The Company has entered into a PPA for implementation of a 4.2 MW Solar Photovoltaic Power Generation Unit in the state of Punjab, under which it has a commitment to sell electricity for a period of 25 years at the rate of INR 8.30/kWh.

32. Terralight Solar Energy Gadna Private Limited ("TL Gadna")

Summary of project details of TL Gadna are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 5.50 MW |
| Plant Location | Gadna, Bap, Jodhpur, Rajasthan |
| Actual COD | 26-Mar-13 |
| Land Area | 33.05 acres |
| O&M Contractor | Mitarsh Energy Private Limited |
| PPA Counterparty | NTPC Vidhyut Vyapar Nigam Limited (NVVN) |
| PPA Date | 27-Jan-12 |
| PPA Term | 25 Years |
| PPA Tariff | INR 8.99 per unit |
| TRUST's stake | 100% economic ownership |

TL Gadna (earlier known as Sunborne Energy Rajasthan Solar Private Limited) is engaged in carrying on the business of setting up, generating and selling of renewable power from its ground mounted solar power plants located at Gadna, Bap, Jodhpur, and Rajasthan. The Company has entered into a PPA with NTPC Vidhyut Vyapar Nigam Limited for implementation of a 5.50 MW Solar Photovoltaic Power Generation Unit in the state of Rajasthan, under which it has a commitment to sell electricity for a period of 25 years.

33. Godawari Green Energy Limited ("GGEL")

Summary of project details of GGEL are as follows:

| Parameters | Details |
|-------------------------|--|
| Installed Capacity (DC) | 50 MW |
| Plant Location | Naukh, Rajasthan, India |
| Technology of plant | Parabolic-trough solar concentrating systems |
| Actual COD | 19-Jun-13 |
| Land Area | ~609 acres |
| O&M Contractor | In-house |
| PPA Counterparty | NTPC Vidhyut Vyapar Nigam Limited |
| PPA Date | 19-Sep-13 |
| PPA Term | 25 Years from Actual COD |
| PPA Tariff | INR 12.20 per unit |
| TRUST's stake | 100% economic ownership |

GGEL is engaged in carrying on the business of setting up, generating and selling of renewable power from its thermal solar power plant located at Naukh, Rajasthan, India. The Company has entered into a PPA with NTPC Vidhyut Vyapar Nigam Limited for implementation of a 50 MW Concentrated Solar Power Generation Unit in the state of Rajasthan, under which it has a commitment to sell electricity for a period of 25 years.

The technology of GGEL plant is Parabolic-trough solar concentrating systems. This Concentrating Solar Power (CSP) produces electricity by reflecting sunlight via solar collectors to heat a receiver to high temperatures. This heat is transformed first into mechanical energy, by turbines or Stirling engines, and then to electricity.

APTEL in its Order dated 26th July 2022 directed the CERC to come up with a mechanism to suitably revise the tariff rate upwards in case of GGEL on account of lower actual DNI as compared with project DNI. Based on the above mentioned order, the Investment Manager has requested CERC and NVVN for an incremental tariff increase of INR 4.15/ unit from COD till end of project life. The Investment Manager

expects to receive the incremental tariff (with retrospective effect) from FY 25 onwards. The transaction documents of GGEL with the erstwhile sellers states that in case there is an increase in tariff, then upon the actual receipt of the related cash flows, 75% of the amount related to the incremental tariff increase (net of tax) shall be paid to the erstwhile sellers. The transaction documents further states that GGEL is also liable to pay 75% of the net present value of future cash flows (net of tax) considering a discount rate of 12% related to the incremental tariff increase.

A separate fair valuation for the same has been incorporated in the Enterprise Value of GGEL in the appendix 2.15.

<<This space is intentionally left blank>>

Section 4: Scope of Work and Procedures

Scope of Valuation Work

As per Regulation 21(5) of Chapter V of the SEBI InvIT Regulations:

"A half yearly valuation of the assets of the InvIT shall be conducted by the valuer for the half-year ending September 30th for a publicly offered InvIT for incorporating any key changes in the previous six months and such half yearly valuation report shall be prepared within one month from the date of end of such half year.

Provided that in case the consolidated borrowings and deferred payments of an InvIT, in terms of Regulation 20, is above forty nine per cent, the valuation of the assets of such InvIT shall be conducted by the valuer for quarter ending June, September and December, for incorporating any key changes in the previous quarter and such quarterly report shall be prepared within one month from the date of the end of such quarter"

In this regard, the Investment Manager and the Trustee intends to undertake the fair enterprise valuation of the SPVs as on 30th September 2023.

In this regard, the Investment Manager and the Trustee have appointed me, Mr. Manish Gadia ("Registered Valuer" or "RV") bearing IBBI registration number IBBI/RV/06/2019/11646 to undertake the fair valuation at the enterprise level of the SPVs as per the SEBI InvIT Regulations as at 30th September 2023.

Enterprise Value ("EV") is described as the total value of the equity in a business plus the value of its debt and debt related liabilities, minus any cash and cash equivalents to meet those liabilities.

Registered Valuer declares that:

- > The RV is competent to undertake the financial valuation in terms of the SEBI InvIT Regulations;
- The RV is independent and has prepared the Valuation Report ("the Report") on a fair and unbiasedbasis.

I have estimated the Enterprise Value of each of the Specified SPVs.

The Valuation Date considered for the Enterprise Valuation of the Specified SPVs is 30th September 2023. Valuation analysis and results are specific to the valuation date. A valuation of this nature involves consideration of various factors including the financial position of the Specified SPVs as at the Valuation Date, trends in the equity stock market and fixed income security market, macroeconomic and industry trends, etc.

The Valuation Report ("Report") covers all the disclosures required as per the SEBI InvIT Regulations and the valuation of the SPVs is impartial, true and fair and in compliance with the SEBI InvIT Regulations.

Procedures adopted for Valuation

Financial Asset to be Valued

The RV has been mandated by the Investment Manager to arrive at the Enterprise Value of the SPVs. Enterprise Value is described as the total value of the equity in a business plus the value of its debt and debt related liabilities, minus any cash and cash equivalents to meet those liabilities.

Valuation Bases

Valuation base means the indication of the type of value being used in an engagement. Different valuation bases may lead to different conclusions of value. Therefore, it is important for the valuer to identify the bases of value pertinent to the engagement. ICAI VS defines the following valuation bases:

- 1. Fair value;
- 2. Investment/Participant specific value;
- 3. Liquidation value.

Fair Value:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date

Investment Value/ Participant Specific Value:

Participant specific value is the estimated value of an asset or liability considering specific advantages or disadvantages of either of the owner or identified acquirer or identified participants.

Liquidation Value:

Liquidation value is the amount that will be realized on sale of an asset or a group of assets when an actual/hypothetical termination of the business is contemplated/assumed.

In the present case, RV has determined the fair value of the SPVs at the enterprise level.

Premise of Value

Premise of Value refers to the conditions and circumstances about how an asset is deployed. In the present case, I have determined the fair enterprise value of the SPVs on a Going Concern Value defined as under:

Going Concern Value:

Going concern value is the value of a business enterprise that is expected to continue to operate in the future. The intangible elements of Going Concern Value result from factors such as having a trained work force, an operational plant, the necessary licenses, systems, and procedures in place etc.

Valuation Date

Valuation Date is the specific date at which the value of the assets to be valued gets estimated or measured. Valuation is time specific and can change with the passage of time due to changes in the condition of the asset to be valued. Accordingly, valuation of an asset as at a particular date can be different from other date(s).

The valuation date considered for the fair enterprise valuation of the SPVs is 30^{th} September 2023 ("ValuationDate").

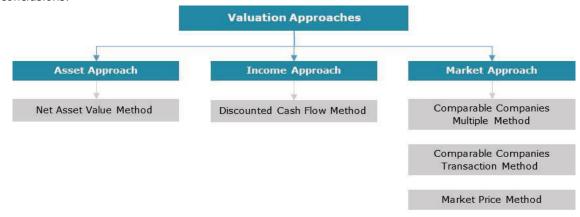

The attached Report is drawn up by reference to accounting and financial information as on 30th September2023. I have considered provisional financial statements for the quarter ended 30th September 2023. The RV is not aware of any other events having occurred since 30th September 2023 till date of this Report which he deems to be significant for his valuation analysis.

<<This space is intentionally left blank>>

Section 5: Valuation Approach

Valuation Approach Overview

The three generally accepted approaches used to determine the Fair Value of a business' entity are the asset, income and market approaches. Depending on the facts and circumstances of a particular appraisal, applying the three approaches independently of each other may yield substantially different conclusions.

Asset Approach

The **Asset or Cost Approach** is generally considered to yield the minimum benchmark of value for an operating enterprise. The most common methods within this approach are Net Asset Value and Liquidation Value.

Net Asset Value ("NAV") method:

• The Net Assets Method represents the value of the business with reference to the asset base of theentity and the attached liabilities on the valuation date. The Net Assets Value can be calculated using one of the following approaches, viz.:

At Book Value

• While valuing the Shares/Business of a Company, the valuer takes into consideration the last audited/ provisional financial statements and works out the net asset value. This method would only give the historical cost of the assets and may not be indicative of the true worth of the assets interms of income generating potential. Also, in case of businesses which are not capital intensive viz. service sector companies or trading companies this method may not be relevant.

At Intrinsic Value

 At times, when a transaction is in the nature of transfer of asset from one entity to another, or when the intrinsic value of the assets is easily available, the valuer would like to consider the intrinsic value of the underlying assets. The intrinsic value of assets is worked out by considering current market/replacement value of the assets.

<u>Liquidation Value Method:</u>

• This method considers replacement cost as an indicator of value, assuming that prudent investors will pay no more for an asset or group of assets (tangible or intangible) than the amount for which they can replace or recreate such assets. The cost approach to value is often appropriate when current or expected future operating earnings of a subject entity are insufficient to generate a return greater than that which could be generated through the sale of the assets.

Conclusion on Cost Approach

In the present case, the revenue of the SPVs are either pre-determined or could be fairly estimated for the life of the projects. In such scenario, the true worth of the SPV is reflected in its future earning capacity rather than the cost of the project. Since the NAV does not capture the future earning potential of the businesses, I have not considered the Asset approach for the current valuation exercise, except for KLMTL and TL SitamauSS. Considering that the KLMTL project is underconstruction, TL SitamauSS is currently utilised for captive consumption and in absence of any specific projections, I have considered NAV method for the purpose of valuation of these SPVs I find it appropriate to consider the NAV method at Book Value.

Income Approach

The **Income Approach** serves to estimate value by considering the income (benefits) generated by the asset over a period of time. This approach is based on the fundamental valuation principle that the value of a business is equal to the present worth of the future benefits of ownership. The term income does not necessarily refer to income in the accounting sense but to future benefits accruing to the owner.

The most common methods under this approach are Discounted Cash Flow Method and Capitalization of Earnings Method. The Discounted Future Earnings method discounts projected future earnings back to present value at a rate that reflects the risk inherent in the projected earnings. Under the Capitalization of Earnings method, normalized historic earnings are capitalized at a rate that reflects the risk inherent in the expected future growth in those earnings.

Discounted Cash Flow ("DCF") method:

Overview:

- In Discounted Cash Flow (DCF) valuation, the value of an asset is the present value of the expected cash flows on the asset.
- The basic premise in DCF is that every asset has an intrinsic value that can be estimated, based upon its characteristics in terms of cash flows, growth and risk.

Assumptions:

The DCF model relies upon cash flow assumptions such as revenue growth rates, operating
margins, working capital needs and new investments in fixed assets for purposes of estimating
future cash flows. After establishing the current value, the DCF model can be used to measure
the value creation impact of various assumption changes, and the sensitivity tested.

Importance of DCF:

- Business valuation is normally done to evaluate the future earning potential of a business, and involves the study of many aspects of a business, including anticipated revenues and expenses.
- As the cash flows extend over time in future, the DCF model can be a helpful tool, as the DCF analysis for a business valuation requires the valuer to consider two important components of:
 - a) Projection of revenues and expenses of the foreseeable future, and,
 - b) Determination of the discount rate to be used.
 - c) Projecting the expected revenues and expenses of a business requires domain expertise in the business being valued.
- Selecting the discount rate requires consideration of two components:
 - a) The cost of capital, and
 - b) The risk premium associated with the stream of projected net revenues.
 - c) The cost of capital is the cost of funds collected for financing a project or purchasing an asset. Capital is a productive asset that commands a rate of return. When a business purchase is financed by debt, the cost of capital simply equals the interest cost of the debt. When it is financed by the owner's equity, the relevant cost of capital

would be the "opportunity cost" of the capital, i.e., the net income that the same capital would generate f committed to another attractive alternative.

• The choice of discount rate must consider not only the owner's cost of capital, but also the risk of the business investment.

Application of DCF Valuation:

- DCF valuation approach is the easiest to use for assets or firms with the following characteristics:
 - a) cash flows are currently positive,
 - b) the cash flows can be estimated with some reliability for future periods, and
 - c) where a proxy for risk that can be used to obtain discount rates is available.

Capitalization of Earnings Method:

The capitalized earnings method consists of calculating the value of a company by discounting future profits with a capitalization rate adjusted to the determining date for the valuation.

- In the context of the capitalized earnings method, a company is considered as an investment. Attention is therefore focused solely on the future profits that the company will make, on the associated risks or on earnings projections. Operating assets are seen only as a way of making profits and no specific value is allocated to these.
- Capitalized earnings= (Long-term operating profit * 100) / Capitalization rate

Calculation of the capitalization rate, particularly in the area of risks specific to the company, requires a subjective valuation of several factors.

Conclusion on Income Approach

Discounted Cash Flow ("DCF"):

- The revenues of the Transmission Assets are defined for 35 years under the TSA except for ENICLwhich is defined for 25 years under the TSA. Whereas for the Solar Assets, tariff rates are definedfor 25 years under the PPA. In such scenario, the true worth of its business would be reflected in its future earnings potential and therefore, DCF method under the income approach has been considered as an appropriate method for the present valuation exercise, except for KLMTL and TL SitamauSS.
- For Transmission Assets, the terminal value is calculated based on the business' potential for further growth beyond the explicit forecast period. The "constant growth model" is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of the forecast period.
- For Solar Assets, the terminal year value has been considered based on the salvage value of the plant & machinery, sale of freehold land and realization of working capital at the end of their respective PPA term of 25 years.

Capitalization of Earnings Method:

• In the present case, the revenue of the SPVs are either pre-determined or could be fairly estimated for the life of the projects. Since the future earning can easily be estimated, I find it appropriate to not consider Capitalization of Earnings Method for the current valuation exercise.

Market Approach

In this **Market Approach**, value is determined by comparing the subject, company with its peers in the same industry of the similar size and region.

Comparable Companies Multiples ("CCM") method:

- CCM method uses the valuation ratio of a publically traded company and applies that ratio to the company being valued.
- The valuation ratio typically expresses the valuation as a function of a measure of financial performance or book value.

- Typically, the multiples are a ratio of some valuation metric (such as equity Market Capitalization or Enterprise Value) to some financial performance metric (such as Earnings/Earnings per Share (EPS), Sales, or EBITDA).
- The basic idea is that companies with similar characteristics should trade at similar multiples, all other things being equal.

Comparable Transactions Multiples ("CTM") method:

- CTM Method looks at recent historical M&A activity involving similar companies to get a range of valuation multiples.
- The main approach of the method is to look at similar or comparable transactions where the acquisition target has a similar client base to the company being evaluated.
- Precedent Transaction valuation can revolve around either the Enterprise Value of the company or the Market Value of the company, depending on the multiples being used.

Market Price method:

• The market price method evaluates the value on the basis of prices quoted on the stock exchange. Average of quoted price is considered as indicative of the value perception of the company by investors operating under free market conditions.

Conclusion on Market Approach

CCM Method:

• In the absence of any exactly comparable listed companies with characteristics and parameterssimilar to that of the SPVs, I have not considered CCM method in the present case.

CTM Method:

• In the absence of adequate details about the Comparable Transactions, I was unable to apply the CTM method.

Market Price Method:

 Currently, the equity shares of SPVs are not listed on any recognized stock exchange of India. Hence, I was unable to apply market price method.

Conclusion of the Valuation Approach

| Valuation Methodology | Used | Remarks |
|--|------|---|
| Market Approach | | |
| Market Price method | No | Currently, the equity shares of SPVs are not listed on any recognized stock exchange of India. Hence, I was unable to apply market price method. |
| Comparable Companies multiples method | No | In the absence of any exactly comparable listed companies with characteristics and parameters similar to that of the SPVs, I have not considered CCM method in the present case. |
| Comparable Transactions multiples method | No | In the absence of adequate details about the Comparable Transactions, I was unable to apply the CTM method. |
| Income Approach | | |
| Discounted Cash Flows method | Yes | The revenues of the Transmission Assets are defined for 35 years under the TSA except for ENICL which is defined for 25 years under the TSA. Whereas for the Solar Assets, tariff rates are defined for 25 years under the PPA. In such scenario, the true worth of its business would be reflected in its future earnings potential and therefore, DCF method under the income approach has been considered as an appropriate method for the present valuation exercise, except for KLMTL and TL SitamauSS. For Transmission Assets, the terminal value is calculated based on the business' potential for further growth beyond the explicit forecast period. The "constant growth model" is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of the forecast period. For Solar Assets, the terminal year value has been considered based on the salvage value of the plant & machinery, sale of freehold land and realisation of working capital at the end of their respective PPA term of 25 years. |
| Capitalization of Earnings Method | No | In the present case, the revenue of the SPVs are either pre-determined or could be fairly estimated for the life of the projects. Since the future earning can easily be estimated, I find it appropriate to not consider Capitalization of Earnings Method for the current valuation exercise. |
| Cost approach | | |
| Net Assets Value method | Yes | In the present case, the revenue of the SPVs are either pre-determined or could be fairly estimated for the life of the projects. In such scenario, the true worth of the SPV is reflected in its future earning capacity rather than the cost of the project. Since the NAV does not capture the future earning potential of the businesses, I have not considered the Asset approach for the current valuation exercise, except for KLMTL & TL SitamauSS. Considering that the KLMTL project is under-construction, TL SitamauSS is currently utilised for captive consumption and in absence of any specific projections, I find it appropriate to consider the NAV method at Book Value. |

Section 6: Valuation Conclusion

Enterprise Value of all SPVs

I have carried out the Enterprise of the Specified SPVs as of 30th September 2023 considering interalia historical performance of the SPVs, Business plan/ Agreements/ Projected financial statements of the SPVs and other information provided by the Investment Manager, industry analysis and other relevant factors.

I have been represented by the Investment Manager that there is no potential devolvement on account of the contingent liability as of valuation date; hence no impact of the same has been factored in to arrive at EV of the SPVs.

In performing the valuation analysis, I have adopted the Discounted Cash Flow Method under the Income Approach, except for KLMTL where I have considered NAV approach.

For Transmission Assets:

All the Transmission Assets except ENICL have Concession Period of 35 years and in case of ENICL, the Concession Period is 25 years.

For Solar Assets:

Similarly, the Solar Assets have entered into PPA for a period of 25 years.

Hence, the growth potential of the SPVs and the true worth of its business would be reflected in its future earnings potential and therefore, DCF method under the income approach has been considered as an appropriate method for the Transmission Assets and Solar Assets in the present valuation exercise.

For Under-Construction Transmission Assets:

Considering that the KLMTL project is under-construction, I find it appropriate to consider the NAV method.

For Captive Consumption Transmission Assets:

Considering that the TL SitamauSS is currently utilized for captive consumption and considering the projections for the same are not available, I find it appropriate to consider the NAV method.

Sensitivity Analysis

Valuation is based on estimates of future financial performance or opinions, which represent reasonable expectations at a particular point of time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, a particular event will occur or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from these estimates and variations may be material. Accordingly, a quantitative sensitivity analysis is considered on the following unobservable inputs:

Weighted Average Cost of Capital (WACC) by increasing / decreasing it by 1.00%

I. Transmission Assets

| | | | | | | | INR Mn |
|-----------|-------------------------------|--------------------|----------|--------------------|----------|--------------------|----------|

III. Fair enterprise Value

| Particulars | Fair EV (INR Mn) |
|--|---------------------|
| Total Fair Enterprise Value of Transmission Assets (A) | 2,22,110 |
| Total Fair Enterprise Value of Solar Assets (B) | 46,702 |
| Total Fair Enterprise Value of SPVs (A+B) | 2,68,812 |

Notes:

- 1. KLMTL project is currently under construction. Hence due to the nascent stage of the project, I find it appropriate to consider the Net Asset Value method for arriving at the enterprise value of KLMTL.
- 2. JKTPL is awarded on DBFOT basis, hence no terminal value is considered
- 3. The end date for JKTPL is considered after extension of 10 years as per TSA.
- 4. PrKTCL operates under Cost Plus Mechanism where the period of services is not mentioned in TSA. Ihave considered a total period of 35 years of useful life based on CERC Tariff Regulations,

2019 and based on discussions with the Investment Manager.

5. TL SitamauSS is currently utilized for captive consumption and considering the projections for the same are not available, I find it appropriate to consider the Net Asset Value method for arriving at the enterprise value of TL SitamauSS.

<<This space is intentionally left blank>>

Section 7: Sources of Information

Sources of Information

For the purpose of undertaking this valuation exercise, I have relied on the following sources of information provided by the Investment Manager:

- Audited financial statements of the SPVs for the Financial Year ("FY") ended 31st March 2019, 31st March 2020, 31st March 2021, 31st March 2022 and 31st March 2023.
- Provisional Profit & Loss account and Balance Sheet of the SPVs for six month ended 30th September 2023.
- Projected financial information for the remaining project life for each of the SPVs
- Projected incremental revenue due to change in law in MTL, NRSS, OGPTL, BDTCL, JTCL, ENICL, GPTL, NERTL and KTL.
- Details of brought forward losses for all SPVs (as per Income Tax Act) as at 30th September 2023.
- Details of written down value (as per Income Tax Act) of assets for all SPVs as at 30th September 2023.
- Details of projected Repairs and Capital Expenditure ("Capex") as represented by the Investment Manager.
- As on 30th September 2023, India Grid Trust holds equity stake in the SPVs as mentioned in the Section 2. As represented to us by the Investment Manager, there are no changes in the shareholding pattern from 30th September 2023 to the date of issuance of this Report.
- Transmission Service Agreement (TSA) of the transmission SPVs with Long Term Transmission Customers and Tariff Adoption Order by CERC.
- Power Purchase Agreements (PPA) entered into by the solar SPVs with their respective customers.
- List of licenses / approvals, details of tax litigations, civil proceeding and arbitrations of the SPVs
- Management Representation Letter by Investment Manager dated 29th October 2023.
- The information provided to me by the Investment Manager in relation to the SPVs included but not limited to historical financial statements, forecasts/projections, other statements and assumptions about future matters like forward-looking financial information prepared by the Investment Manager. The forecasts and projections as supplied to us are based upon assumptionsabout events and circumstances which are yet to occur.
- I have not tested individual assumptions or attempted to substantiate the veracity or integrity
 of such assumptions in relation to the forward-looking financial information, however, I have
 made sufficient enquiries to satisfy myself that such information has been prepared on a
 reasonable basis.
- Notwithstanding anything above, I cannot provide any assurance that the forward looking financialinformation will be representative of the results which will actually be achieved during the cash flowforecast period.
- Information about the SPV's, IGT available in public domain.
- Such other information and explanation as requested by us and as provided by the Management.

Section 8: Disclaimer and Limitations

Disclaimers and Limiting Conditions

- The Report is subject to the limiting conditions detailed hereinafter. This Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.
- Valuation analysis and results are specific to the purpose of valuation and is not intended to represent value at any time other than valuation date of 30th September 2023 (Valuation Date) mentioned in the Report and as per agreed terms of our engagement. It may not be valid for any other purpose or as at any other date. Also, it may not be valid if done on behalf of any other entity.
- This Report, its contents and the results are specific to
 - ii. The purpose of valuation agreed as per the terms of our engagements;
 - iii. The Valuation Date and
 - iv. Are based on the financial information of SPVs till 30th September 2023.
- The Investment Manager has represented that the business activities of SPVs have been carried out in normal and ordinary course between 30th September 2023 and the Report Date and that no material changes have occurred in the operations and financial position between 30th September 2023 and the Report date.
- The scope of the assignment did not involve performing audit tests for the purpose of expressing an opinion on the fairness or accuracy of any financial or analytical information that was provided and used by me during the course of work. The assignment did not involve me to conduct the financial or technical feasibility study. I have not done any independent technical valuation or appraisal or due diligence of the assets or liabilities of the SPVs or any of other entity mentioned inthis Report and have considered them at the value as disclosed by the SPVs in their regulatory filings or in submissions, oral or written, made to me.
- In addition, I do not take any responsibility for any changes in the information used by me to arrive the conclusion as set out herein which may occur subsequent to the date of Report or by virtue fact that the details provided to me are incorrect or inaccurate.
- I have assumed and relied upon the truth, accuracy and completeness of the information, data andfinancial terms provided to me or used by me; I have assumed that the same are not misleading and do not assume or accept any liability or responsibility for any independent verification of suchinformation or any independent technical valuation or appraisal of any of the assets, operations orliabilities of SPVs or any other entity mentioned in the Report. Nothing has come to my knowledgeto indicate that the material provided to me was misstated or incorrect or would not afford reasonable grounds upon which to base this Report.
- This Report is intended for the sole use in connection with the purpose as set out above. It can however be relied upon and disclosed in connection with any statutory and regulatory filing in connection with the provision of SEBI InvIT Regulations. However, I will not accept any responsibility to any other party to whom this Report may be shown or who may acquire a copy ofthe Report, without my written consent.
- It is clarified that this Report is not a fairness opinion under any of the stock exchange/ listing regulations. In case of any third party having access to this Report, please note this Report is not a substitute for the third party's own due diligence/ appraisal/ enquiries/ independent advice that the third party should undertake for his purpose.
- Further, this Report is necessarily based on financial, economic, monetary, market and other

conditions as in effect on, and the information made available to me or used by me up to, the datehereof. Subsequent developments in the aforementioned conditions may affect this Report and the the assumptions made in preparing this Report and I shall not be obliged to update, revise or reaffirmthis Report if information provided to me changes.

- This Report is based on the information received from the sources mentioned in Section 10
 and discussions with the Investment Manager. I have assumed that no information has been
 withheld that could have influenced the purpose of Report.
- For the present valuation exercise, I have also relied upon information available in the public domain; however, the accuracy and timeliness of the same has not been independently verified by me.
- Any discrepancies in any table / appendix between the total and the sums of the amounts listed aredue to rounding-off.
- Valuation is not a precise science and the conclusions arrived at in many cases may be subjective and dependent on the exercise of individual judgment. There is, therefore, no indisputable single value. I have arrived at an indicative EV based on my analysis. While I have provided an assessment of the value based on an analysis of information available to me and within the scope of engagement, others may place a different value on this business.
- Valuation is based on estimates of future financial performance or opinions, which represent reasonable expectations at a particular point of time, but such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, a particular event will occur or that a particular price will be offered or accepted. Actual results achieved during the period covered by the prospective financial analysis will vary from theseestimates and the variations may be material.
- This Report does not look into the business / commercial reasons behind the transaction nor the likely benefits arising out of the same. Similarly, it does not address the relative merits of investing in the SPV as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available. The assessment of commercial and investment merits of the SPV are sole responsibility of the investors of the Trust and we do not express our opinion on the suitability or otherwise of entering into any financial or other transactions with the SPV, Investment Manager, the Trust or the Sponsors.
- I do not carry out any validation procedures or due diligence with respect to the information provided/extracted or carry out any verification of the assets or comment on the achievability andreasonableness of the assumptions underlying the financial forecasts, save for satisfying myself tothe extent possible that they are consistent with other information provided to me in the course ofthis engagement.
- My conclusion assumes that the assets and liabilities of the SPVs, reflected in their respective latestbalance sheets remain intact as of the Report date.
- Whilst all reasonable care has been taken to ensure that the factual statements in the Report are accurate, neither myself, nor any of my officers or employees shall in any way be liable or responsible either directly or indirectly for the contents stated herein. Accordingly, I make no representation or warranty, express or implied, in respect of the completeness, authenticity or accuracy of such factual statements. I expressly disclaim any and all liabilities, which may arise based upon the information used in this Report. I am not liable to any third party in relation to theissue of this Report.

- The scope of my work has been limited both in terms of the areas of the business and operations which I have reviewed and the extent to which I have reviewed them. There may be matters, other than those noted in this Report, which might be relevant in the context of the transaction and which awider scope might uncover.
- In the particular circumstances of this case, my liability (in contract or under statute or otherwise) for any economic loss or damage arising out of or in connection with this engagement, however the loss or damage caused, shall be limited to the amount of fees actually received by me from the Investment Manager, as laid out in the engagement letter, for such valuation work.
- In rendering this Report, I have not provided any legal, regulatory, tax, accounting or actuarial advice and accordingly I do not assume any responsibility or liability in respect thereof.
- This Report does not address the relative merits of investing in InvIT as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could beachieved or are available.
- I am not advisor with respect to legal tax and regulatory matters for the proposed transaction. No investigation of the SPVs' claim to title of assets has been made for the purpose of this Report andthe SPVs' claim to such rights have been assumed to be valid. No consideration has been given toliens or encumbrances against the assets, beyond the loans disclosed in the accounts. Therefore, no responsibility is assumed for matters of a legal nature.
- I have no present or planned future interest in the Trustee, Investment Manager or the SPVs and the fee for this Report is not contingent upon the values reported herein. My valuation analysis should not be construed as investment advice; specifically, I do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Investment Manager or the SPV.
- I have submitted the draft valuation report to the Trust and Investment Manager for confirmation of accuracy of factual data used in my analysis and to prevent any error or inaccuracy in the final valuation report.

Limitation of Liabilities

- It is agreed that, having regard to the RV's interest in limiting the personal liability and exposure tolitigation of its personnel, the Sponsors, the Investment Manager and the Trust will not bring any claim in respect of any damage against any of the RV's personnel personally.
- In no circumstance, RV shall be responsible for any consequential, special, direct, indirect, punitiveor incidental loss, damages or expenses (including loss of profits, data, business, opportunity cost, goodwill or indemnification) in connection with the performance of the services whether such damages are based on breach of contract, tort, strict liability, breach of warranty, negligence, or otherwise) even if the Investment Manager had contemplated and communicated to RV the likelihood of such damages. Any decision to act upon the deliverables is to be made by the Investment Manager and no communication by RV should be treated as an invitation or inducement o engage the Investment Manager to act upon the deliverable.
- It is clarified that the IIML and the Trustee will be solely responsible for any delays, additional
 costs, or other liabilities caused by or associated with any deficiencies in their responsibilities,
 misrepresentations, incorrect and incomplete information including information provided to
 determine the assumptions.

- RV will not be liable if any loss arises due to the provision of false, misleading or incomplete information or documentation by IIML or the Trustee.
- Further, this Report is necessarily based on financial, economic, monetary, market and other conditions as in effect on, and the information made available to me or used by me up to, the datehereof. Subsequent developments in the aforementioned conditions may affect this Report and theassumptions made in preparing this Report and I shall not be obliged to update, revise or reaffirmthis Report if information provided to me changes.
