Independent Auditor's Review Report on the Quarterly and Year to Date Unaudited Standalone Financial Results of the Company Pursuant to the Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

Review Report to The Board of Directors JSW Steel Limited

- 1. We have reviewed the accompanying statement of unaudited standalone financial results of JSW Steel Limited (the "Company") for the quarter ended September 30, 2023 and year to date from April 1, 2023 to September 30, 2023 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 and 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").
- 2. The Company's Management is responsible for the preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and 52 of the Listing Regulations. The Statement has been approved by the Company's Board of Directors. Our responsibility is to express a conclusion on the Statement based on our review.
- 3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
- 4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

- 2. The Holding Company's Management is responsible for the preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and 52 of the Listing Regulations. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the Circular No. CIR/CFD/CMD1/44/2019 dated March 29, 2019 issued by the Securities and Exchange Board of India under Regulation 33(8) of the Listing Regulations, to the extent applicable.

- 4. The Statement includes the results of the entities mentioned in Annexure I.
- 5. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the review reports of other auditors referred to in paragraph 6 and 7 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with recognition and measurement principles laid down in the aforesaid Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013, as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Financial Performance for Second Quarter FY 2023-24

Mumbai, India: JSW Steel Limited ("JSW Steel" or the "Company") today reported its financial results for the fiscal Second Quarter ended 30th September, 2023 ("Q2 FY24" or the "Quarter").

Key Highlights for Q2 FY24

Consolidated Performance:

Crude Steel Production: 6.34 million tonnes

Saleable Steel Sales: 6.34 million tonnes

Revenue from Operations: ₹44,584 crores

Operating EBITDA: ₹ 7,886 crores

Net Profit after Tax: ₹2,773 crores

Net Debt to Equity: 0.92x and Net Debt to EBITDA: 2.52x

The global economy has slowed down compared to last year with growing regional divergences. Inflation has been cooling off across regions but is likely to remain above Central Bank's targets, resulting in "higher for longer" interest rates. The IMF expects the global economy to grow 3% in 2023, similar to its previous forecast of July 2023. While there are several downside risks to global growth, the odds of a hard landing have receded. Evolving geopolitics remains a key concern.

In India, economic activity remains resilient despite global headwinds. Monthly PMI data indicates strong traction in both manufacturing and services sectors. Government's focus on infrastructure and positive consumer sentiment are driving investments. Electricity consumption, e-way bills, rail and port traffic, domestic air passenger traffic, passenger vehicle sales and bank credit growth indicate strong underlying momentum in the Indian economy.

Steel production as well as consumption remains strong, aided by government capex as well as overall healthy economy. India's finished steel consumption during Q2 FY24 was 32.8 million tonnes, up 16.1% YoY while crude steel production grew 15.9% YoY to 34.81mt.

Consolidated Financial Performance for Q2 FY24:

Consolidated Crude Steel Production for the quarter stood at 6.34 million tonnes, lower by 1% QoQ and higher by 12% YoY. The Company had taken certain maintenance shutdowns at Indian operations during the quarter, hence the average capacity utilization was 89%. Capacity utilization was lower at the Ohio, USA operations due to adverse market conditions.

J.A

20th October 2023

Steel Sales for the quarter stood at 6.34 million tonnes, higher by 11% QoQ and 10% YoY. The Company was able to reduce inventories by 0.3 million tonnes during the quarter. Domestic sales at 5.49 million tonnes were up 18% QoQ and 8% YoY driven by strong domestic demand and improvement in product-mix. Exports, at 0.69 million tonnes, constituted 11% of sales from the Indian operations.

The Company registered Revenue from Operations of ₹44,584 crores and Operating EBITDA of ₹7,886 crores, with an EBITDA margin of 17.7%. The EBITDA improved by 12% QoQ, driven by higher sales volumes and lower coking coal cost. This was partially offset by lower EBITDA contribution from the overseas operations.

Exceptional items for the quarter, ₹589 crores gain comprising of following three items :

- (i) Fair value gain of Rs. 780 Crores on its investments held in CSSL upon fair valuation pursuant to merger of CSSL and JISPL.
- (ii) Gain amounting to Rs. 198 Crores upon sale of property, plant and equipment and mineral rights held at West Virginia.
- (iii) A provision amounting to Rs. 389 Crores pursuant to dismissal of Company's writ petition by Honourable High Court of Bombay, Goa Bench in the Goa Green Cess matter.

The Profit after Tax for the quarter was ₹2,773 crores, up 14% QoQ and a significant increase from the loss of ₹915 crores reported in Q2 FY23.

The Company's Net Gearing (Net Debt to Equity) stood at 0.92x at the end of the quarter (as against 0.96x at the end of Q1 FY24), and Net Debt to EBITDA stood at 2.52x (as against 3.14x at the end of Q1 FY24). The Net Debt increased to ₹69,195 crores during the quarter, primarily due to additions of borrowings arising out of merger of JSW Ispat Special Products Limited (JISPL).

Standalone Steel Sales volumes were 5.41 million tonnes for the quarter, higher by 10% QoQ and 8% YoY, due to robust domestic demand and reduction in inventory.

The Company registered Revenue from Operations of ₹33,738 crores, higher by 3% QoQ and 4% YoY. The growth was mainly driven by volumes and partially offset by lower sales realization.

The Company registered Operating EBITDA at ₹6,898 crores for Q2 FY24, higher by 42% QoQ and 296% YoY. The EBITDA margin for the quarter was 20.4%. EBITDA was higher primarily due to lower coking coal cost, partially offset by lower steel realisations.

Outlook:

There has been a slowdown in the global economy compared to 2022 due to the lingering impact of the Ukraine conflict as well as unprecedented monetary tightening to combat inflation. The IMF, in its outlook published in October 2023, expects the global economy to grow at 3% in 2023, similar to its previous forecast of July 2023, but a drop from 3.5% growth in 2022. There have been regional divergences with the US, India, Japan performing better than Europe and China. Inflation is cooling but is expected to remain above Central Banks targets. Downside risks to global growth remain, but the odds of hard landing have receded. Additionally, recent geopolitical developments in the Middle East are a concern.

In the US, healthy services sector and strong labour markets are supporting economic growth. However, the Fed's "higher for longer" stance to control sticky inflation implies elevated rates are likely to sustain. This could result in a slowdown from the end of CY23. In Europe, growth has weakened on elevated interest rates and a global slowdown that has affected exports. Moderating inflation and improvement in global demand will be triggers for recovery.

In China, economic activity had slowed down in early 2023 post the Covid re-opening, and there has been continued weakness in the property sector. However, China's strong Q3 CY23 GDP print of 4.9% along with

other economic indicators such as retail sales, industrial production, services, etc demonstrates positive momentum on the back of targeted policy actions. Further policy measures could add more legs to the recovery.

In Japan, healthy wage hikes are supporting consumption growth, while manufacturing is slowing. A prolonged global slowdown is negative for Japanese exports despite the weakness in the Yen.

Amidst a slowing global economy, India remains a bright spot with healthy economic momentum driven by both manufacturing and services. The government's thrust on infrastructure (spends up 48% YoY FYTD August) and positive consumer sentiment are driving investments. Strong traction in Infrastructure, energy transition, defence and PLI scheme are driving capex. There is strong interest from global investors and corporates to participate in the long-term India growth story.

Healthy tax collections on the back of strong economic activity gives the government capacity for investments and other spending. The festive season demand is shaping up well with healthy growth in consumption. Auto and residential real estate sectors are witnessing robust demand growth. Green shoots are visible in the rural economy, with positive traction in 2W demand and FMCG sales, even as the effects of an uneven monsoon remain a monitorable.

Evolving geopolitics, higher energy prices and a severe global slowdown are key risks to India's economic growth momentum in the near term.
