Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the SEBI Circular CIR/CFD/CMD1/44/2019 dated 29 March 2019 issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), to the extent applicable.

Commenting on the results, Mr. John Owen, Group CEO, Mastek, said: "Last quarter, we flagged the challenges we anticipated by Brexit uncertainty from our core UK market, which generates around 75% of our global revenue. In this context, Q1 was in line with our reduced expectations. Unfortunately, Brexit uncertainty remains and will continue to dampen UK market conditions. We see this impact in a slowing of discretionary spend and delayed decision making. Demand from UK Government continues to remain strong and robust and we continue to grow quarter on quarter, however clients from the private sector are focusing more on stabilizing their business models, adjusting their spending plans to accommodate all scenarios which has consequently, resulted in a slowdown. We are seeing encouraging growth from our US market however, this is insufficient to off-set the UK in the short-term. The fundamentals for Mastek remain solid and we continue to remain focused on executing our Vision 2020 strategy which will give us an accelerated growth platform beyond FY20. We are confident that Mastek is well positioned strategically in its core markets to capitalize on these future growth opportunities. I take this opportunity to thank the loyal support and trust of our customers and the dedicated and committed team at Mastek who serve them with exceptional pride and honour."

Mr. Abhishek Singh, Group CFO, Mastek, said: "Under Vison 2020, we have always taken a disciplined and balanced approach of managing our cost structure and this programme has helped us to maintain steady margins despite softer revenue, which is critical once our growth rates return. We acted quickly and decisively to protect our quality of earnings when we saw our growth plans come under pressure in April, as a result of UK uncertainty on Brexit timelines and deal structure. The highlight for the quarter is the new logo addition in our US business supporting the growth experienced in the current

quarter. Our robust 12 months order backlog gives us confidence in delivering growth in coming quarters."
