Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the Circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

 3. Moschip Technologies, USA

5. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the review reports of other auditors referred to in paragraph 6 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.
6. We as statutory auditors carried out review of two Indian subsidiaries and did not review the interim financial statements / financial information / financial results of one subsidiary included in the consolidated unaudited financial results, whose interim financial statements / financial information / financial results reflect total revenues of Rs.2,660.56 lakhs for the Nine months ended 31 December 2021 total net profit after tax of Rs.98.81 lakhs and total comprehensive profit of Rs.107.76 lakhs for the Nine months ended 31 December 2020, as considered in the consolidated unaudited financial results. Whether the transaction would fall within related party transaction? If yes, whether the same is done at “arm’s length”;	The Transferor Company is a wholly owned Subsidiary of Transferee Company. As such in terms of General Circular No. 30/2014 dated 17 th July, 2014 issued by Ministry of Corporate Affairs and Regulation 23 (5) (b) of the SEBI (LODR) Regulations, 2015, the proposed Amalgamation does not fall within the purview of related party transactions.												
Area of business of the entity(ies);	The Transferor Company and the Transferee Company are engaged in the same line of business namely Semiconductor services and IoT products & Services.												
Rationale for Amalgamation;	(a) The Transferor Company is a wholly owned subsidiary Company of the Transferee Company and engaged in the similar nature of business in order to consolidate the similar nature of business at one place and effectively manage the Transferor Company and Transferee Company as a single entity, which will provide several benefits including streamlined												

	<p>group structure by reducing the number of legal entities, reducing the multiplicity of legal and regulatory compliances, rationalizing costs, it is intended that the Transferor Company be amalgamated with the Transferee Company.</p> <p>(b) The independent operations of the Transferor Company and the Transferee Company leads to incurrence of significant costs and the amalgamation would enable economies of scale by attaining critical mass and achieving cost saving. The amalgamation will thus eliminate a multi-layered structure and reduce managerial overlaps, which are necessarily involved in running multiple entities and also prevent cost duplication that can erode financial efficiencies of holding structure and the resultant operations would be substantially cost-efficient. This Scheme would result in simplified corporate structure of the Transferee Company and its businesses, thereby leading to more efficient utilization of capital and creation of a consolidated base for the future growth of the Transferee Company.</p> <p>(c) The amalgamation will contribute in furthering and fulfilling the objectives and business strategies of all the companies thereby accelerating growth, expansion and development of the respective businesses through the Transferee Company. The amalgamation will thus enable further expansion of the Transferee Company and provide a strong and focused base to undertake the business more advantageously. Further, this arrangement would bring concentrated management focus, integration, streamlining of the management structure, seamless implementation of policy changes and shall also help enhance the efficiency and control of the Transferor Company and the Transferee Company.</p> <p>(d) The synergies created by the scheme of arrangement would increase operational efficiency and integrate business functions.</p> <p>(e) This Scheme provides for the amalgamation of the Transferor Company with the Transferee Company and the consequent treatment of assets and liabilities of respective Companies in the manner provided for in the Scheme.</p>
In case of cash consideration – amount or otherwise Share Exchange ratio;	<p>Since the Transferor Company is a wholly owned subsidiary of the Transferee Company, no cash consideration is involved.</p> <p>Pursuant to this Scheme, no shares of the Transferee Company shall be allotted in respect of its holding in the Transferor Company. Upon the Scheme becoming effective, the entire share capital of the Transferor Company shall be cancelled and extinguished.</p>
Brief details of change in shareholding pattern (if any) of listed entity:	<p>Since the Transferor Company is a wholly owned subsidiary of the Transferee Company, no shares of the Transferee Company shall be allotted in respect of its holding in the Transferor Company. There shall be no change in the shareholding pattern of the Transferee Company.</p>
