Tata Motors Consolidated:

TML continued its strong performance in Q2 FY24 with revenues at ₹105.1K Cr (up 32.1%), EBITDA at ₹14.4K Cr (up 86.4%) and EBIT of ₹7.8KCr (+₹5.9KCr), as all auto verticals continued their profitable growth trajectory. Net Automotive debt reduced to ₹38.7KCr.

JLR revenues improved 30.4% to £6.9b. Strong wholesales and improved mix resulted in EBIT margins of 7.3% (+630bps). CV revenues improved by 22.3% and EBIT improved to 7.9% (+560bps) benefiting from higher realisations, richer mix and favourable commodity prices. PV revenues were marginally down 3.0% impacted by the transition to the new launches while EBIT margins improved by 140 bps to 1.8% due to savings in commodity costs.

Looking Ahead:

We remain optimistic on demand despite external challenges and anticipate a moderate inflationary environment. We aim to deliver a stronger performance in H2, due to a healthy order book at JLR, strong demand for heavy trucks in CV and exciting new generation products in PV. Our financial performance is expected to improve further owing to a richer mix, continued low-break-even in JLR, execution of demand-pull strategy in CV and improving profitability in PV/EV.

PB Balaji, Group Chief Financial Officer, Tata Motors said:

"It is pleasing to see all the businesses deliver on their well differentiated plans this quarter. With a strong product pipeline, a seasonally stronger H2 and continued focus on cash accretive growth, we are confident of sustaining this momentum."

Financials

JLR continued its strong performance of recent quarters with another set of positive results as supply constraints continue to ease, enabling more vehicles to be delivered to clients. Revenue in Q2 FY24 was £6.9 billion, up 30% vs. Q2 FY23 and flat compared to Q1 FY24, impacted by the planned summer shutdowns. EBIT margin was positive 7.3%, up from 1.0% a year ago, but slightly down from 8.6% in the first quarter. The higher profitability year-on-year reflects favourable volume, mix, pricing, and foreign exchange revaluation offset partially by higher fixed marketing and selling costs.

Looking ahead

Looking ahead, production and wholesale volumes are expected to gradually increase in H2 FY24. The EBIT margin for FY24 is now expected to improve to around 8% compared to the 6% plus previously indicated. We continue to expect Free Cash Flow of over £2bn in FY24 with net debt reducing to less than c. £1bn by the end of FY24.

Adrian Mardell, JLR Chief Executive Officer, said:

"I am pleased to announce another strong quarter of financial and operational progress for JLR. We have delivered our best ever cashflow in the first half of this financial year and delivered another profitable quarter due to the strength of our financial performance. These results demonstrate the huge desirability of our modern luxury product portfolio and the skill of our hard-working teams who have increased production to ensure we can satisfy the substantial demand for our cars more quickly."

In preparing the standalone financial results, the respective Management and the Board of Directors are responsible for assessing each company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the company's internal control.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial results or, if such disclosures are inadequate, to modify our opinion.  The Company has received various representations from its employees (past and present) to extend the said pension benefits to them as well. To continue to serve the best interests of all stakeholders and to seek a finality on this matter and avoid long drawn litigation, after careful consideration, the Company has accepted and approved the joint options on the Employees Provident Fund Organisation (EPFO) portal, along with a communication to the EPFO that the Company shall fund the additional liability estimated through actuarial valuation. Accordingly, a provision of ₹ 44.70 crores and ₹ 691.07 crores has been made during the quarter and six months ended September 30, 2023 respectively, which has been disclosed as an Exceptional item. The agreement is with TPG Rise climate SF Pte Ltd and Ratan Tata Endowment Foundation for purchasing 9% and 0.9%, respectively. Tata Motors Limited is amongst the very few companies in India that has its own exempted Pension fund. In the past few years there have been multiple developments on this front. The Company in year 2019 had made an application to surrender the said Pension fund w.e.f October 1, 2019. However, the process of concluding the surrender has not yet happened. The Company incurred losses for three consecutive years (during FY 2019-20, 2020-21 & 2021-22), thereby calling for an automatic cancellation/withdrawal of pension fund exemption status. On November 4, 2022, the Hon'ble Supreme Court also ruled that those who were members of a statutory pension fund as on September 1, 2014, can exercise a joint option with their employer to contribute to their Pension fund beyond the statutory limit and be eligible to draw their pension calculated based on last 5 years average salary.

The Company has received various representations from its employees (past and present) to extend the said pension benefits to them as well. To continue to serve the best interests of all stakeholders and to seek a finality on this matter and avoid long drawn litigation, after careful consideration, the Company has accepted and approved the joint options on the Employees Provident Fund Organisation (EPFO) portal, along with a communication to the EPFO that the Company shall fund the additional liability estimated through actuarial valuation. Accordingly, a provision of ₹44.70 crores and ₹691.07 crores has been made during the quarter and six months ended September 30, 2023 respectively, which has been disclosed as an Exceptional item.

EPFO, however, has returned all the applications approved by the Company. The Company has filed a writ petition with Hon'ble Delhi High Court for seeking directions to EPFO to immediately start administering TML's Pension Fund and not to reject the joint applications. The trade unions have also jointly filed another petition for expediting the transfer of pension fund corpus and accepting the joint applications of the employees for pension on higher salary. The High Court has issued notice to both the Ministry of Labour and EPFO.

- The Board of Directors has, at its meeting held on July 25, 2023, approved (subject to inter alia the requisite National Company Law Tribunal (NCLT), regulatory and other approvals) a Scheme of Arrangement under Section 230-232 of the Companies Act, 2013, between Tata Motors Limited and its shareholders and creditors for reduction through cancellation of the "A" Ordinary shares and the payment of consideration for such reduction through the issuance of New Ordinary shares of the Company, in the manner contemplated in the Scheme of Arrangement. The SSA also includes a provision enabling Tata Motors to further invest over the next two years, at the then prevailing market value.
- 11) On October 30, 2023, Arbitration Tribunal has made an award in the arbitral proceedings pertaining to the capital investments made in the Singur project site in favour of Tata Motors Limited and has directed the respondent West Bengal Industrial Development Corporation (WBIDC) to pay compensation of ₹765.78 crores with interest thereon @11%p.a. from September 1, 2016 till actual recovery plus a ₹1.00 crore towards cost of the proceedings. The total amount as at September 30, 2023 is ₹1,363.45 crores. This event does not require any adjustment to the consolidated financial results as at September 30, 2023.
