Review Report To The Board of Directors of Websol Energy System Limited

- '1. We have reviewed the accompanying statement of unaudited financial results of Websol Energy System Limited ("the Company"), for the quarter and half year ended 30th September, 2023 ("the statement'), being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
- 2. This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued hereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on this Statement based on our review.
- 3. We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we could become aware of all significant matters that might be identified in an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
- 4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with applicable Indian accounting standards and other recognized practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement.

PRESS RELEASE

WEBSOL ENERGY SYSTEM LIMITED For 2ND quarter ended 30.09.2023

Websol Energy System Limited is a listed Kolkata-based manufacturer of solar cells and modules. Over the last five years, the company undertook significant capacity expansion from 100 MW to 250 MW Cell Line with the help of internal accruals and unsecured promoter loans. The Company is now engaged in the commissioning of its new 600MW Mono PERC Cell production capacity along with a 550 module line at Falta SEZ. This is expected to enhance the company's overall capacity and upgrade completely to the new Mono PERC and TOPCON technology.

The Company reported revenue from operations of Rs 0.30 crore for 2nd quarter ended 30.09.2023 in comparisons to Rs 0.18 crores of last quarter ending 30.06.2023. The Company has discontinued its 250MW cell line as a part of the process to graduate towards Mono PERC technology. On account of this, production had to be discontinued to dismantle the old manufacturing equipment and redesign the shopfloor accordingly. In view of this, the company recorded a net loss of Rs (3.95) crores in the second quarter of FY 2023-24.

During the 2nd quarter, the Company completed preferential issue of 34,08,929 shares by way of conversion of existing promoter entities loan (13,08,929 shares) and fresh raise of Rs. 23.52 crores (21,00,000 shares) which has been used as equity towards its current expansion project of 600MW cell line and 550MW Module Line. The company has also completed its second drawdown from IREDA (Indian Renewable Energy Development Agency Limited) of Rs. 63 Crores. Together these funds have been disbursed to necessary equipment providers. The process of installation and commissioning of machinery has already advanced significantly and the Company is expected to begin its trial run in Dec 2023.

The company has planned its expansion in 2 phases – Phase 1 (600MW Cell Line and 550MW Module Line) and Phase 2 (1200MW Cell Line). Ongoing Phase 1 Commercial Production is expected to commence in Jan 2024.
