Auditors have drawn qualification for non-provision of YTM premium up to September 30, 2023.
- 3 The Company has exposure aggregating to Rs.2467.77 crore in its subsidiaries, by way of investments, trade receivables, loans, accumulated interest on these loans. Management is of the view that sufficient efforts are being undertaken to revive the said subsidiaries in the foreseeable future so as to recover carrying value of the investments, loans, and the diminution/provisions, if any exists, is only of temporary nature and accordingly no provision, other than those already accounted for, has been considered necessary. Auditors have drawn emphasis of matter in their limited review report. Further on the basis of principle of conservatism and prudence, the Company has not recognised interest income Rs. 28.26 Crore and Rs. 56.21 crore for the quarter and six months ended on September 30, 2023 respectively, on inter corporate loans, as and when it is realized it will be recognized in the books.
- 4 The Company has paid all amounts fallen due on term loans and Coupon interest on Optionally Convertible Debentures (OCDs) to all lenders including State Bank of India (SBI). On October 25, 2023, SBI has withdrawn the petition filed under section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC) with the Hon'ble National Company Law Tribunal (NCLT), Allahabad Bench. Accordingly, the Hon'ble NCLT vide its Order dated October 25, 2023, has dismissed the petition filed by the SBI, as withdrawn. Requisite intimation in this regard pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 has been submitted to Stock Exchanges vide our letter dated October 26, 2023.
- 5 The Company has received a sum of Rs. 1,361 Crore on 30.10.2023 in respective escrow account maintained exclusively for cane price payments for each of its 14 sugar units from Uttar Pradesh Power Corporation Ltd (UPPCL) through Cane Commissioner Uttar Pradesh by operation of Law. The said amount is paid to the cane growers towards the cane payment arrear for sugar season 2022-23.
- 6 The Company during the last few years have positive EBITDA (Earnings before interest, taxes depreciation and amortisation) however have incurred losses at PAT (Profit after Tax) level and the Company has outstanding sugar cane dues as at September 30, 2023 which it will mitigate through liquidation of its stocks and other accrued benefits. The losses were mainly attributable to higher raw material cost i.e., sugarcane prices fixed by State Government and relatively lower sugar price realization dependent on demand supply dynamics in the market, other input costs, higher depreciation, and finance expenses.

To mitigate the said sugar price risk, Government had fixed Minimum Selling Price (MSP) of sugar @ Rs.31 per kg on lower side which industry associates are advocating to increase the same upto the level of Rs 38-40 per kg. The Government has implemented monthly release mechanism to regulate sugar supplies in the market so that prices remain firm. Further, a sizeable portion of cane/sugar is allowed to divert towards manufacturing of ethanol which is a big push by the government to increase the ethanol production for blending in petrol up to 20% by 2025 which will turn around the economic dynamics of the sugar industry in a positive way.

The Company's investment in equity share of group's power business have good potential of an upside as per its fair value resulting into improvement in the net worth of the Company. The Company is the largest integrated Sugar and Ethanol manufacturing company in India with 14 sugar factories (1,36,000 TCD), 6 Distilleries (800 KLD) and cogeneration (449 MW) facilities and crushes around 14% of the total sugar cane grown in the State of Uttar Pradesh. The Company has huge potential for improvement and growth due to its scale, size and vintage. The Company also expects to receive accrued benefits of Rs 1792.00 crore including interest as on September 30, 2023, under the Sugar Industries Promotion Policy, 2004 for which it is entitled as per Court orders but presently, the matter is sub-judice.

The Company is continuously striving to improve its operational efficiencies by way of improvement in cane area, sugar recovery, pushing it from commodity to brand through improved quality of sugar, increase in production of ethanol by using B heavy molasses, increase in revenue of by-products by improved realisations, saving in bagasse, increase in cogen export etc, reduction of overheads, finance, other costs etc. The Company is also exploring /evaluating various option for corporate restructuring to streamline the business and enhance the Company's value. In view of the above, management expects to generate positive cash flow from operation. Accordingly, the financial results are presented on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the ordinary course of business. This matter has been referred by auditors in their limited review report.

Notes:

- 1 Considering the seasonal nature of industry, the results of any quarter may not be a true and/or proportionate reflection of the annual performance of the Group.
- The Optionally Convertible Debentures (OCDs) aggregating to Rs.3483.25 crore issued by the Parent Company to the Joint Lenders' Forum (JLF) of the Parent Company in accordance with the Scheme for Sustainable Structuring of Stressed Assets (S4A Scheme) towards the conversion of a part of the unsustainable debt, provides the holder an option to exercise the right to convert the outstanding OCDs into the equity shares of the Parent Company at a price in accordance with applicable laws (including the ICDR Regulations). There is a contractual obligation related to the premium payable on OCD at the time of redemption of OCD, which stipulates that the YTM (Yield to maturity) being the difference between weighted average interest and coupon rate interest is payable as redemption premium at the time of redemption of OCD which are redeemable in 13 equal instalments commencing from the financial year 2024-25. The Parent Company considers such premium to be paid contingent on the occurrence of the event of redemption of OCDs, the YTM of Rs.2566.78 crore from the date of allotment of OCDs till September 30, 2023 (including Rs.152.85 crore and Rs. 304.04 crore for the quarter and six months ended on September 30, 2023 respectively) treated as a contingent liability and would be accounted for as finance cost at the time of redemption of respective OCDs. Auditors have drawn qualification for non-provision of YTM premium up to September 30, 2023.
- 3 The Parent Company has paid all amounts fallen due on term loans and Coupon Interest on Optionally Convertible Debentures (OCDs) to all lenders including State Bank of India (SBI). on October 25, 2023, SBI has withdrawn the petition filed under section 7 of the Insovency and Bankruptcy Code, 2016 (IBC) with the Hon'ble National Company law Tribunal (NCLT), Allahabad bench. Accordingly, the Hon'ble NCLT vide its Order dated October 25,2023, has dismissed the petition filed by the SBI, as withdrawn. Requisite intimation in this regards pursuant to Regulation 30 of SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015 has been submitted to Stock Exchanges vide our letter dated October 26,2023.
- 4 The Parent Company has received a sum of Rs. 1,361 Crore on 30.10.2023 in respective escrow account maintained exclusively for cane price payments for each of its 14 sugar units from Uttar Pradesh Power Corporation Ltd (UPPCL) through Cane Commissioner Uttar Pradesh by operation of Law. The said amount is paid to the cane growers towards the cane payment arrear for sugar season 2022-23.
- 5 The Group during the last few years have positive EBITDA (Earnings before interest, taxes depreciation and amortisation) however have incurred losses at PAT (Profit after Tax) level and the Parent Company has outstanding sugar cane dues as at September 30, 2023 which it will mitigate through liquidation of its stocks and other accrued benefits. The losses were mainly attributable to higher raw material cost i.e., sugarcane prices fixed by State Government and relatively lower sugar price realization dependent on demand supply dynamics in the market, other input costs, higher depreciation, and finance expenses.

To mitigate the said sugar price risk, Government had fixed Minimum Selling Price (MSP) of sugar @ Rs.31 per kg on lower side which industry associates are advocating to increase the same upto the level of Rs 38-40 per kg. The Government has implemented monthly release mechanism to regulate sugar supplies in the market so that prices remain firm. Further, a sizeable portion of cane/sugar is allowed to divert towards manufacturing of ethanol which is a big push by the Government to increase the ethanol production for blending in petrol up to 20% by 2025 which will turn around the economic dynamics of the sugar industry in a positive way.

Investment in equity share of group's power business have good potential of an upside as per its fair value resulting into improvement in the net worth of the Group. The Parent Company is the largest integrated Sugar and Ethanol manufacturing company in India with 14 sugar factories (1,36,000 TCD), 6 Distilleries (800 KLD) and cogeneration (449 MW) facilities and crushes around 14% of the total sugar cane grown in the State of Uttar Pradesh. The Group has huge potential for improvement and growth due to its scale, size and vintage. The Parent Company also expects to receive accrued benefits of Rs 1792 crore including interest as on September 30, 2023, under the Sugar Industries Promotion Policy, 2004 for which it is entitled as per Court orders but presently, the matter is sub-judice.

The Parent Company is continuously striving to improve its operational efficiencies by way of improvement in cane area, sugar recovery, pushing it from commodity to brand through improved quality of sugar, increase in production of ethanol by using B heavy molasses, increase in revenue of by-products by improved realisations, saving in bagasse, increase in cogen export etc, reduction of overheads, finance, other costs etc. The Group is also exploring /evaluating various option for corporate restructuring to streamline the business and enhance the Group's value. In view of the above, management expects to generate positive cash flow from operation. Accordingly, the financial results are presented on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the ordinary course of business. This matter has been referred by auditors in their limited review report.

Limited Review Report on Unaudited Quarterly and Year-to-date Standalone Financial Results of Bajaj Hindusthan Sugar Limited under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

To the Board of Directors of Bajaj Hindusthan Sugar Limited

- 1. We have reviewed the accompanying statement of standalone unaudited financial results of Bajaj Hindusthan Sugar Limited ('the Company') for the quarter ended September 30, 2023 and year to date from April 01, 2023 to September 30, 2023 ("the standalone financial results") attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended) ("Listing Regulation"), including relevant circulars issued by the SEBI from time to time.
- 2. The standalone financial results is the responsibility of the Company's Management and has been approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulation. Our responsibility is to express a conclusion on the standalone financial results based on our review.
- 3. We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, 'Review of Interim Financial Information performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the standalone financial results is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
- 4. We draw attention to Note 2 of the standalone financial results, regarding the non-provision of yield to maturity (YTM) premium (contractual obligation) payable on Optionally Convertible Debentures (OCDs). YTM premium is payable at the time of redemption of OCDs pursuant to the Scheme for Sustainable Structuring of Stressed Assets (S4A Scheme) which stipulates that the yield to maturity (YTM) being the difference between weighted average interest and coupon rate payable as redemption premium at the time of redemption of OCDs redeemable in 13 equal instalments commencing from the financial year 2024-25. The Company considers such YTM/ redemption premium as contingent liability and has not provided for the same in the books of account for the quarter and six months ended September 30, 2023 amounting to Rs. 152.85 crores and Rs. 304.04 crores respectively. The aggregate unprovided liability for such YTM from the date of allotment of OCDs till period ended September 30, 2023 is Rs. 2,566.78 crores. Had such

interest been provided on OCD's, the reported loss for the quarter and six months ended September 30, 2023 would have been Rs. 292.70 crores and Rs 508.83 crores instead of loss of Rs 139.85 crores and Rs 204.79 crores respectively and Net worth of the Company would have been Rs. 1.747.05 crores.

- 5. Based on our review conducted as above, and except for our comments in para 4 above, nothing has come to our attention that causes us to believe that the accompanying standalone financial results, prepared in accordance with applicable Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued there under and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations including the manner in which it is to be disclosed, or that it contains any material misstatement.
- 6. (a) As stated in Note 6 of the standalone financial results, the Company during the last few years had incurred losses due to high raw material and other inputs costs, relatively lower realization of sugar, higher depreciation and finance expenses and lower price of Sugar. All these factors resulted into reduction of net worth of the Company. As at September 30, 2023, the Company has sugar cane dues payable to farmers. Further, due to delay in overall debt servicing, the lenders have classified the Company's account as Non performing Assets (NPA) and filed a petition before the Hon'ble National Company Law Tribunal (NCLT) to initiate Corporate Insolvency Resolution Process (CIRP) of the Company. The above factors indicate a material uncertainty, which may cast significant doubt about the Company's ability to continue as a going concern.

The Company is continuously striving to improve its operational efficiency and operating parameters by way of improvement in sugar recovery, increase in production of alcohol/ ethanol by using B heavy molasses, increase in revenue of by-products, increase in Cogen export, reduction of overheads, finance, other costs and monetization of certain non-core assets etc. Also, Sugar Industry associates are advocating for an increase in MSP to the level of Rs 38-40 per kg. Further, a sizeable portion of cane / sugar is allowed to divert towards manufacturing of ethanol which is a big push by the Government to increase the ethanol production for blending in petrol up to 20% by 2025 which will turn around the economic dynamics of the sugar industry in a positive way.

The Company's investment in equity shares of group's power business have good potential of an upside as per its fair value resulting into improvement in the net worth of the Company. The Company also expects to receive accrued benefits under the Sugar Industries Promotion Policy, 2004, for which it is entitled.

The Company has paid all amounts fallen due on term loans and Optionally Convertible debentures (OCDs) to all lenders. Accordingly, lenders have withdrawn the petition and the Hon'ble NCLT vide its order dated October 25, 2023 has dismissed the petition filed, as withdrawn.

In view of the above, the management expects to generate positive cash flow from operation and accordingly, the financial results are continued to be presented on going concern basis, which contemplates realization of assets and settlement of liabilities in the normal course of business.

(b) As stated in Note 3 to the standalone financial results, the Company has exposure aggregating to Rs 2,467.77 crores, in its subsidiaries, by way of investments, loans and accumulated interest on these loans. Management is of the view that sufficient efforts are being undertaken to revive the said subsidiaries in the foreseeable future so as to recover carrying value of the investments and loans, and the diminution/provisions, if any exists, is only of temporary nature and accordingly no provision, other than those already accounted for, has been considered necessary. Further based on the principle of conservatism and prudence, the Company has not recognized interest income for the quarter and six months ended September 30, 2023, of Rs. 28.26 crores and Rs 56.21 crores, on inter corporate loans, as and when it realizes it will be recognized in the books.

Our opinion is not modified in respect of the above matters.
