**Mr S. Suresh, Managing Director commenting on the standalone results for the year mentioned as follows:**

"The performance of the Company for the year was largely impacted due to depressed sugar selling price. This is on account of demand supply mismatch in sugar market caused due to huge sugar production in the country for sugar season 2018-19

The increase of Minimum Selling Price by Rs.2 per kg helped the company realise marginal profits during the Q4 of 2018-19. Production for the year has been in line with the last year. The company exported 46000 MT under Minimum Indicative Export Quota (MIEQ).

Tamilnadu continues to reel under drought conditions for the last two years. Karnataka and Andhra had normal monsoon during the year and accordingly the cane availability for the next sugar season is expected to be in line with the current season.

The Company had installed a back end refinery in Haliyal, Karnataka where there is better cane availability and recovery is also higher. The Company has been aggressive in increasing its share in retail segment through product differentiation, while continuing to be market leader of southern market in the institutional segment.

Nutraceuticals division had a muted performance due to pricing pressure and intense competition in overseas market."
